**General Responsibilities:** HAS Inc. is actively looking for a motivated, organized, reliable, full-time LPN in Rexburg to oversee the health and care of 20 patients. This is a management position working with adults that have developmental disabilities. The work is challenging and fast paced, but also very rewarding. The individual has the flexibility to develop and maintain their own schedule and can lead the nursing portion of the Rexburg Region. Some responsibilities included in this position are maintaining accurate records of medications, overseeing and providing training to the direct support professionals, working collaboratively with medical professionals and pharmacies, and scheduling and attending medical and psychiatric appointments. Experience with supervising individuals preferred but not required. This individual must be a self-starter and be able to work independently from direct supervision. Current LPN license required and mental health experience a plus.

**New graduates are encouraged to apply.**

Other responsibilities: oversee medication and injections, maintain the charting of medication (MAR), developing care plans for the patients, scheduling direct care professionals for medication certification class, and ensuring all patients have their prescribed medications and medical supplies in their homes. Maintain audit files from the M.A.R. for state reporting compliance.

**Job Qualifications:** Current Provider CPR Card, LPN License-or date of NCLEX exam scheduled.

**Benefits:** Full health, dental, and vision insurance, Paid Time Off, Retirement Plan, and additional training and certifications is offered to all full-time employees.

**Application Process:** Submit your resume to Melissa via email.
