ACCREDITATION
Eastern Idaho Technical College is accredited by the Northwest Commission on Colleges and Universities, an institutional accrediting body recognized by the Council for Higher Education Accreditation and/or the Secretary of the U.S. Department of Education.

Northwest Commission on Colleges and Universities
8060 165th Avenue NE, Suite 100
Redmond, Washington 98052-3981

SPECIAL NOTICE
Catalogs, bulletins, and course or fee schedules shall not be considered as binding contracts between Eastern Idaho Technical College and students. Eastern Idaho Technical College reserves the right at any time without advance notice to cancel courses and terminate programs; change fee schedules; change the student calendar; change admissions and registration fee requirements; change the regulations and requirements governing instruction in, and graduation from, the institution and its various divisions; and change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine and shall apply not only to prospective students, but also to those who are matriculated at the time in Eastern Idaho Technical College. When economic and other conditions permit, Eastern Idaho Technical College attempts to provide advance notice of such changes. In particular, when an instructional program is to be terminated, Eastern Idaho Technical College will make every reasonable effort to ensure that students who are currently enrolled and who are making normal progress toward completion of those requirements will have the opportunity to complete the program which is to be terminated.

AMERICANS WITH DISABILITIES
Eastern Idaho Technical College is committed to providing educational opportunities to all qualified individuals and, in doing so, complies with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973 which states that no qualified person shall, because of their disability, be denied access to, participation in, or the benefits of any program or activity operated by the College. Students having questions about accessibility or requesting reasonable accommodations, as indicated in the ADA or Section 504, should contact the Disability Resources and Services Office, 524-3000 ext. 3376.

EQUAL OPPORTUNITY
It is the policy of Eastern Idaho Technical College to provide equal educational and employment opportunities, services, and benefits to students and employees without regard to race, color, national origin, handicap, age, creed, or gender, in accordance with Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, and Sections 799A and 845 of the Public Health Service Act. Eastern Idaho Technical College is an Equal Opportunity/Affirmative Action institution and the programs and courses offered are approved for Veterans Administration Benefits. The Equal Opportunity/Affirmative Action Officer may be contacted at 524-3000 ext. 3360.

The information in this catalog is available in an alternate format upon request.
MISSION

*Eastern Idaho Technical College*

provides superior educational services in a positive learning environment that supports student success and regional workforce needs.

VISION

Our vision is to be a superior quality professional-technical College. We value a dynamic environment as a foundation for building our College into a nationally recognized technical education role model. We are committed to educating all students through progressive and proven educational philosophies. We will continue to provide high quality education and state-of-the-art facilities and equipment for our students. We seek to achieve a comprehensive curriculum that prepares our students for entering the workforce, articulation to any college, and full participation in society. We acknowledge the nature of change, the need for growth, and the potential of all challenges.
**EITC CALENDAR**

**FALL SEMESTER (2009)**
July 13: Fall semester open enrollment for non-degree seeking students
August 7: Fall semester registration fee deadline

August 1: Fall 2011 semester registration fee deadline
August 1: Fall 2011 course schedule insert in newspaper

* Daytime credit courses suspended.
** Campus will be closed/no classes.
*** Subject to change.

Classes will meet on Columbus Day and Veteran’s Day.
GENERAL REGULATIONS

Eastern Idaho Technical College will only use official EITC email address for electronic communication purposes.

STANDARD ADMISSION REQUIREMENTS

Eastern Idaho Technical College normally accepts applicants who are high school graduates or the equivalent. Other applicants may be accepted based upon review and evaluation of their education, interests, aptitudes, and experiences.

Applicants for any program must:

q Submit completed application for admission.
q Pay $10 non-refundable application fee.
q Submit official transcript from last high school attended and transcripts from ALL postsecondary educational institutions. Official GED test scores required in lieu of high school transcripts.
q Complete preliminary educational assessment. Achievement testing constitutes part of this assessment process. (Appointment required)
q Schedule an appointment with an admissions counselor. (Appointment required)

For an appointment, call (208) 524-3000, or toll-free 1(800) 662-0261.

Additional pre-admission procedures and requirements exist for some programs; see program descriptions.

Students are accepted into programs and enrolled in courses on a first-applied, first-considered basis. Begin the admission process early to ensure a position in your desired program.

Out-Of-Area Applicants: If you are unable to visit the campus and complete the procedure as outlined above, you may apply by mail and telephone. Submit completed application for admission, the $10 non-refundable application fee, and a letter stating how you would pursue your chosen field of study and how you would use your training. You will be notified of your acceptance status.

Acceptance: Applicants cannot be assured admission until all of the following situations exist:
1. Admission requirements are met
2. Student receives a letter of acceptance from the college

ENROLLMENT PRIOR TO HIGH SCHOOL GRADUATION

Tech Prep: If you were enrolled in Tech Prep programs in high school, you are eligible to receive college credit for articulated courses in which you received an A or B. Tech Prep credits will be evaluated as college transfer credits when you apply for admission and furnish Student Services with official transcripts. A Tech Prep coordinator in the Student Services Office can provide assistance with credit questions. Tech Prep credits are valid for two years after high school graduation.

Dual Enrollment: High school students 16 or older may enroll in up to two courses per semester at EITC as non-matriculated (non-degree seeking) students. You must pay the $10 application fee, take the COMPASS test, and submit a letter from your high school counselor authorizing participation. Students are required to pay full fees for these courses. No federal financial assistance will be available. When the EITC course is completed, grade reports will be sent to the high school. Contact your counselor to receive high school credit for the college courses.

RE-ADMISSION OF FORMER STUDENTS

If you return to the College after an absence of two full years, you must apply for re-admission, pay the $10 application fee, and take the admission assessment unless your scores are already on file. If you applied for admission within the past year but did not attend, simply call the admissions office to update your application. If you do not maintain continuous enrollment, excluding Summer Term, you will lose the right to graduate under the original catalog program requirements and must use the catalog in force at the time of re-enrollment.

NON-MATRICULATED (NON-DEGREE SEEKING) STUDENTS

If you are not interested in pursuing an Associate of Applied Science Degree, an Advanced Technical Certificate, Technical Certificate, or a Postsecondary Technical Certificate, you may be admitted as a non-matriculated (non-degree seeking) student. Students attending under this classification are not required to submit an application or official transcripts from previous education. A non-matriculated student may complete a maximum of 12 credits; however, upon completion of 12 credits, you must complete regular admission procedures at EITC or sign a non-certificate/degree waiver to re-enroll. Non-degree seeking students may register for 9 credits per semester or 3 credits in summer term. High school students may register on a part-time basis with letters of consent from the high school principal, parent(s) or legal guardian(s), and permission from an EITC counselor. Acceptance into this non-degree seeking category does not constitute acceptance into a certificate/degree program. You will not be eligible to receive federal or state financial aid and must meet any pre-requisite/co-requisite requirements for your class(es). Non-degree seeking students are expected to adhere to EITC student policies and should understand that credits earned during non-degree seeking enrollment will be evaluated for program applicability at the time of matriculation. If you fail classes as a non-degree seeking student, this will impact your financial aid eligibility when you enroll as a degree-seeking student.

REGULAR ADMISSION

To apply for regular admission to EITC, you must meet the following requirements:

• High School diploma with a minimum 2.0 GPA
• Placement examination/admission exam. Normally, the COMPASS will be required; however, other exams approved by the Idaho Division of Professional-Technical Education such as the ACT, ASSET or CPT may be substituted
• Satisfactory completion of high school course work that includes at least the following:

Mathematics: 4 credits from challenging math sequences of increasing rigor selected from courses such as Algebra I,
Geometry, Applied Math I and II, Algebra II, Trigonometry, Discrete Math, Statistics, and other higher level math courses. Two mathematics credits must be taken in the 11th or 12th grade. (After 1998, less rigorous math courses taken in grades 10-12, such as pre-algebra, review math, and remedial math, shall not be counted.) It is recommended that you complete 3 years (6 credits) of math.

Natural Science: 4 credits, including at least two credits of laboratory science from challenging science courses including applied biology/chemistry, principles of technology (applied physics), anatomy, biology, earth science, geology, physiology, physical science, zoology, physics, chemistry, and agricultural science and technology courses (500 level and above). It is recommended that you complete 3 years (6 credits) in laboratory sciences.

English: 8 credits. Two credits of Applied English for the Workplace may be counted for English credit.

Other: Professional-technical courses, including Tech Prep sequences and organized work-based learning experiences connected to the school-based curriculum, are strongly recommended. High school work release time not connected to the school-based curriculum will not be considered.

COMPASS Placement Test: COMPASS is an un-timed assessment test used for course advising and for determining your achievement level in the areas of math, reading and writing. It is not a pass/fail test. COMPASS is a computer adaptive test and will move through the various levels of question difficulty, seeking your highest achievement level. While COMPASS is given on a computer, no computer skills are required. Complete instructions are provided on the computer screen.

All applicants to EITC who intend to pursue a Certificate or Associate of Applied Science Degree are required to take the COMPASS (please see note below for exemptions). The test is given throughout the year by appointment only. To schedule an appointment, call Student Services at 524-3000 ext. 3371 or 1-800-662-0261 ext. 3371. There is a $10 fee to take the COMPASS; the fee is waived if the $10 application fee has already been submitted. Test scores are valid for two years.

Exemptions to COMPASS Testing: Those applicants to EITC who already have earned at least a two-year degree from a regionally accredited institution or those who have completed the required general education classes at a regionally accredited post-secondary institution with a grade of “C-” or better.

Special Arrangements for Students with Disabilities:
Please contact the Disability Resources and Services Office 524-3000 ext. 3376 if you have a disability or temporary disabling condition that will prevent you from taking the tests under standard conditions. Arrangements for accommodations must be made prior to scheduling a test date.

STANDARDS FOR HIGH SCHOOL GRADUATES PRIOR TO 1997 SEEKING REGULAR ADMISSION

• High School diploma with a minimum 2.0 GPA, or
• General Educational Development (GED) certificate, and Placement examination.

Normally, the COMPASS is required; however, other tests approved by the Idaho Division of Professional-Technical Education, such as the ACT, ASSET or CPT, may be substituted. All test scores are valid for two years.

PROVISIONAL ADMISSION

If you do not meet the requirements for regular admission you may be admitted to EITC on provisional status (provisional admission will not be granted to foreign students). You will be required to successfully complete appropriate remedial, general and/or technical education course work related to the professional-technical program in which you wish to enroll and to demonstrate competence in that program. To apply for provisional admission, you must have a high school diploma or GED certificate and take a placement examination (ACT, COMPASS or ASSET).

PROCEDURES FOR PLACEMENT INTO SPECIFIC PROFESSIONAL-TECHNICAL PROGRAMS

Professional-technical programs require different levels of competency in English, science, and mathematics. You should be familiar with the demands of a particular occupation and how that occupation matches your individual career interests and goals. Some programs have specific entry requirements in addition to the general requirements. Please refer to the program description section of the catalog for information regarding program specific entry requirements.

FEE REFUNDS FOR ALL CLASSES

If you wish to withdraw from a course during a semester you do so officially through both the Student Services Office and the Business Office.

Refund of registration fees is computed from the official last day of attendance.

Registration fee refunds will be made as follows:

Withdrawal prior to first day of term -- 100%
Withdrawal during first week of course - 75%
Withdrawal during the second week of course - 50%
Withdrawal during the third week of course - 25%
No refund after the third week of course.

A $10 administrative fee will be deducted from all refunds except for cancelled courses. Some miscellaneous fees are not refundable. Financial aid recipients may be required to repay some or all financial aid upon withdrawal, depending on the type of aid received, the documented last day of attendance, and applicable rules and regulations governing financial aid.

The refund policy is not changed for late registrants. If you register late, you will not receive a refund on any portion of the late processing fee. Eastern Idaho Technical College reserves the right to deduct from the refund any outstanding bills. You will receive an itemized statement of deduction with the refund check. Fee refunds will first be used to offset any financial aid you may have received. Any balance remaining will be mailed to your home address or address of payee.

DELINQUENT ACCOUNTS
If your account is delinquent, your registration may be cancelled and file frozen after you have been properly notified. If you are indebted to the college (i.e. insufficient fund checks, library or parking fines, coverall fees, etc), you will not be eligible to receive an official transcript, certificate, degree, or verifications. You will not be allowed to register for classes until indebtedness is cleared or arrangements have been made with the Business Office.

