

JOB POSTING

Job Title: Manufacturing Labor Technician (Summer Job)

Salary: \$11-14 / hr DOE

Job Closing Date (mm/dd/yy): open until filled / Need is urgent

Company Name: FabricSpan

Address: 5116 N 29th E

City/State: Idaho Falls, ID

Phone Number: 208-552-6179

Web Address: www.fabricspan.com

Contact Email: luke.heiner@fabricspan.com

Job Description:

This could be a great summer job. FabricSpan custom manufacturers and ships all over the world for a variety of fabric structures and is urgently hiring to fill 4-5 positions for a manufacturing laborer technician position for either day or night shifts. Day shift starts at 6am until 4:30pm with a half hour lunch and the night shift starts at 4:30pm until 3am with a half hour lunch. Both shifts will typically run Monday through Thursday. All work is done indoors in the plant. Here are a few photos of our facility and projects we've completed.

JOB POSTING

General Responsibilities:

Includes handling and staging large and small PVC fabric panel pieces for assembly, learning to work from shop drawings, operating RF welding equipment, operating other general textile manufacturing equipment, and packaging finished product. Industrial sewing is also included in our process. Help maintain quality control processes.

Job Qualifications:

Operations require reliability, attention to safety, detail, quality and staying productively engaged in the next steps of the assembly process. General construction or roofing experience is a plus. Industrial or general sewing is a plus. Generally, we've found that those willing to learn and work to stay engaged and busy pick up relatively quick the processes involved in assembly.

Application Process:

Call Luke Heiner at 208.552.6179 (office) or 208.201.7882 or email luke.heiner@fabricspan.com. We are looking to hire immediately until positions are filled.
