or Send with Payment To:

**EASTERN IDAHO  
TECHNICAL COLLEGE**  
1600 S. 25th E.  
Idaho Falls, ID 83404-5788

Photos of your childs participation could be taken & used in college publications like this one unless you state your objection

## Camp Information

One week camps start  
June 12th, 19th, July 10th, 17th

students may register for one or more camps

**Morning Camps** 9:00 am - Noon  
Fee: \$70 Per Camp

**Afternoon Camps** 1:00 pm - 4:00 pm  
Fee: \$70 Per Camp

Needs-based scholarships available - Limit one camp per child  
Inquire when registering

## To Register Contact:

EITC Student Services

Phone: 208-524-3000 ext 5345, 5371 or 5344

or

Mail attached form with payment to:  
Eastern Idaho Technical College  
1600 S. 25th E.  
Idaho Falls, ID 83404

## Camp Location

**EASTERN IDAHO TECHNICAL COLLEGE**  
1600 S. 25th E. (1600 Hitt Rd.)  
Idaho Falls, ID 83404-5788  
www.eitc.edu

EITC is an AA/EEO Institution

**Eastern Idaho Technical College**  
1600 S. 25th East  
Idaho Falls, ID 83404

# Summer Camps 2017

Science Summer Camps

One-week camps start June 12, 19, July 10, 17  
(For children completing grades K-6 by June 2017)

Fun Learning  
Awesome  
Exciting

Sponsored by:

**Leland D. Beckman Foundation**

## K - 1st Grade

**\$70<sup>ea</sup>**

### Aloha Hawaii

Teacher: *Kate Danielson*

E Komo Mai! (Welcome!) Build a sand volcano, learn about tide pools, and the creatures living in Hawaii! Find out what happens when gelatin meets pineapple. Make a lava lamp and examine sea shells. Hawaii is full of science experiments!

### Budding Botanists

Teacher: *Matt Hildebrand*

We can't live without plants! Discover the needs of seeds. See how a plant grows. Make a plant maze. Learn the history of a tree. Dissect flowers. Find out what worms are up to in the ground! Make a dandelion parachute. Learn how plants absorb water with cabbage. Even extract DNA from a strawberry in this camp!

### Be a Junior Engineer

Teacher: *Clairene Longhurst*

Build bridges and find out what makes them strong. Design a paper plate marble maze. Make a Newton's Cradle. How strong is spaghetti? Learn about arches, towers, and skyscrapers. Find out this and much more as you design and build your way through the week.

### Kitchen Chemistry

Teacher: *Carolyn Laney*

If you like to eat your science experiments, then this class is for you! Create the phases of the moon. Make your own marshmallows and an edible skin layer cake and fizzy sherbet. Put a sedimentary sandwich together and shrink a chip bag, too! Eat your way through the week.

### All About Yellowstone

Teacher: *Jennifer Barnes*

Grizzly bears, bison, moose, only name a few of the animals in this park. Discover all of the animals in Yellowstone & make animal tracks. Learn about paint pots and hot springs. Make a geyser! Create graham cracker plate tectonics and rock formations. After this camp you will be a Yellowstone expert!

**\$70<sup>ea</sup>**

## 2nd - 3rd Grade

### Triple A

### Amazing, Awesome, Astronomy

Teacher: *Jordan Coggins*

Make your own solar eclipse, so you are ready for the real one on August 21! Create a CD spaceship and make a model meteorite strike. Learn the truth about some of the mysteries that relate to space. Build a lunar settlement, and of course, blast off a mini rocket!! The planets and stars await you in this camp!

All New Program!!

### Lego Robotics and Ozobots

Teacher: *Mike Teske*

In this class students can learn hands-on about robotics and programming. They will program an Ozobot to take a journey through the continents while learning world geography and much more. Each student will have their own Ozobot to use during this camp! Also, students will also have a chance to construct and program their own LEGO Robot that can navigate obstacles, follow directions, and obey commands. Enjoy hands-on learning all week!

### "There's One Hundred and Four Days of Summer Vacation..."

Teacher: *Morgan Hammon*

Come spend a week on experiments that Phineas and Ferb have tried on their TV show!! Make Mega-Bubbles to start the week. Create a Freeze Ray. Discover what a stalactite is and watch one grow. Find out how to make bouncy quicksand. Are you ready for this camp? It is ready for you!

**\$70<sup>ea</sup>**

## 4th - 6th Grade

### Survival Science

Teacher: *Toni Mann*

Embark on a "trip" to learn survival skills and the science behind them. Make a whistle from an acorn, learn how to purify water, and create a transpiration bag. Discover plants that are edible and how to build a shelter. If you love the outdoors, then this camp is for you!

Morning Camps are from 9-Noon - Afternoon Camps are from 1-4pm (No supervision provided between camps)

Camps are for children completing grades K thru 6 by June 2016 • One week camps start June 12, 19, July 10, 17