RESIDENT STATUS
Section 33-3717B Residency Requirements, Idaho Code
IDAPA 08.01.04 – Rules Governing Residency Classification

Definition is as follows: Idaho residency status MAY be determined by one or more of the following. Please check all statements that are applicable if claiming Idaho residency for tuition purposes. Residency for community colleges is determined by county of residence. Checking any one box does not establish residency. Records may be requested.

State of Residence:
From: / / to: / /  
If less than 12 months, previous state:

County of Residence:
From: / / to: / /  
If less than 12 months, previous county:

☐ One or more of my parents/legal guardians or spouse’s parents is domiciled in Idaho and has maintained a bona fide domicile in Idaho for at least 12 months prior to the opening day of the term which I plan to enroll, and I receive at least 50% of my financial support from my parents or legal guardians.

Parent’s name and address
From / / / / to / / / /  

☐ I receive less than 50% of my financial support from parents/legal guardians. I have continuously resided in Idaho for purposes other than education for at least 12 months prior to the opening day of the term which I plan to enroll.

☐ I am/will be a graduate of an accredited Idaho high school and I will attend this institution during the term immediately following high school graduation.

☐ I am married to an Idaho resident. My spouse is a resident of County.

☐ I or my spouse is a member of the Armed Forces stationed in Idaho on military orders. I or my spouse is stationed in County. Records may be requested.

☐ One or more of my parents or legal guardians, from whom I receive 50% or more of my support, is a member of the Armed Forces stationed in Idaho. They are stationed in County.

☐ I am an officer or an enlisted member of the Idaho National Guard.

☐ I have been separated under honorable conditions from the Armed Forces after at least two years of service. At the time of separation, I designated the State of Idaho as my intended domicile or indicated Idaho as my home of record, and I am entering this institution within one year of the date of separation.

☐ I have been away from the State of Idaho for a period of less than 30 months. I have not established legal residence elsewhere. I was a resident of the State of Idaho for a continuous 12-month period immediately prior to departure.

☐ I am a member of one of the following Idaho American Indian tribes: Coeur d’Alene, Shoshone-Paiute, Nez Perce, Shoshone-Bannock, Kootenai.

A “nonresident student” shall be:
Any student who does not qualify as a “resident student” under the provisions of subsection (1) of this section, and shall include:

• A student attending an institution in this state with the aid of financial assistance provided by another state or governmental unit or agency thereof, such non-residency continuing for one (1) year after the completion of the semester for which such assistance is last provided.

• A person who is not a citizen of the United States of America, who does not have permanent or temporary resident status or does not hold “refugee-parolee” or “conditional entrant” status with the United States immigration and naturalization service or is not otherwise permanently residing in the United States under color of the law and who does not also meet and comply with all applicable requirements of this section.

An Affidavit for Resident Status may be obtained from the Registrar. The Registrar makes residency decisions for registration purposes. Student may appeal the decisions through the Dean of Students.
REGISTRATION
Students will be notified of registration and orientation dates via EITC email address. Students are expected to register according to the registration days listed in the EITC calendar. Students who register late will be charged a non-refundable $15 late fee. (The Business Office is not authorized to accept late registration fee without the appropriate late processing fee.)

GRADUATION REQUIREMENTS
To determine graduation eligibility, the Registrar follows the requirements defined in a single edition of EITC’s catalog. Students may select any edition of the catalog, provided the catalog is published and in force while they are enrolled at EITC. Students must earn a minimum grade of “C-” in all required courses in order to meet graduation requirements, unless otherwise stated in a particular program. In addition, an accumulative grade point average of 2.0 or higher is required for graduation. The College reserves the right to make course substitutions for discontinued classes. If you do not maintain continuous enrollment, you will lose the right to use the original catalog requirements and must use the catalog in force at the time of re-enrollment. When students change their program of study, they must submit a Change Program/Major form. Students are required to graduate under the catalog in effect.

CERTIFICATES/DEGREE

Apply for graduation by filing an Application for Graduation with the Registrar by the deadline on the EITC calendar. Forms are available either from the student’s faculty advisor or the Student Services Office. Student records are checked carefully for successful completion of program requirements when the Application for Graduation is submitted to the Registrar’s Office; however, it is your responsibility to verify that the degree audit has been completed and all requirements have been met.

All requirements for a certificate or degree must be completed and official grades reported to the Registrar before a certificate or degree is issued. A $10 graduation fee will be assessed for each certificate and/or degree received and must be paid before the certificate or degree is issued. A certificate or degree which is awarded in error, or upon fraudulent claims, will be withdrawn immediately and the student record corrected. The College reserves the right to revoke a previously granted certificate/degree, either for failure to satisfy the certificate/degree requirements (i.e., a mistake in granting the certificate/degree), or for fraud or other academic misconduct on the part of the recipient discovered or acted upon after the certificate/degree has been awarded. Certificates or degrees issued by EITC are unique documents. Duplicates will not be issued.

ASSOCIATE OF APPLIED SCIENCE DEGREE
The AAS degree requires a minimum of 16 hours of general education credits. Please reference the General Education Division Section. Check with division managers for specific information on the differences between AAS degree program requirements and the requirements for certificate programs.

RESIDENCE REQUIREMENTS FOR GRADUATION
Students seeking a Postsecondary Technical Certificate, Technical Certificate, Advanced Technical Certificate, or an Associate of Applied Science Degree must complete no fewer than 25 percent of the credit requirements in residence at Eastern Idaho Technical College.

GRADING SYSTEM
Grades reflect the ability of each student to meet the performance objectives required to complete the program. Letter grades are given with the following equivalents:

A, A-..................Excellence in the performance of required objectives
B+, B, B-.............Above satisfactory achievement of the required objectives
C+, C, C-.............Satisfactory achievement of the required performance objectives
D+, D, D-.............Unsatisfactory achievement of the performance objectives
F..........................Failure to meet the minimum performance standards. No credit is awarded.
P =Pass..................All work completed in a satisfactory manner.
S= By Entrance Exam
W=Withdraw........Student Withdrawed from school prior to mid semester plus two weeks deadline. No credit awarded.
WAV= Waiver.......Student exempt from course because of demonstrated prior college level learning. Petition for waiver may be obtained at the Registrar’s Office. No grade will be awarded for waived classes
CH= Challenge....Through petition, you may be granted an opportunity to challenge a course by passing a comprehensive test(s) with a grade of “C” or better. Credit received for the course will apply toward graduation. A “CH” will be recorded on your transcript
IC=Incomplete.....When the quality of your work is satisfactory but some essential requirement of the class has not been completed for reasons acceptable to the
instructor, an Incomplete (IC) will be issued and additional time granted for completion. An incomplete is not a substitute for a failing grade and may be given only when course work can be completed without further attendance in the classroom and/or lab. If you receive a grade of IC you will have until mid-semester of the EITC Calendar after the semester in which the incomplete was received to complete the work. Incomplete’s are issued on a contractual basis. An Incomplete Grade contract will be completed by the instructor issuing the incomplete and discussed with you prior to the conclusion of a semester. (This is calculated as “F” until course work is completed) The official copy of the contract must accompany the official grade report submitted to the Registrar’s Office.

IW = Instructor.....Initiated Withdrawal. Instructors may initiate a student withdrawal for excessive absenteeism.

Figure Your GPA (Grade Point Average): To calculate grade point average, first multiply the number of credits each class is worth by the point value for the letter grade earned in that class. A = 4 points per credit; B = 3; C = 2; D = 1 point; IW and F = 0 points. This calculation will give you the grade points for each class. Next, total the grade points of all classes for that semester and divide it by the number of credit hours attempted. The result is your GPA.

Example:

<table>
<thead>
<tr>
<th>Class</th>
<th>Grade Points X Credits Total Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 107</td>
<td>B 3 X 3 = 9</td>
</tr>
<tr>
<td>ENG 101</td>
<td>C 2 X 3 = 6</td>
</tr>
<tr>
<td>COM 101</td>
<td>A 4 X 3 = 12</td>
</tr>
<tr>
<td>CMP 101</td>
<td>B 3 X 1 = 3</td>
</tr>
<tr>
<td>TOTALS</td>
<td>10 X 30 = GPA 3.0</td>
</tr>
</tbody>
</table>

Grade Point Average - Transfer Credits: Grade point averages for transfer students are based on credits earned only at EITC.

Grade Explanation: The following ARE INCLUDED in the calculation of grade point averages (GPA):

The following ARE NOT INCLUDED in the calculation of grade point averages:
- S = By entrance exam
- W = Withdrawn
- P = Pass
- AU = Audit (no credit earned)
- CH = Challenge Exam
- IC = Incomplete (calculates as “F” until course completed)

NON-PROGRAM COURSES
- NP = Course not required for program of study (not calculated in GPA)

REPEATED COURSES
- E = Failed first time and repeated course (not calculated in GPA)
- I = Repeated failed course (calculated in GPA)
- R = Indicates grade has been replaced by repeating a course

Transcripts of courses taken from August 2008 forward
- Financial Aid will not be received for repeated courses

Repeating Courses: Course repetition to improve grades is allowed, regardless of the grade received, with the exception of some professional program components. Therefore, it is recommended to visit with your advisor before repeating a course. Courses awarded “C-” grades or higher may be repeated. However, the credit for the repeated course will not be included in the calculation for Federal Financial Aid awards. A grade issued by an instructor is the prerogative of the instructor and normally may not be changed except to correct a recording error. Any question about the accuracy of a grade should be referred to the appropriate instructor.

When a class has been repeated, the credit used in calculating the GPA is the grade and credit earned the last time the repeated class was taken. The grade for the most recent class will be used for computing semester and/or cumulative GPA. Both grades will appear on the student’s permanent record.

Grade Appeal: Any grade appeal must be formally submitted to the Registrar’s Office no later than 20 working days after the beginning of the succeeding semester in which the student received his/her grade.

Auditing Courses: Students may audit courses on a space available basis without credit or grade. Students taking a course for “no credit” need not complete assignments or exams used to determine grades. The intent to audit a course must be stated at the time of registration. The fee for audit is the same as for credit. Audited courses are not counted as part of a student’s enrollment status and students cannot receive financial aid for audited courses. Audited courses will be recorded on transcripts as “AU” and “0” credit.

Challenge Examinations: Students who feel that their experience or previous knowledge would enable them to successfully challenge a course offered at EITC may petition to take a challenge examination. Challenge examinations may be taken at any time during a semester/term at a cost of $15 per credit, payable in the Business Office prior to taking the examination. Challenge tests are not available in all courses. For petition procedure, contact the Registrar in the Student...
Academic Honesty: Academic honesty mandates the use of one's own thoughts and materials in writing papers, taking tests, and in other classroom, or shop/lab related activities. Students who aid others in any infraction of academic honesty are considered equally guilty.

Unauthorized use of another individual’s notes or materials, plagiarism, copying during tests, or unauthorized prior knowledge of tests, quizzes, or taking other unfair advantage shall be considered a violation of the academic honesty policy.

When students are asked to submit individual work, they are expected to do so. When students are assigned to work together on a project, it is not considered a breach of academic honesty for them to gain from each other’s experience and to share ideas.

The concept of academic honesty is designed to assure a uniform standard against which to evaluate all students and to prevent cheating. Students are expected to report infractions to their instructors.

Violation of this policy may lead to suspension from the college.

Academic Probation: Should your cumulative GPA fall below 2.0 or if you have fallen below the standards consistent with the program’s maximum time frame, you will be placed on academic probation for the following semester. You may return to good standing by achieving a cumulative 2.0 GPA and complying with the maximum time frame standards.

If you are on probation and earn a GPA of 2.0 or higher during the next semester after being placed on probation, but if your cumulative GPA is still below 2.0, you will remain on probation; you will be dismissed at the end of any probationary semester in which you obtain a GPA of less than 2.0.

Failure to meet probationary terms will result in suspension for one semester. At the end of one semester, you may submit a formal petition seeking readmittance. Petition forms and instructions are available from the Registrar. Readmittance will be granted only if you can demonstrate that the academic impediments have been re-mediated. All readmission will be granted on a probationary basis only, based upon space availability. Any student on academic probation will not be eligible for federal financial aid.

Academic Suspension: A student who has been suspended due to unsatisfactory progress may appeal the decision within five working days from the time of the action. Appeal in writing to the appropriate division manager and explain any mitigating circumstances that you feel caused your inability to meet the minimum standards. The division manager will review and respond to the appeal within five working days of the receipt of the appeal.

