## General Responsibilities:

Seeking designer to work with imagery, typography and motion graphics to communicate messages across a variety of platforms that may include print, video, and a variety of digital and social media.

Along with first-rate creative skills, organizational skills are essential. Client work requires detailed documentation of work progress, adhering to deadlines and the ability to shift between projects in a seamless manner. Proficiency with copywriting and editing is also a must.

A variety of computer skills as well as fine art skills will come into play. Projects may entail document layouts, brochures, posters, displays, technical and business illustrations, charts and graphs, 3-D illustrations and animations, models, conceptual illustrations such as infographics, web design and even production work such as mounting and trimming foam core.

## Job Qualifications:

Successful applicant will be proficient with the Adobe Suite, particularly Photoshop, Illustrator and InDesign. Experience with Premiere and After Effects would definitely be a boon. In addition, the job will entail work in PowerPoint and the Microsoft Office Suite, and a willingness to learn new software applications.

## Application Process:

Please send your resume to [careers@mightymcs.com](mailto:careers@mightymcs.com)

Thank you!