Academic suspension will be effective for a minimum of one semester, at which time you must petition for re-enrollment. Students suspended for violation of the Academic Honesty policy will receive an “F” in any class in which the cheating occurred whether or not the cheating takes place prior to mid-semester.

Change of Program: To change a program, a currently enrolled student must complete the Petition to Change Program or Major form. The petition is available in the Registrar’s Office. Once all required signatures are gathered the student must return the petition to the Registrar’s Office.

If a student is on probation and changes to another program, the probation status is transferred to the new program. Students entering a new program after academic dismissal enter on academic probation.

Student Records: The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights are:

- The right to inspect and review the student’s education records within 45 days of the day the College receives a request for access. Students should submit to the Registrar, Dean of Students or division manager a written request that identifies the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected.
- The right to request the amendment of the student’s education records that the student believes is inaccurate
or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is defined as a person employed by the College in an administrative, supervisory, academic, or support staff position, (including law enforcement unit and health staff); a person or company with whom the College has contracted, (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or assisting another school official in performing his or her tasks; or a student serving on an official school committee. A school official has a legitimate educational interest to review an education record in order to fulfill his or her professional responsibility.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202-4605

Directory Information: Eastern Idaho Technical College deems the following student records as Directory Information: student name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, dates of attendance, grade level, enrollment status (e.g. full or part-time), participation in officially recognized activities, degrees, honors and awards received, and most recent education agency or institution attended. Release of student records and information other than directory information can only be accomplished when the student submits a signed written release.

Drop/Add: Classes may be added to a registration form prior to the beginning date of a semester or summer term. Beginning the first day of a semester, classes may be added by completing an official Schedule Change Drop/Add card with an instructor’s signature. No classes may be added after the first week of the semester or the first week of the summer term. The same process is to be followed for dropping a class. The Schedule Change Drop/Add cards are available in the Registrar’s Office. No entry is made on your record for classes dropped before the end of the first week of a semester or summer term.

Official Withdrawal: You are responsible for dropping or withdrawing from classes you are not attending nor intending to complete in the current registration period. You may drop classes through the first week of a semester or summer term. No entry is made on your transcript for classes dropped before the end of the first week of a semester or summer term. In order for you to officially withdraw from a class, you must complete a drop card for each individual class or a withdrawal form if you are withdrawing from all classes. Drop cards and/or withdrawal forms must have the appropriate signatures and be submitted to the Student Services Office prior to published deadlines. You may withdraw from classes after the first week and through the 10th week of the semester or summer term deadline published in the catalog and EITC Calendar. If you withdraw on or before the published deadline, a “W” will be recorded on your transcript. After the published deadline, a withdrawal “W” will only be authorized in cases of documented circumstances of hardship, medical, or training-related employment. The following exception will apply: The mid-point date of any class that does not span a full semester will be the last day to withdraw without grade penalty.

If you withdraw after the 10th week deadline or do not meet one of the above criteria, you will be issued an “F” for all coursework not completed. If you fail to complete the official withdrawal process, you will be considered enrolled and will be graded appropriately.

Withdrawing completely, or from an individual course during the semester may adversely affect federal financial aid. It is recommended that you consult a financial aid advisor prior to withdrawing.

Instructor-Initiated Withdrawal (IW): The course instructor may withdraw you from a class for non-attendance. Please consult the course syllabus.

Transfer Credit: Transfer credit will not be evaluated until you have applied for admission and furnished student services with official transcripts. Transfer credit is generally awarded for work completed at a post-secondary institution recognized as a college or university by a regional accrediting association. The Registrar and appropriate faculty will review courses for transfer prior to enrollment at EITC to determine applicability to program graduation requirements. Applicants are encouraged to submit documents well in advance of their anticipated enrollment date in order to facilitate the review process. Transfer credit will not be granted for any course in which a student received less than a “C-”.

The nature of the subject matter covered in technical course work is such that frequent changes in course competencies occur in order to keep pace with industry demands. Because of this, some previously completed courses may not be of value in meeting current graduation requirements. The relevancy of previously completed courses will be evaluated on a case-by-case basis by appropriate faculty.
Students transferring from EITC to other post-secondary institutions must request that official transcripts (http://www.eitc.edu/pdf/College1.pdf) be forwarded to the institution of choice. Receiving institutions have the prerogative to evaluate the applicability of credits for transfer. Within Idaho, Boise State University, Idaho State University, and Lewis-Clark State College have Bachelor of Applied Science and/or Bachelor of Applied Technology programs that have been designed specifically for technical college students who have completed the Associate of Applied Science degree and wish to continue their education. It is recommended that interested students contact the college or university that they plan to attend well in advance of completing the AAS to obtain specific information regarding transfer of credit and graduation requirements.

College Level Examination Program (CLEP): EITC will accept a limited number of applicable CLEP exams.

Advanced Placement: Students who complete an advanced placement course in high school and receive a score of 3, 4, or 5 on the corresponding College Advanced Placement examination may be granted credit toward graduation requirements. Additional information is available in the Student Services Office.

Transcripts and Grades: Semester grade reports will be provided once the grades have been issued and recorded in the Student Services Office, where official transcripts of grades and enrollment are recorded. All inquiries regarding student records should be directed to the Student Services Office.

The Registrar’s Office supplies transcripts of academic records to students who have no outstanding obligations to the college. Request a transcript in writing at least 7-10 working days before you need it. Each copy will be $5.00. Transcripts on file from other institutions were obtained for Eastern Idaho Technical College’s use and will not be released to the student or other institutions.

Transcripts Fax Policy: EITC sends transcripts to secure fax numbers to colleges and universities. EITC also keeps a list of secure fax numbers to reference and follows the criteria set by the American Association of Collegiate Registrars and Admission Officer’s (AACRAO). The cover sheets must include:

Name of college or university
Name of person fax is sent to
Secure fax number

**STUDENT APPEAL PROCEDURES**

Every student has the right to appeal any action or policy deemed to be unfairly or improperly imposed.

**Academic Grievances:** Academic Standards Committee (grade changes, withdrawal, etc.)

**Discrimination Grievances:** File through the EEO office

**General Student Grievances:** For violations of the student code of conduct and rights/responsibilities

The Campus Appeals Board shall constitute the hearing panel and will be chaired by either the Dean of Instruction or the Dean of Students, depending on the nature of the appeal. The members of the board shall include two faculty, appointed by the Faculty Senate Executive Board, one member from the Student Services office, appointed by the Dean of Students, two student representatives selected by the Student Senate, the Dean of Students, or the Dean of Instruction.

**Step 1.** It is recommended that the student seek out the individual with whom the student has a grievance to discuss the issue and reach a mutually acceptable solution.

**Step 2.** In the event the complainant cannot reach a suitable conclusion with the individual with whom he/she has a grievance, he/she should submit a written appeal to the appropriate Division Manager. The written appeal must be presented to the appropriate Division Manager within ten working days of the grieveable occurrence. In the event the grievance involves the Division Manager, the appeal may be submitted to the Dean of Instruction. The Division Manager or Dean reviews the information and meets separately with the student and others as needed and then renders a decision within five working days. Written notice of the decision will be sent to the complainant.

**Step 3.** If the complainant is not satisfied in Step 2, he/she may request a review by the Campus Appeals Committee. The complainant must submit a written request for a hearing by the Campus Appeals Committee. The request must be submitted to the chairperson of the Campus Appeals Committee and the Dean of Students or Dean of Instruction, within five days after receiving the decision from Step 2. The chairperson of the Appeals Committee will arrange for a hearing within ten days of receipt of the request. Within five days of the conclusion of the hearing the chairperson will set forth a written document addressing the decision. A copy of the document will be sent to the complainant, the Division Manager, the Dean of Students or Dean of Instruction, and the College President.

**Step 4.** If the complainant is not satisfied with the outcome of the hearing with the Appeals Committee in Step 3, he/she may request a review by the College President. The complainant must submit a written request to the College President within five days of the conclusion of Step 3. The College President shall review the issues and render a decision.* Administrative decision may result in one of the following:

1. Upheld decision of Appeals Committee
2. Administrative disposal

* The decision of the College President is final.
CODE OF CONDUCT
As a student at Eastern Idaho Technical College, you must recognize the importance of cooperative participation within an environment where all involved participate in the advancement of learning. A college community offers an opportunity to improve knowledge and skills and to enhance earning potential. Students are encouraged to recognize personal obligations to act in a responsible manner, both academically and behaviorally, and to be considerate of others while accepting the obligation.

EITC provides the following Student Code of Conduct as a personal and instructional guide in order to guide personal behavior and to establish the process of intervention when behaviors become unacceptable. The following activities will not be tolerated while students are participating in instructional activities, student activities or special events:

1. Disorderly conduct will not be allowed on campus, in the classroom, on field trips or tours, at any college related activity, or in the cafeteria. Disorderly conduct is defined as behavior by an individual or group that infringes upon the rights or well being of another individual or group.
2. Willful destruction of property will result in restitution of damages and possible sanctions against the student.
3. Theft or unauthorized removal/usage of college equipment, books, materials, or property belonging to instructors or guests of the College is strictly prohibited.
4. Lewd/indecent conduct or the dissemination/display of indecent literature is not tolerated.
5. Alcoholic beverages or controlled substances are not allowed on college owned or controlled property or at functions sponsored by Eastern Idaho Technical College. The State Board of Education has consistently opposed any policy permitting intoxicating beverages on college owned or controlled properties. Storage, sale, manufacturing, distribution, possession or use of any illicit drugs or alcohol is prohibited. Prescribed medications are to be used only at the direction of a licensed physician. Violation of this policy can lead to suspension or probation.
6. Gambling and games of chance involving money are prohibited. Card playing is allowable in the student cafeteria or break areas provided betting or exchange of money does not occur.
7. By the Governor’s Executive Order: “All state-owned or state-leased buildings, facilities, or areas occupied by state employees shall henceforth be designated as ‘non-smoking’ except for custodial care and full-time residential facilities. The policy governing custodial care for full-time residential facilities may be determined by the directions of such facilities. Further, I hereby encourage all employees in the State of Idaho to promote a non-smoking policy in all buildings occupied by state employees.”
8. Fire and shop safety rules are to be observed at all times. Misuse or tampering with safety equipment is forbidden. Every three months, Eastern Idaho Technical College is required to hold an evacuation of the buildings to comply with the Fire Marshall’s regulations. When the fire alarm sounds, all faculty, staff and students are to proceed in an orderly and quiet manner out of the building in accordance to prearranged paths. Do not use elevators. When outside, continue proceeding away from the buildings. Remain there until an all clear signal is given to return. Instructors are to arrange for a check of students to be certain that all are out of the building.
9. Disciplinary measures will be exercised for insubordination or conduct detrimental to good order and discipline within the College including conduct that is harmful, obstructive, disruptive or interferes with the education process, institutional functions, contractual agreements or public peace and tranquility.
10. Use of an automobile on college property is a privilege. Students wishing to park a vehicle on campus must obtain a parking sticker from Student Services upon registration. The sticker is to be displayed in the lower left-hand corner of the rear window (Please refer to campus parking).
11. Disrespect or physical/verbal abuse of a faculty/staff member or failure to comply with directions given by a faculty/staff member in the performance of his/her duties will not be tolerated.
12. Weapons, including firearms, knives, and explosives are not allowed on the College grounds.

Sanctions
Violation of attendance policies, the Code of Conduct or other college policies may result in one or more of the following sanctions. These are listed in order of least to most severe. This is not to imply that sanctions will be given in this order. Severity of the sanction is at the discretion of college officials.

1. Warning: A notice to the student verbally, or in writing, from a college official stating that a policy has been violated and that continued violation may result in more severe sanctions.
2. Censure: A written reprimand warning the individual or group that repeated infractions will result in official sanctions. Restrictions on minor privileges may be imposed.
3. Restitution: The replacement, repair or other form of compensation for damages, physical loss or injury to property or persons.
4. Probation: Formal notification indicating a policy has been violated and identifies terms for continued enrollment. Probationary status equates to “not in good standing”.
5. Suspension: A decision that excludes that student from classes, activities, and/or presence on college properties for at least one semester. A student who
General Regulations

has been suspended may request readmission after his/her terms of suspension have been met. The student shall submit a written petition requesting readmission. Readmission may be granted, denied, or postponed subject to fulfillment of conditions established by the College. If readmission is granted, enrollment will be probationary for one semester. Readmission will be granted on a space available basis only. Petitions are available in the Registrar’s office.

6. Expulsion: An administrative decision that terminates the student from the College for an indefinite period of time.

NAME CHANGE

In order to change a name on an official student record, a student must provide proof of name change. The following are acceptable proof of name change:

1. Social security card, listing legal name
2. Drivers License showing the new name or Government issued picture identification card.

Present original documentation to the Admissions Clerk in Student Services. Originals will be copied and returned.

SAFETY

It is expected that students will adhere to good safety practices, including observing non-smoking regulations. Flagrant or continued violations will lead to suspension or other disciplinary action.

ATTENDANCE AND WORK HABITS

Each program has implemented rigid attendance policies. You are expected to attend all scheduled classes. All work and assignments missed must be made up at the discretion of the course instructor. Absence from class does not excuse you from completing assigned work.

DISHONORED/DEMAND PAYMENT POLICY

A charge of $20 will be assessed, and you will be notified in the event a check is returned from the bank due to non-payment. A charge will be entered against your account and a hold placed on all records and continued attendance if the check does not clear.

ALCOHOLIC BEVERAGES/ILICIT DRUGS

Possession, consumption, or distribution of illicit drugs or alcohol on College property or at any College activity is strictly prohibited. Prescribed medications are to be used only at the direction of a licensed physician. Violation of this policy can lead to suspension or probation.

COUNSELING

Counselors are available to assist applicants with professional-technical choices, financial aid, veteran’s benefits, admissions procedures, and other matters pertaining to educational programs.

WEAPONS

Firearms, knives, and explosives are not allowed on the college grounds.

DRUG/ALCOHOL AWARENESS SUPPORT GROUP

This group meets weekly on campus to provide support to students who want to lessen the harmful effects of substance abuse in their lives. The group experience allows students to share their thoughts and feelings as well as to learn more effective solutions to life’s challenges. Student Services also provides crisis intervention and referrals to community resources for students in need of additional assistance.

COMPUTER USAGE POLICY

Computer usage fee

The computer usage fee gives students access to an account on an EITC network, server, a personal directory on the network server with an assigned volume limit, an email account, and access to campus printers.

Acceptable Use of Computing Resources

EITC students are authorized to use computer/network resources for course related work and other educational purposes only. Use of EITC resources for other than educational purposes, especially for commercial or contract purposes, will result in the possible suspension or removal of the student’s user account.

As an authorized user, you are responsible for the security and use of your computer account. You accept full responsibility for your account and all activity performed on college computing resources.

The full text of EITC computer policies can be found in the EITC Policy and Procedures Manual online. Referenced documents include the Governors Executive Order 2005-22, Policy 307.1 Computer Usage, Policy 307.2 Software Policy, and Policy 307.3 Computer and Network Security Policy.

Misuse of Resources

EITC reserves the right to inspect all information stored on EITC computers, including programs, data, and mail. EITC reserves the right to limit or deny access to anyone using EITC resources when privileges are abused.

Examples of system misuse include, but are not limited to:

- Unauthorized copying or distribution of EITC provided system and applications software
- Use of another individual’s account, or sharing of accounts
- Attempting to inspect or copy another user’s programs or directory without permission
- Playing online games, MUD’s/MUCK’s, or interactive chatting (ICQ, MSN, etc.)
- Deliberately trying to damage system software or hardware
- Failure to cooperate with EITC staff;
- Any attempt to create or import a program which circumvents system security or compromises data integrity
- Sending/displaying defamatory, harassing, pornographic, obscene, or patently offensive materials prohibited by the Communications Decency Act of 1996 and other local, state, or federal law
- Unauthorized copying, sending, or receiving of copyrighted or trade/service marked materials is strictly prohibited
Printing
Printing multiple copies is not permitted from the network. You may make copies at Media Services or the library. Examples of unauthorized printing include, but are not limited to:
- Personal letters, signs, and/or advertisements
- Documents related to one’s own business
- Personal legal documents
- Online manuals

Monitoring and Disciplinary Action
The Information Technology Division monitors the use of computer systems and will contact individuals discovered to be hindering normal operations. It is not appropriate to use any resources in ways that are detrimental to the normal operation of any computer system(s) or its users. Violation of any part of the Computer Usage Policy will result in disciplinary action in accordance with the EITC Student Handbook and/or applicable federal, state, or local laws, regulations, or policies.

TESTING
The Student Services Office has various tests that will help identify your specific interests and abilities. Students are encouraged to meet with a counselor to discuss the results of assessments.

PLACEMENT
EITC maintains a placement office for student support. Workshops are offered on topics such as resume writing, job seeking, and interviewing skills. In addition, the placement officer serves as a liaison with business and industry to promote employment opportunities for EITC graduates. Contact the Placement Officer to take advantage of placement services.

SERVICES FOR STUDENT WITH DISABILITIES
The Disability Resources and Services Office is available to assist any student or prospective student who has a documented disability and believes they may benefit from reasonable accommodations which are provided on a case-by-case basis. In addition, resources (i.e., reading materials, teleconferences, audio-conferences, training opportunities, and community agency referrals) are offered to assist students, their family members, and faculty with disability issues.

Procedure to Request Accommodations
Students with disabilities must self-identify to the Disability Resources and Services Office and must submit written requests for accommodations, academic adjustments, and/or auxiliary aids within a timely manner. Whenever possible, this request should be made prior to the start of the semester and must be accompanied by written documentation (on official letterhead) from a licensed or credentialed professional who is qualified to assess and diagnose the disability. Documentation would include identification of the disability, a list of test instruments and test scores used to identify the disability, and the implications of the disability on the student in an academic setting. The documentation should also include suggestions regarding reasonable accommodations, academic adjustments, and/or auxiliary aids, where appropriate.

Accommodations, academic adjustments, and/or auxiliary aids are determined on an individual basis and must be requested each semester of enrollment. The following procedures can be found in Policy 122 Americans with Disabilities Act of the Eastern Idaho Technical College Policies and Procedures Manual:
1. Students requesting accommodations, academic adjustments, and/or auxiliary aids must have a documented disability and most self-identify to the Disability Resources and Services Office.
2. An in-take meeting will be scheduled at which time the following will take place:
   - The student will provide proper documentation regarding his/her disability. Should documentation not be available, it is the student’s responsibility to obtain this documentation at his/her own expense and provide it to the Disability Resources and Services Office.
   - The student will provide a written request of reasonable accommodations, academic adjustments and/or auxiliary aids being requested as well as a current class schedule.
3. The Disability Resources and Services Coordinator will review the documentation and requested accommodations, academic adjustments, and/or auxiliary aids.
4. The Disability Resources and Services Coordinator and the student will meet to discuss the request for reasonable accommodations, academic adjustments, and/or auxiliary aids and the resulting decision. For approved accommodations, academic adjustments and/or auxiliary aids, the Disability Resources and Services Coordinator will provide an accommodation letter for each of the student’s instructors. It is the student’s responsibility to deliver this letter to his/her instructor(s) and to discuss the contents of the letter with the instructor. No instructor is required to provide accommodations without receipt of the letter.
5. Should the student disagree with the Disability Resources and Services Coordinator’s decision, the student should, within ten (10) working days, submit a written appeal to the Dean of Students. Refer to the Student Appeal Procedures in the Student Handbook. In the case of academic related disability issues all written appeals should be submitted to the Dean of Students.
Grievance Procedure
Eastern Idaho Technical College has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794). Section 504 states, in part, that “no otherwise qualified handicapped individual... shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance...”

If a student with a disability believes he/she has been discriminated against he/she has the right to file a grievance as follows:

Complaints Related to Non-Academic Programs, Activities, and Services
This procedure shall apply to non-academic programs, activities, and services. Examples are:
• Concerns related to building or grounds accessibility;
• Participation in College sponsored events;
• Requests for accommodations related to parking.

All requests for accommodations or assistance should first be filed with the Disability Resources and Services Coordinator. If the student believes the Disability Resources and Services Coordinator’s decision is discriminatory on the basis of disability, the student should first meet with the Disability Resources and Services Coordinator to review the decision. If an acceptable conclusion cannot be reached, the student may request a review of the decision as follows:

Within ten (10) working days of the decision, send a letter requesting a review to the College’s ADA/Section 504 Compliance Officer, Dennis Allen. Include the following:
• Name and address of the person filing the complaint
• Date of the original accommodation or assistance request
• The accommodation or service requested
• The reason for the request
• The reason the Disability Resources and Services Coordinator’s decision is not deemed to be appropriate, reasonable, or effective

The ADA/Section 504 Compliance Officer will review the information and meet separately with the student and others as needed and then will render a decision within five (5) working days. Written notice of the decision will be sent to the complainant.

If the complainant is not satisfied with the decision, he/she may request a review by the Campus Appeals Committee. See Steps 3 and 4 of the Student Appeal Procedures as published in the Student Handbook.

Complaints Related to Academic Programs
This procedure shall apply to academic programs. Examples are:
• Requests for classroom accommodations such as tape recorders, note takers, assisting devices and interpreters

Eastern Idaho Technical College’s Disability Resources and Services Coordinator has been given the responsibility of determining a student’s need for accommodations, academic adjustments, and/or auxiliary aids. All requests for accommodations or assistance should first be filed with the Disability Resources and Services Coordinator, following the College’s published accommodations request policy. If the student believes the Disability Resources and Service Coordinator’s decision is discriminatory on the basis of disability, the student should first meet with the Disability Resources and Services Coordinator to review the decision. If an acceptable conclusion cannot be reached, the student may request a review of the decision as follows:

Within ten (10) working days of the decision, send a letter requesting a review to the Dean of Students. Include the following:
• Name and address of the person filing the complaint
• Date of the original accommodation or assistance request
• The accommodation or service requested
• The reason for the request
• The reason the Disability Resources and Services Coordinator’s decision is not deemed to be appropriate, reasonable, or effective

The Dean of Students will review the information and meet separately with the student and others as needed and then will render a decision within five (5) working days. Written notice of the decision will be sent to the complainant.

If the complainant is not satisfied with the decision, he/she may request a review by the Campus Appeals Committee. Steps 3 and 4 of the Student Appeal Procedures as published in the Student Handbook.

If a complaint is brought by a student regarding denial or modification of an accommodation, academic adjustment, and/or auxiliary aid request, the decision of the Disability Resources and Services Coordinator to provide or deny said accommodation shall be implemented until such time as a formal resolution of the grievance process is achieved.

If a faculty member shall refuse to provide an accommodation, academic adjustment, and/or auxiliary aid in accordance with the Disability Resources and Services Coordinator’s written notice, the student should first request the Disability Resources and Services Coordinator’s assistance in resolving the dispute. The request should be made in writing within ten (10) working days after the faculty member’s refusal to provide the accommodation, academic adjustment, and/or auxiliary aid. The Disability Resources and Services Coordinator will meet with the faculty member, the division manager, and other faculty and administration officials as appropriate in order to attempt to resolve the complaint.
In the event the Disability Resources and Services Coordinator is unable to resolve the complaint within five (5) working days of the request, he/she will refer the matter to the Dean of Instruction. It is the Disability Resource and Services Coordinator’s responsibility to notify the student of such action and to provide all pertinent information to the Dean of Instruction.

The Dean of Instruction will review the information and meet separately with the student and others as needed and then will render a decision within five (5) working days. Written notice of the decision will be sent to the complainant.

If the complainant is not satisfied with the decision, he/she may request a review by the Campus Appeals Committee. See Steps 3 and 4 of the Student Appeal Procedures as published in the Student Handbook.

**STUDENT-RIGHT-TO-KNOW**

**Eastern Idaho Technical College Crime Statistics**

In compliance with the Student Right-to-Know and Campus Security Act, as amended, EITC collects specified information on campus criminal statistics, campus security policies, and institutional program completion or graduation rates. EITC will report crimes considered to be a threat to students and employees. Every August, EITC will publish and distribute an annual report of campus and security policies and crime statistics to all current students and employees, provide copies of the report to applicants for enrollment or employment upon request, and submit a copy of the report to the Secretary of Education upon request.

**GRADUATION RATES**

Every August, EITC will publish and make available by request an annual report disclosing the completion or graduation rates of students. The federal requirement for calculation of a completion or graduation rate applies only to institutions of higher education that admit undergraduate students who are enrolling for the first time at an institution of higher education and have not enrolled previously at any other institution of higher education.

**STUDENT HOUSING**

Campus housing is not available. Students can expect to pay between $5,080 and $12,196 for room, board, transportation, and personal expenses depending on your family size.

**STUDENT HEALTH CARE**

EITC does not provide on-campus health care services. Students requiring medical attention must seek assistance from private health care providers in the community. Students enrolled for ten or more credits are assessed a mandatory insurance fee each semester. Payment of the fee provides the student with an accident and sickness insurance plan. Family coverage is available for an additional fee.

**STUDENT LEADERSHIP**

Each year students from EITC participate in competitive activities with students from other postsecondary institutions, with a goal of developing leadership and fostering individual growth. Contests of skill and technical knowledge provide a forum in which students can demonstrate their individual educational accomplishments. Clubs such as the Vocational Industrial Clubs of America (VICA), Business Professionals of America (BPA), and Delta Epsilon Chi (DEC) are active on the EITC campus. These clubs provide a way for students to cooperate. Students who are successful in state and local competition may then compete nationally.

EITC also encourages student participation in student government. The Student Senate is comprised of student body officers and representatives from each full-time program. Student Senate is the student’s voice in college development and leadership.

**STUDENT ORGANIZATION FUND-RAISING POLICY**

Student organization fund-raising is an accepted activity of student organizations. All fund-raising activities are restricted to chartered and approved organizations. The governing body of the student organization and its faculty/staff advisor must approve fund-raising activities; funds raised must be used for appropriate organization activities. It is recommended that organization officers, their advisors, and the Dean of Students meet twice annually to discuss fund-raising efforts. EITC is licensed for student organizations to conduct raffles for fund-raising activity. The Dean of Students has final authority regarding student raffles.

**FINANCIAL AID**

Financial aid can make an EITC education a reality for many students. Many of our students qualify for some type of financial assistance. Financial assistance could include scholarships, grants, loans, and work-study. Financial aid can help bridge the gap between the cost of your education and the amount your family is able to pay. To begin the financial aid process, complete a Free Application for Federal Student Aid (FAFSA). Applicants must be U.S. citizens or eligible non-citizens, degree/certificate seeking students, and in good standing.

**APPLICATION PRIORITY DEADLINES**

- Fall – June 1st
- Spring – October 1st
- Summer – February 1st

In order to meet the priority deadlines all information must be turned in correct, complete, and ready to award by the priority date for the semester you wish to be awarded. Applications may still be submitted after the deadline, but registration fees must be paid by fee payment deadlines. Students may receive their financial aid checks no sooner than the first day of class.

**Financial Aid Application Procedure:**

Follow the steps listed on “Steps to Apply” on our website at: [www.eitc.edu/faapply.cfm](http://www.eitc.edu/faapply.cfm) In order to begin the financial aid process, each student is required to complete the Free Application for Federal Student Aid (FAFSA). After completing the FAFSA, the student must wait for the Student Aid Report (SAR) to see if other documents are required. All required forms can be printed from our website and submitted to the EITC Financial Aid Office.

School Code: 01113300
Types of Financial Aid

Federal Pell Grants: Federal Pell Grants provide direct grants from the government to the undergraduate student for educational expenses. Grants range in size from $400 to a maximum or $4,800 per year and amounts are subject to change. To apply, see our website: www.eitc.edu/ss/faapply.cfm

Academic Competitiveness Grant (ACG): Grants awarded to students who have completed a rigorous secondary school program and are eligible for Pell Grant. Students eligible for the ACG will receive $750 for the first academic year of study and $1,300 for the second academic year of study.

Federal Supplemental Educational Opportunity Grant (FSEOG): The FSEOG is a program designed to assist students who have exceptionally high financial need. The college determines who is eligible and how much each grant will be. Students with Pell Grant eligibility and low Estimated Family Contribution (EFC) will be given priority. The FAFSA is used to determine eligibility.

Leveraging Educational Assistance Partnership Program (LEAPP): LEAPP is funded jointly by the Idaho State Board of Education and the Federal Government. LEAPP is a grant that is awarded to students who demonstrate exceptional financial need. Awards vary depending on availability of funding and your demonstrated financial need. The FAFSA is used to determine eligibility. The student must be an Idaho resident.

Work-Study: Federal and Atwell Parry Work-Study are awarded to students who demonstrate financial need and want to work while attending college. The work-study program provides on-campus jobs for students and allows you to earn up to a specific dollar award. You will earn at least federal minimum wage and be paid by the hour. You may work up to 20 clock hours per week.

Federal Family Education Loan Program (FFELP): The Stafford Student Loan Program (SSL) provides students with long-term, low-interest loans for post-secondary education expenses. Loan funds are provided by participating private lending institutions such as banks, credit unions, savings and loan associations, and some other private organizations. Stafford Student Loans currently bear a variable interest rate. The rate will never be more than 8.25 percent on the unpaid balance.

Repayment, at a minimum of $50 per month, begins after the student leaves school and exhausts the six month grace period. Depending upon the total amount borrowed, repayment may be extended over a ten-year period. Freshmen can borrow up to $3,500 and sophomores can borrow up to $4,500 per year.

The FFELP provides for two types of student loans: (1) Subsidized and (2) Unsubsidized.

To be eligible for a subsidized loan, you must demonstrate financial need and be enrolled at least half-time (6 or more credits). The Federal Government currently pays the interest on the subsidized loan until you are required to begin repayment six months after you graduate or drop below half-time enrollment. The maximum interest rate for the subsidized loan is 8.25 percent, and is adjusted each year on July 1st.

You do not have to demonstrate financial need to receive an unsubsidized loan, but you must complete the FAFSA at www.FAFSA.ed.gov, be enrolled at least half-time (6 or more credits), and complete a Request for Additional Loan. The Federal Government will not pay the interest on an unsubsidized loan, and interest will be charged until the loan is fully repaid. The maximum interest rate for the unsubsidized loan is 8.25 percent, and is adjusted each year on July 1st. However, you do have the option of capitalizing the interest and not paying anything until six months after you graduate or drop below half-time enrollment. If you choose this option, the interest will be added to the principal balance for your loan.

Financial Aid Eligibility

Academic: Students must be accepted into an eligible EITC program. (Note: Workforce Training/Community Ed courses excluding Radiation Safety, are not eligible for Financial Aid.) Students must maintain at least a cumulative GPA of 2.00 and meet the academic standards of the institution.

Progress Eligibility: In addition to maintaining academic standards, all students receiving Federal Financial Aid will be required to satisfactorily complete (receive grades other than D+, D-, D, F, AU, CH, IC, IW, S, I, or W) a specified number of credits within their program of study per semester based on the number of credits enrolled during that semester. For the purpose of financial aid, credit hour completion is classified according to the following schedule.

<table>
<thead>
<tr>
<th>Semester</th>
<th>Required Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enrollment Status</td>
<td></td>

</tr>
</tbody>
</table>

Withdrawal Policy: Students at EITC who receive Federal Financial Aid and withdraw before the 60 percent point of the semester will have refunds calculated according to federal guidelines. This will help determine the largest refund to the Federal Student Financial Aid Programs or to the student.

All other Federal Financial Aid recipients will have refunds calculated according to state or US Department of Education approved accrediting agency refund policies if they exist. If no state or US Department of Education approved accrediting agency refund policy exists, refunds will be calculated according to Federal or institutional refund guidelines in order to determine the largest refund to the Federal Student Financial Aid Programs or to the student.
If a student contacts the EITC Financial Aid Office they will be referred to the Registrar. The Financial Aid Office will document the conversation and will initiate a notice of withdrawal. Students who withdraw from one or more classes within the first week of school must notify the Financial Aid Office and return over awarded funds at the time of the withdrawal. No adjustments to financial aid will be made after the first week of each semester. Students who totally withdraw from their classes after the first week of each semester are subject to the return policy of the Federal Government and may be required to return a portion of their awards. Students who receive financial award disbursements and do not attend classes are not eligible for funds and must return to the institution any award money received.

**Financial Aid Disqualification**: Failure to comply with the academic standards or the progress eligibility standards will result in ineligibility for student aid.

**Reinstatement**: Students disqualified from Financial Aid eligibility may regain eligibility by: (1) Attending an additional semester without the assistance of Financial Aid and; (2) Retake the failed or incomplete credits (See Financial Aid Progress eligibility chart) required to meet Satisfactory Academic Progress (SAP). Courses retaken must be from the approved list of required courses from the student’s program of study. The student must also meet academic standards as well as Financial Aid standards to be reinstated. After meeting requirements students must submit a Financial Aid General Appeal to the EITC Financial Aid Office explaining that they have completed requirements and would like to be reinstated for Financial Aid.

**Financial Aid Appeals Procedures**: Appeal in writing to the Financial Aid Committee and explain any mitigating circumstances that you feel caused the inability to meet minimum standards. An appeal form can be printed from our website: www.eitc.edu/ss/fa.cfm

**Request for Adjustment**: A student has the option of requesting an adjustment to their financial aid award. The request must be made to the EITC Financial Aid Office by the student if changes are needed. Changes could include requesting or cancelling grants, work-study, and loans. No adjustment can be made to the award due to change in enrollment status after the first week of each semester. Request for Adjustment forms can be printed from our website: www.eitc.edu/ss/faforms.cfm

**Request for Additional Loan**: To be used when a student is requesting an additional loan that is above the amount awarded to students who have already received base loan amounts.

**General Appeal**: To be used in situations of medical hardship, death in the family, emergencies, and other extreme circumstances that effect Satisfactory Academic Progress. Also, to be used by students who correct Financial Aid eligibility by attending a semester without Financial Aid assistance and reestablish Satisfactory Academic Progress and want to resume assistance.

**Maximum Credit Appeal**: To be used when a student reaches the maximum time frame allowed by Satisfactory Academic Progress. Maximum time frame for an associate’s degree is 96 credits and 48 credit for a one-year certificate program. If the student does not successfully complete the conditions of the appeal the student may be denied further financial assistance.

**Special Circumstances Appeals**: To be used by students or parents of dependent students who have had loss of income. These situations could include loss of employment, death of parent, divorce of parent or students, or medical expenses that affect income.

**Disbursement of Financial Aid Awards**: Financial Aid funds are disbursed in equal installments on the first day of class each semester. Funds may be credited to a student’s account to pay registration fees with the balance being disbursed in the form of a check. Checks are disbursed by the Cashier in the Business Office. Questions concerning check disbursement should be referred to the cashier at 524-3000 ext. 3335. Financial Aid policies and procedures are subject to change without notice to assure compliance with federal regulations.

**Special Considerations-State Aid**: Children of any Idaho citizen who is a resident of the state of Idaho on or after June 1, 1972 and who have been determined by the Federal Government to be a prisoner of war or missing in action in southeast Asia, including Korea, or who shall become so thereafter, in any area of armed conflict in which the United States is a party, shall be admitted to attend any public institution of higher education or public professional-technical college within the state of Idaho without the necessity of paying tuition and fees, and shall be provided $100 for books, supplies, and equipment. Such benefits shall be provided for a period not to exceed 36 months. Documentation of eligibility of the applicant must be submitted to the Financial Aid Office.

**SCHOLARSHIP APPLICATION**

For more information visit: www.eitcfoundation.org/eitc_scholarships.html

Financial Aid Contact Information: Please direct all questions regarding financial assistance to the EITC Financial Aid Office, 1600 South 25th East, Idaho Falls, Idaho 83404, (208) 524-3000, or toll free 1-800-662-0261, or email us at financial.aid@my.eitc.edu
EITC FOUNDATION

“Our purpose is to ensure that the desire for education is met through adequate funding for scholarships and facilities.”

The Eastern Idaho Technical College Foundation was founded in 1992. Business and community leaders joined together to help meet the expanding needs of the EITC campus in Idaho Falls. The Foundation, through the generous giving of the eastern Idaho communities, has been instrumental in funding EITC’s physical expansion and scholarship needs of EITC students.

Through private funding, the Foundation endeavors to broaden and nurture the visibility and integrity of EITC, making it the northwest’s premiere comprehensive technical college. The Foundation solicits and receives gifts, bequests, funds, and property to be held and managed for the benefit of EITC. Gifts support and enhance all educational programs, build classrooms, and provide scholarships.

THE LIBRARY

LOCATION
Alexander Creek Building, room 551

HOURS:
Monday thru Thursday 7:30 am -10 pm
Friday 7:30 am - 4:30 pm
Saturday 10 am - 2 pm
Closed Sundays and all holidays.

STAFF
Suzy Ricks-Librarian
Heather Redding-Assistant Librarian
Jan McCullough-Assistant Librarian
Katie Lusk- Library Assistant

The EITC’s Richard and Lila J. Jordan Library provides books, periodicals, audio-visuals, and online resources designed to support the college’s academic program and courses. The library includes group study space, a computer lab, the college archives, and the Foundation Conference Room.

The core book collection of over 20,000 volumes and subscriptions to 120 periodicals is supplemented by connections to numerous electronic resources that offer access to both current and archival materials.

Fast, free interlibrary loan is also available.

The library is open 71 hours per week, and librarians are available for reference assistance and instruction in the use of information resources.
GENERAL EDUCATION DIVISION

FACULTY
Peggy Nelson, Division Manager
Kathy Judy
Ann Schwalboski
Julia Zapadka

STAFF
Danielle Collins, Tutor Recruitment Coordinator
Lindsay Gardner, Tutoring Center Coordinator

Intended Learning Outcomes
The General Education division is committed to supporting and preparing students for their professional-technical programs, citizenship, and employment by offering quality instruction, including transferrable courses leading to the following learning outcomes:

• Effectively communicate theories, ideas and mathematical processes through writing and speaking to a variety of audiences.
• Develop and apply analytical skills through active listening, questioning, reading, and discussion.
• Support diversity and foster appreciation of different perspectives, backgrounds, and opinions.
• Display the skills, attitudes, and confidence of a lifelong learner and a participatory community member.
• Understand, demonstrate, and value attributes of professionalism.
• Persist in solving challenging problems through creative and logical thinking while using available resources.

Students seeking an Associate of Applied Science (AAS) Degree are required to complete a minimum of 16 credits of General Education courses in the areas of English/Communication, Mathematics/Computation, and Social Science/Human Relations. Similarly, students seeking Technical Certificates or Advanced Technical Certificates are also required to take classes in related instruction to cover communication, computation, and human relations as indicated for each program area.

Associate of Applied Science Degree General Education Requirements
Students should consult the specific program listing of courses regarding general education requirements for that program.

Required General Education Courses:

*Student may petition to take an alternate general education course.

In lieu of either PSY 101 or SOC 101 only.

** Based on program requirements.

THE TUTORING CENTER

The Tutoring Center is located in room 135 of the John O. Sessions Building. Its mission is to assist students in becoming better writers and editors and in understanding mathematical concepts and processes that challenge them across the curriculum. We offer a comfortable and accepting environment for students to meet with tutors or read and relax. The Center also has network computers and a shared printer for student use. Tutoring and study groups can also be arranged for program subject areas upon request.

The Tutoring Center is open from 9:00 am to 6:00 pm Monday through Thursday and 9:00 am to 4:00 pm on Friday. Writing tutors are available in the morning and early afternoon. Walk-ins are welcome; however, students can also make specific appointments with a writing tutor. Math tutors are available Monday through Thursday for approximately nine hours a day and from 9:00 am to 4:00 pm on Friday. The schedule is posted outside the Center and on the College web site.

The Tutoring Center can be reached at 524-3000 ext. 3490 and they will be happy to answer questions or make appointments.

The Tutor Recruitment coordinator is Danielle Collins. She can be reached at 524-3000 ext. 3396 and would be happy to arrange tutoring for small group instruction for program specific courses such as Anatomy and Physiology.

The Business, Office, and Technology Division is a
combination of all business, secretarial, accounting, computer,
web development, and legal programs. The Division offers
certificate and degree programs and coordinates many part-
time, short-term, and for-credit class offerings outside the
traditional college schedule. The Division also offers and
coordinates workshops and seminars for business, industry,
and entrepreneurs.

ACCOUNTING TECHNOLOGIES

Length of Program
Associate of Applied Science Degree: four semesters
Technical Certificate: two semesters

The Accounting Technologies program is designed to meet the needs
of students as they prepare to enter the business world. Students may
enter the program in August or January.

The Accounting Paraprofessional option is designed for students
whose goal is to become an accounting paraprofessional. Students
should have the accounting, computer, communication, and
human relations skills to go to work directly upon completion of
this program. Students will learn accounting principles and their
application in real-world business settings, as well as the impact of
emerging technologies on the accounting field.

The Applied Accounting Clerk option is designed to prepare students
for entry-level bookkeeping positions. The program was developed so
students will have the basic accounting knowledge, computer skills,
and communication skills to go to work directly in an entry-level
position upon its completion. Basic accounting principles and their
applications in real-world business settings are discussed, as well as
the impact of emerging technologies on the accounting field.

Intended Learning Outcomes
• Apply fundamental accounting principles to the needs of
  an organization or client.
• Compile and prepare accurate and timely financial information –
  journal entries, adjusting entries, reconciliations, closing entries,
  and financial statements.
• Convey financial information clearly to accounting professionals
  and non-financial persons both orally and in writing.
• Process a payroll by maintaining payroll records, preparing payroll
  journal entries and completing various quarterly and annual tax
  forms.
• Record cost accounting transactions and prepare appropriate
  production reports and financial statements.
• Compile and prepare basic personal income tax forms and returns.
• Use traditional and emerging technologies to improve business
  solutions and increase efficiency.
• Display professional and ethical behaviors individually and
  collaboratively that contribute to continued employability.

Program Costs
In addition to the semester registration fees, an accounting
students can expect to spend approximately $650 on
books and supplies for the one-year program and $1500 for the two-
year program. Graduates are required to sit for proficiency exams
at the conclusion of their program. Information regarding costs and
dates for the exams will be posted in the online catalog and available
from the program instructor(s).

**BUSINESS TECHNOLOGIES**

**Length of Program**

Associate of Applied Science Degree
Advanced Technical Certificate
Technical Certificate

The Business Technologies program has an Associate of Applied Science Degree option in Marketing and Management, an Advanced Technical Certificate in Marketing and Management, and a Technical Certificate in Business Technology. The AAS Degree in Marketing and Management includes the academic foundations of general education courses in English, communication, human relations, and mathematics with an emphasis on e-commerce and conducting business on the internet. The student who completes this option will have a well-rounded educational experience and a variety of occupational area and advancement opportunities.

Whichever option the business student may choose, this exciting career field requires strong personal motivation and dedication. When possible, most courses are offered on weekday mornings with the afternoons available for students to participate in the on-the-job sections of the program. The business student is encouraged to join the professional student organization, Delta Epsilon Chi (DEC) that has an active chapter on campus. The membership dues are $20 per year.

**Intended Learning Outcomes**

- Understand and apply fundamental marketing concepts including product development and management, pricing analysis and determination, promotion principles and fulfillment strategies relative to channels and physical distribution in contribution to organizational effectiveness and success
- Identify marketing’s strategic and tactical role, both internally and externally, in organizations of all kinds and assist in the creation and execution of marketing plans by monitoring, assessing and adapting business strategies to emerging opportunities in both domestic and global markets.
- Plan, prioritize and manage projects and use appropriate technology and organizational/analytical skills to locate, manage and apply information to solve simple and complex business problems.
- Communicate effectively and confidently through presentations, both written and verbal formats, for a variety of audiences.
- Apply concepts, methods, processes and functions of management to business operations
- Analyze information and make decisions that support the organization’s mission and help the business to successfully adapt to a changing environment.
- Analyze, evaluate and act on creative ideas to grow the business
- Establish and maintain efficient business operations
- Solve problems individually and in a team environment
Program Costs
In addition to the semester registration fees, a Business Technologies student can expect to spend approximately $750 on books and supplies for the certificate program and $1800 for the Advanced Technical Certificate and the Associate of Applied Science degree program. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

COMPUTER NETWORKING TECHNOLOGIES

Length of Program
Associate of Applied Science Degree
Postsecondary Technical Certificate

Pathways to Computer Networking Employment
The Computer Networking Technologies (CNT) program offers two completion options for the student interested in employment in one of the most dynamic and potentially lucrative job markets in today’s world economy.

The Associate of Applied Science Degree (AAS) in Computer Networking Technologies is a two-year program designed to prepare students for employment in small, medium or large environments that may consist of multiple physical locations both local and remote with multiple domain controllers, and include network services such as messaging, database, file and print, proxy server, firewall, the internet, an intranet, remote access, and client computer management. Additionally, the program prepares students to become Microsoft Certified and Cisco Certified computer network technology professionals.

The Microsoft and Cisco certifications enable professionals to target specific technologies and distinguish themselves by demonstrating in-depth knowledge and expertise in the areas of implementing, building, troubleshooting, debugging, design, project management, operations management, and planning as related to computer network technologies. By validating a more comprehensive set of skills, these certifications provide students and their hiring managers a reliable indicator of on-the-job performance.

The AAS degree program assumes an intermediate level of computer knowledge at the beginning of the program. Students may demonstrate this level of knowledge with an IC3 certification, successfully passing CIS 101 with a minimum grade of “B”, or equivalent training and expertise as demonstrated by portfolio and an instructor interview. It is recommended that all prospective CNT students visit with an instructor to review their particular qualifications and receive an overview of the entire program.

General education courses, included in the AAS degree program, provide the opportunity for students to develop critical and creative thinking, computation, and communication skills as well as other soft skills necessary for succeeding in the workplace. It is recommended that the majority of general education courses be completed prior to formal entry into the CNT courses.

The two-semester postsecondary technical certificate option is designed for students who are involved in the IT industry and have prior computer and networking skills. Students entering this Postsecondary Technical Certificate Program will take only those CNT courses offered in the third and fourth semesters of the AAS degree program with the goal being the obtaining of the knowledge and skills necessary for passing certification exams. Entry into the two-semester programs requires instructor approval.

Industry Partners at EITC
EITC is a Novell Education Academic Partner (NEAP), a Microsoft IT Academy, a Cisco Networking Academy Program Regional Academy (CNAP) and a member of the CompTIA E2C program. These partnerships ensure that the instructors use industry-authorized curriculum and are qualified to teach the various Computer Networking Technologies options as well as provide discounts on certain certification exams.

Industry Testing for Certification
Upon completion of the appropriate industry certification courses, students demonstrate proficiency by participating in the industry certification exam process. Certification exams are administered by EITC through VUE and Prometric. The first and second semesters provide preparation for one of the Microsoft and one of the Cisco certification exams that are required by EITC. Additionally in those semesters, students are prepared for up to four elective certification exams. The third and fourth semesters provide preparation for up to six Microsoft certification exams and the second Cisco certification exam. EITC students are required to take a total of six Microsoft certification exams and two Cisco certification exams. A technology fee of $100 is assessed for each of the ten courses that are directly related to the EITC required industry certification exams. This technology fee covers the costs of students taking each of the eight required exams one time.

Intended Learning Outcomes
- Work effectively with users to understand requirements for and solve problems associated with the computing environment.
- Install, configure, secure, troubleshoot, and maintain the hardware and software associated with computer systems in both standalone and network environments.
- Configure and troubleshoot a network infrastructure based upon Microsoft and Cisco networking technologies.
- Implement, monitor and troubleshoot Active Directory, secure domains, and perform backup, restore, and ensure trouble free operation.
- Install, operate, and troubleshoot enterprise networks consisting of devices, servers and applications that meets business and technical requirements for network services.
- Implement, monitor and maintain network servers including Web servers and network applications.
- Employ professional and ethical behaviors that contribute to continued employability.

Program Costs
In addition to the registration and technology fees, a student in Computer Networking Technologies can expect to pay approximately $600 per semester for books and supplies. In the first semester of the AAS program, students are required to purchase the parts for a computer, which they assemble as part of their course work. The cost of these parts is approximately $1,000. Students, at their discretion, may elect to take more than the eight EITC required certification exams. Costs associated with sitting for these elective exams is not included in the technology fee and is the responsibility of the student. The average cost of these elective exams is $125 per exam assembled as part of their course work. The cost of these components is approximately $1,000. In addition, students should budget the money required for taking the very important and necessary industry certification exams described above.

Microsoft Computer Networking Technologies
Associate of Applied Science Degree 77-78 Credits

Semester 1
CNT 101  Microcomputer Concepts/Intro to Networking  4
CNT 103  Introduction to UNIX/Linux  3

LEGAL TECHNOLOGIES

Length of Program
Associate of Applied Science Degree
Technical Certificate

The Legal Assistant option provides education for students to enter the legal paraprofessional field. The option requires students to study the practical application of civil litigation, criminal law, family law, bankruptcy, estate planning and probate, business law, and legal research. An emphasis is placed on the ethical considerations of working in a law firm, as well as the duties and tasks expected to be performed on the job.

The Legal Assistant option curriculum has been developed to incorporate core competencies established by the American Association of Paralegal Educators. This includes 19 credit hours in general education in addition to substantive law and office skills classes provided.

Entrance Requirements:
• COMPASS scores at or above 68 in reading and writing skills
• Applicants must demonstrate a keyboarding speed of 25 wpm with 90% accuracy at entry level. Students may arrange for a keyboarding test through the EITC Librarian
• Two letters of recommendation: one personal (friend or relative), one professional (teacher or business associate)
• An interview with program director/instructor

Intended Learning Outcomes:
• Work independently and as a team member to complete legal projects within specific time frames by effectively demonstrating time management, organization and prioritization skills.
• Effectively read, analyze, and synthesize complex information in an organized and logical manner.
• Draft essential legal pleadings, motions, discovery, and related documents needed in the litigation process.
• Demonstrate knowledge in basic legal theories, doctrines, and principles that comprise the basis of law, with specific emphasis on civil litigation, estate planning, family, criminal, and business law.
• Demonstrate essential employability behaviors including attendance, attention to detail, confidence, collaboration, problem-solving, and meeting deadlines.
• Utilize legal-research skills to find and research statutes, case law, procedural rules and other primary source materials.
• Represent the legal profession in a professional and ethical manner.

Program Costs
The Legal Assistant should expect to spend approximately $600 for books and supplies the first year and $600 the second year. Legal Technologies students are strongly encouraged to participate in their respective student organizations. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

OFFICE TECHNOLOGIES

Length of Program
Associate of Applied Science Degree
Technical Certificate

The Office Technologies Program offers two options for the student interested in an office environment. Graduates of either option find excellent opportunities available to them in a wide range of career-related fields.

The Office Professional option is the two-year option resulting in an Associate of Applied Science (AAS) degree. This option prepares students to perform advanced text processing, spreadsheet and database operations as well as computer assisted graphics, desktop publishing and basic bookkeeping. Students who graduate with the AAS degree are well prepared to perform a wide variety of administrative support functions in large or small companies as a member of a team and individually.

The Office Specialist option is a one year option resulting in a Technical Certificate. This option designed for the student who is interested in gaining entry-level knowledge, skills and attitudes necessary for maintaining a well run office. Students who complete this option will be prepared to reperform a wide variety of administrative support functions in large or small companies as a member of a team.

Both options offer a joint leadership course which concentrates on developing students into professionals. Highly successful men and women from different organizations in the community donate their time as guest speakers to help guide students to education, financial, personal and professional success.

Leadership students also have the opportunity to participate in Business Professionals of America, a student-led club, which provides excellent opportunities for personal and professional growth essential for the workplace.

Intended Learning Outcomes
• Manage an office effectively & efficiently.
• Communicate clearly and professionally in both written and oral formats.
• Recognize professional values and exhibit professional behaviors in the work environment.
• Use appropriate technology and technical skills to manage information and solve problems.
• Exhibit interpersonal skills and attitudes for working in an office environment.

Entrance Requirements
Keyboarding of 25 wpm for at least one minute with no more than five errors is minimum. Students may arrange for a keyboarding test through the EITC Librarian.

Program Costs
In addition to the semester registration fees, an Office Technologies student can expect to spend approximately $900 on books and supplies for the certificate program and $1,600 for the degree program. Students may also incur additional costs in updating/purchasing software and taking industry certification exams.

Length of Program
Associate of Applied Science Degree

The Web Development Technologies program emphasizes web construction from the ground up while providing valuable presentation, negotiation and collaboration skills needed for success in today's information-driven world. Graduates can develop, deploy, market and maintain dynamic websites for a variety of client needs, including e-commerce, promotional, and informational sites. Advanced students develop portals for business, industry, and government, as well as educational and nonprofit websites. The program is designed for individuals who would like to work as an independent contractor providing web development services or work for an organization that can benefit from Internet solutions.

The two-year program assumes an intermediate level of computer knowledge at the beginning of the program. Students may demonstrate this level of knowledge with an IC3 certification, successfully passing CIS 101 with a grade of “B” or better, or equivalent training and expertise demonstrated by passing a challenge exam.

Upon completion of an Internet portfolio, your degree requirements, and successfully passing industry certification exams, you will be prepared to gain access to high-tech jobs. Positions available to graduates include webmaster, web application developer, Internet database administrator, independent Internet developer, Internet/Intranet developer, web administrator, or web editor.

Intended Learning Outcomes
• Work independently and as a team member to complete Web projects within specific time frames by effectively using time management, organization and prioritization skills.
• Develop deploy and maintain web projects using current and appropriate development tools including: Dreamweaver, Flash, Acrobat, Photoshop, Access, MS-Office and Shopping cart software
• Develop deploy and maintain scalable web projects using standard languages such as XHTML, ColdFusion, ASP, PHP and SQL.
• Enhance Web project using Development standards like W3C, CSS, JavaScript, and Ajax.
• Develop and maintain web projects using good coding practices including; using the appropriate language, documentation, reusable, user centered design and thorough project testing and troubleshooting.
• Market web projects to specific targets markets using SEO, Pay per Click, affiliate programs and other developing strategies.
• Manage complex code structures, databases and user requirements.
• Ability to create visually appealing designs across media types that utilize colors, graphics, photography, typography, and follow current design and layout standards.
• Effectively find, analyze, and synthesize complex information in an organized and logical manner to utilize new technologies as they become available.

Program Costs
In addition to the semester registration fees, a Web Development Technologies student can expect to spend approximately $600 on books and supplies, $400 on software and hosting services, and $500 on certification exams. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

Industry Partners & Certifications
Eastern Idaho Technical College’s Web Development Specialist curriculum is mapped to industry certifications with our academic partners including Certified Internet Webmasters, World Organization of Webmasters, Macromedia, Microsoft and Sun Microsystems.

A criminal background check is required to meet clinical practicum site requirements. History of a misdemeanor or felony involving moral turpitude may render the student not eligible or they may experience difficulty becoming licensed, certified, or registered and in finding employment in health care. It is recommended that prior to enrollment the applicant contact the appropriate state and/or national regulatory agency.

All Health Professions Division students, regardless of program, must provide the following information prior to being accepted in the professional courses:
1. Documentation of the following current immunizations is required:
   • Diphtheria, Pertussis, Tetanus (DPT)
   • Mumps, Measles, and Rubella (MMR) or two vaccinations or Rubella and Rubeola titers
   • Hepatitis B series (completed)
   • Polio
   • History of chicken pox or varicella vaccination
2. Proof of an annual TB skin test
3. Documentation of health insurance

CERTIFICATED NURSING ASSISTANT

Length of Program
One semester

Accreditation
The CNA program follows the state and federal requirements for preparing nursing assistants. It is designed to provide behavioral learning objectives for learners on basic competencies. It contains didactic classroom objectives, skills objectives in a lab setting, plus 40 hours out of class time for clinical objectives. To pass the class, you must get an 80% or better on tests and classroom objectives, 100% on clinical and lab objectives. After passing the class, you will be eligible (for a fee) to test for the state skills exam and then the state written exam. You have six months after passing the class to pass the skills exam and another six months to pass the written exam. If you don’t pass both exams within a year, you are required to retake the class.

Entrance Requirements
This course can be taken for credit or as a non-credit class. You must be over 16 year of age, and be aware that most facilities will not hire until age 18. Note that all tattoos must be covered and only one set of earings in each ear may be worn. No other piercing will be allowed in class or clinical.

It will be helpful if you have your own stethoscope and blood pressure kit. You will also be required to wear scubs and sturdy shoes with heel and toe intact to the clinical rotations.

Shortly after the beginning of class you will need to present proof that you are current on your tuberculosis, Hepatitis B vaccines, plus a Health Care Provider (or equivalent) card. A background check will also be required.
DENTAL ASSISTING

Length of Program
Technical Certificate

The Dental Assisting program at EITC consists of classroom training, clinical skills training, and clinical experience in area dental offices. The program’s curriculum follows Idaho State Board of Dentistry guidelines. The curriculum provides the training necessary to become an integral part of the dental profession and offers the student supervised training to become a dental assistant. With this education and two years of clinical experience, graduates may sit for the National Certified Dental Assistant exam.

Intended Learning Outcomes
• Demonstrate competency in basic dental assistant skills in a competent and safe manner when working with patients, families, and communities while being nonjudgemental of cultural, religious, and ethnic differences.
• Demonstrate competency in performing front office skills for entry level dental assistants.
• Demonstrate effective verbal, non-verbal, written and technological communication utilizing appropriate terminology during interactions with patients, families, and dental health care team members.
• Demonstrate accountability, professional values, and ethical behavior within the scope of practice of a dental assistant and the policy and procedures of the employing institutions.
• Be Idaho certified in expanded functions for dental assistants.
• Acknowledge that dental assisting is dynamic and requires lifelong learning.

Entrance Requirements
In addition to the above listed entrance requirements:
• COMPASS Test score of 68 or higher in reading and writing skills and 45 or higher in pre-algebra
• Advising with program director

Program Continuation Requirements
• All core and program specific courses must be passed with a minimum of a C, and must be passed consecutively before continuing on to the next course
• All core and program courses must be passed before a student will be permitted to start the externship

Program Costs
In addition to the semester registration fees, a Dental Assisting student can expect to spend an approximate total of $1,500 on books, supplies, liability insurance, CPR, first aid and dental conventions. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

MEDICAL ASSISTANT

Length of Program
Associate of Applied Science Degree: four semesters, one summer term
Technical Certificate

The Medical Assistant program prepares graduates to assist physicians in outpatient settings performing administrative and/or clinical tasks. Medical Assistants are multi-skilled, allied health workers who perform a variety of skills assisting physicians with patient care.

Intended Learning Outcomes
• Demonstrate the importance of maintaining a high degree of professionalism in the Medical Assisting field, at all times and in all situations.
• Demonstrate effective written and oral communication skills.
• Practice within the ethical and legal codes of the Medical Assisting field.
• Demonstrate entry-level clinical skills of medical assisting
• Demonstrate entry-level administrative skills of medical assisting
• Acknowledge the need for continuing education for personal and professional development and reflect the changing nature of healthcare.

The Eastern Idaho Technical College’s Medical Assisting Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), on recommendation of the Medical Assisting Educators Review Board (MAERB). All
graduating students of the Associate Degree Program are eligible to sit for the AAMA Certification Examination, and, upon passing the examination, the individual earns the Certificated Medical Assistant (AAMA).

A Medical Office Specialist is an allied health professional whose primary focus is the administrative duties of a health care facility. These administrative duties include patient scheduling and reception, maintenance of medical records, insurance coding and billing, and electronic claims processing. Additional education in medical and insurance terminology, insurance claims completion, procedural and diagnostic coding, anatomy and physiology, computer skills, and medical transcription will be included.

**Entrance Requirements**
- Advising with program director/faculty is required
- Admission Packet prior to deadline date

**Program Costs**
In addition to the registration fees, students can expect to spend approximately $1,500 on books, supplies and miscellaneous fees in the Medical Office Specialist and Medical Assistant options. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

PRACTICAL NURSING

Length of Program
Advanced Technical Certificate

The Practical Nursing Program is operated with the approval of the State Board of Nursing. The student graduates with an Advanced Technical Certificate and is required to pass a state licensure examination to become a licensed practical nurse.

Applicants who complete all prerequisite courses with a “C-” or better and have fulfilled all of the other entrance requirements are eligible to be accepted into the nursing program. There is limited enrollment for this program.

Practical nurses are integral members of the health care team who care for the sick, injured, convalescent, and disabled under the direction of physicians and registered nurses. Practical nurses assess clients for educational, physiological, psychosocial, comfort, and safety needs; assist in planning and coordinating care; and gather data. They provide basic bedside care, take vital signs, do dressings and treatments, insert catheters, collect samples from clients for testing, perform routine laboratory tests, administer prescribed medications, and start intravenous fluids. Some experienced LPN’s supervise unlicensed assistive personnel.

Intended Learning Outcomes
• Graduates will demonstrate effective verbal, non-verbal, written and technological communication, in both, professional and interpersonal relationships, in a variety of healthcare settings through the use of therapeutic communication skills.
• Graduates will demonstrate competency in basic nursing skills utilizing critical thinking in applying the nursing process in a compassionate and caring manner during interactions with the client, families, and communities while being nonjudgmental of cultural, religious, and ethnic differences.
• Graduates will demonstrate competent and safe nursing skills and requisite knowledge necessary for the entry level practical nurse utilizing the nursing process, evidenced based practice, and the state scope of practice.
• Graduates will acknowledge that nursing is dynamic and is a profession where personal growth is ongoing and requires active lifelong learning.
• Graduates will demonstrate accountability, professional values, and ethical behavior within the scope of practice of the state nurse practice act and the policy and procedures of the employing institutions.
• Graduates will demonstrate entry level ability to problem solve, organize, prioritize, and make clinical judgments in a variety of healthcare settings while working as a member of an interdisciplinary health care team.
• Graduates will demonstrate proficiency in performing nursing skills that meet client needs while providing cost-effective and appropriate care.

Entrance Requirements
In addition to the requirements for all health care programs, the applicant must have:
• TEAS exam with cut scores of 60 in each area
• Documentation of CNA certification
• Admission packet submitted by deadline of each semester (see website for information)
• Criminal background check
• Possible interview with program faculty

Program Continuation Requirements
• Must complete professional component of program within six semesters from entrance date.
• All program specific courses must be passed with a minimum of 75% and proficiency testing at predetermined level.

Program Costs
In addition to the registration fees, a Practical Nursing student can expect to spend an approximate total of $3,000 on books, uniforms, supplies, testing fees, NCLEX application, and graduation. For further information refer to the nursing student handbook.

REGISTERED NURSING (ADN)

Length of Program
Associate of Applied Science Degree

Enrollment in the Associate Degree Nursing Program is limited. Because of the number applicants, completion of all admission requirements does not ensure acceptance into the program. Candidates for admission are selected from the pool of qualified applicants using a point-based process.

The ADN program is operated with the approval of the State Board of Nursing. The student graduates with an Associate of Applied Sciences degree in nursing and is required to pass a state licensure examination (RN-NCLEX) to become a licensed registered nurse.

The program is designed for students already working as licensed practical nurses who wish to expand their scope of practice in preparation for assuming the role of registered nurse. Students will expand their skills and knowledge in all areas of nursing with a focus on critical thinking and preparation to provide independent and holistic quality nursing care.

Intended Learning Outcomes
- Utilize organizational and priority setting skills to manage the care of a group of patients in a variety of health care settings through collaboration and appropriate delegation with other health care professionals.
- Practice nursing within the legal and ethical codes of the profession and society, assuming responsibility and accountability for their practice in nursing as defined by the Idaho Nurse Practice Act.
- Demonstrate critical thinking and problem solving skills utilizing the nursing process to guide care to individuals with a wide range of health deviations and cultures to promote and assist in maintaining an optimum level of functioning and health.
- Competently demonstrate nursing knowledge and technical skills in a variety of healthcare settings for a wide range of health deviations, health promotion and patient teaching, with awareness that health care is constantly evolving and changing requiring continued learning and acquisition of new knowledge and skills.
- Demonstrate effective verbal, nonverbal, written and listening communication skills in therapeutic relationships and patient teaching with clients and their families and interactions with other health care professionals.
- Demonstrate professionalism in all aspects of nursing to guide interactions with patients, families, peers, other professionals and the public to provide safe and competent nursing care.
- Demonstrates knowledge of registered nursing scope of practice including; patient care, patient teaching and health promotion, and an understanding of the nurse’s role within the health care team and setting.
- Demonstrates appropriate work ethic in the health care setting including time management and punctuality, leadership and management skills, appropriate dress code and hygiene practices, and teamwork and communication practices.

Entrance Requirements
In addition to the requirements for all health care programs, the applicant must have:
- Be accepted as a student in good standing at Eastern Idaho Technical College.
- Complete all prerequisite courses with a minimum “C-” or better grade.
- Complete Associate Degree Nursing program application.
- Provide proof of active, unrestricted Idaho Practical Nursing licensure.
- Have Health Care Provider CPR certification.
- Current proof of Health Status.
- Verification of 1,000 or more hours of direct patient care, with a LPN license, in the past 2 years.
- Provide proof of the following immunizations:
  a. Two MMR or measles and rubella titers if born after 1956
  b. Hepatitis B series
  c. Tetanus (Tdap or Td) in the past 10 years
  d. Current annual TB skin test or chest x-ray
  e. Chicken pox or verification form if born after 1965
- Background Check done through a site approved by the college.
- Signed copy of Acknowledgement of Program Requirements Form

Program Continuation Requirements
- All program specific courses must be passed with a minimum of 75% and must be passed consecutively before continuing on to the next course.

Program Costs
In addition to the registration fees, a Registered Nursing student can expect to spend an approximate total of $3,500 on books, uniforms, supplies, criminal background check, and testing for the entire program. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

SURGICAL TECHNOLOGY
Length of Program
Associate of Applied Science Degree

The surgical technologist works under medical supervision to facilitate the safe and effective conduct of invasive surgical procedures. This individual works under the supervision of a surgeon to ensure that the operating room environment is safe, that instrumentation and equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety. A surgical technologist possesses expertise in the theory and application of sterile and aseptic technique and combines the knowledge of human anatomy, surgical procedures, and implementation of tools and technologies to facilitate a physician’s performance of invasive therapeutic and diagnostic procedures (Association of Surgical Technologists’ Recommended Standards of Practice).

Intended Learning Outcomes

• Provide a safe, efficient, and supportive environment for the surgical patient.
• Demonstrate accountability and professional values.
• Follow and demonstrate the principles of surgical asepsis.
• Recognize normal and pathological anatomy and physiology to individualize surgical patient care.
• Demonstrate the methods of care and handling of surgical instruments and equipment according to each surgical specialty.
• Communicate effectively with the surgical team.
• Demonstrate effectively with the surgical team.
• Demonstrate effective critical thinking skills.
• Understand the need to be life-long learners.

Accreditation
Accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) under the direction of the National Board of Surgical Technology and Surgical Assisting (NBSTFA). The Surgical Technology Program awards all graduating students an Associate of Applied Science Degree rendering them eligible to sit for the Association of Surgical Technologist National Certification Exam which is given as the exit exam. This purpose is to determine through examination, if an individual has acquired both theoretical
and practical knowledge of surgical technology.

**Entrance Requirements**

In addition to the entrance requirements for all health care programs the student must have:

- Health Care Provider CPR certification
- Advising with Program Director
- Criminal background checks as mandated by program
- Admission packet submitted by deadline. Incomplete packets will not be considered for admission.

Program has a limited enrollment based on clinical practicum availability.

**Program Continuation Requirements**

- All professional component specific courses must be passed with a minimum of 75%, and must be passed consecutively before continuing onto the next courses

**Program Costs**

In addition to the registration fees, a Surgical Technology student can expect to spend approximately $2,000 on books, supplies, testing, and miscellaneous fees while completing the Surgical Technology Program Associate of Applied Science Degree. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

**Surgical Technology**

*Associate of Applied Science Degree* 65 Credits

**Prerequisites** to be completed prior to entering the professional component of the program.

TRADES AND INDUSTRY DIVISION

Areas of Study

**Automotive Technology** – Associate of Applied Science Degree, Advanced Technical Certificate, Technical Certificate, and Postsecondary Technical Certificates (PSTC)
Automotive Automatic Transmission and Transaxle Specialist, PSTC
Automotive Brake Specialist, PSTC
Automotive Electronic Specialist, PSTC
Automotive Engine Performance Specialist, PSTC
Automotive Engine Repair Specialist, PSTC
Automotive Heating & Air Conditioning Specialist, PSTC
Automotive Power Trains, Suspension & Steering Specialist, PSTC

**Diesel Technology** – Associate of Applied Science Degree, Advanced Technical Certificate, and Postsecondary Technical Certificates (PSTC)
Diesel Engine Specialist, PSTC
Diesel Fuel Injection Specialist, PSTC
Diesel Heavy Duty Brake Specialist, PSTC
Diesel Heavy Duty Drive Train Specialist, PSTC
Diesel Heavy Duty Electrical System, PSTC

**Welding Technology** – Associate of Applied Science Degree, Advanced Technical Certificate, and Technical Certificate

Faculty
Kent Berggren, Division Manager
Corey Shurtliff
Don Martin
Bill Swenson
Colby Park
Lonnie Brown
Tommy Ogawa
Wilma Scott

The Trades and Industry Division is designed to meet the demand for trained technicians to repair, service, and overhaul a variety of automotive, construction, industrial, farm, and trucking industry vehicles. The program provides training using the latest competency-based curriculum and hands-on experiences.

The State of Idaho and Eastern Idaho Technical College have adopted the Automotive Service Excellence (ASE) task list as guidelines for our automotive programs. Our Automotive and Diesel Technology programs have met the criteria for certification in each of the eight areas of study listed by the National Automotive Technicians Education Foundation (NATEF). Our students are trained to meet ASE certification standards.

Applicants must possess a valid driver’s license at the time of application and must maintain one throughout the program. It is recommended that applicants possess strong computer skills prior to enrolling in the program. Applicants must have proven mechanical aptitude, ability to lift 50 lbs., good health and vision, as well as a strong desire to work in a mechanical trades area. By demonstrating their ability to perform at minimum industry standards, students who have had previous mechanical training may be enrolled in an advanced program structured to build on their existing skills.

Upon completion of the theory portion of the courses, the student will complete the practical experience of that course. The practicum portion of those units identified may be completed either in the College lab or in an approved work experience training station in a local service facility. Instructors will approve all off-campus work experience sites. Troubleshooting and repairs will be performed on mock-ups and live work projects as they are available.

All instructors in the automotive and diesel programs are Automotive Service Excellence (ASE) certified. Short-term classes are available in specialty areas for which students may earn specialized Postsecondary Technical Certificates. For times and dates, contact the Trades and Industry Division at (208) 524-3000, extension 3373

Program Costs

In addition to the semester registration fees, a Mechanical Trades student can expect to spend an approximate total of $3,000 on books and tools per program and approximately $55 per semester for coverall rental. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

* Please note that all Trades and Industry students must take MTD-101 Industrial Safety and Report Writing the first semester of enrollment

AUTOMOTIVE TECHNOLOGY

Intended Learning Outcomes

- Use current technical diagnostic procedures to diagnose and repair to industry standards all eight areas of modern automobiles and light trucks.
- Demonstrate by performing all safety procedures including the use of tools and equipment during all related shop activities.
- Locate and use current repair procedures and information from computer based programs and written text.
- Understand, demonstrate, and value attributes of professionalism.
- Properly prepare hand written and electronic documents that are accurate, legible, and clearly understood.

# DIESEL TECHNOLOGY

**Length of Program**
- Associate of Applied Science Degree
- Advanced Technical Certificate
- Technical Certificate
- Postsecondary Technical Certificate

Students in their fourth semester who are in good standing and near the top of their class may qualify for supervised work experience at local industry shops when available.

## Intended Learning Outcomes
- Use current technical diagnostic procedures to diagnose and repair to industry standards all eight areas of heavy duty trucks and equipment.
- Demonstrate by performing all safety procedures including the use of tools and equipment during all related shop activities.
- Locate and use current repair procedures and information from computer based programs and written text.
- Understand, demonstrate, and value attributes of professionalism.
- Properly prepare hand written and electronic documents that are accurate, legible, and clearly understood.

## Diesel Technology

### Associate of Applied Science Degree  80 Credits

**Semester 1**

WELDING TECHNOLOGY

Length of Program

Assistant of Applied Science Degree
Advanced Technical Certificate
Technical Certificate

The qualified welder can find employment at several levels. Welding is considered a tool or skill by many trades, such as pipefitters, sheet metal ironworkers, boilermakers, bridge builders, fabricating shops, and production lines.

Applicants must be able to lift 50 lbs, twist and bend in various positions as needed. Students will spend approximately two hours per day in the classroom and four and one-half hours per day in hands-on training in labs.

Intended Learning Outcomes

- Demonstrate by performing all safety procedures in the set-up and use of common welding equipment, cutting equipment, and other tools.
- Understand American Welding Society (AWS) welding procedure specifications by displaying confidence and ability in passing job entry proficiency tests in (Shielded Metal Arc Welding) SMAW, (Gas Metal Arc Welding) GMAW, (Gas Tungsten Arc Welding) GTAW, and (Flux Cored Arc Welding) FCAW processes.
- Interpret drawings, sketches, orthographic prints and AWS weld symbols.
- Utilize mathematical skills by measuring, calculating material usage, and laying out projects to be manufactured.
- Effectively communicate welding and cutting processes and procedures.
- Understand, demonstrate, and value attributes of professionalism.

Program Costs

In addition to the semester registration fees, a welding student can expect to spend approximately $475 on books, tools, and equipment for the technical certificate option or $800 for the advanced technical certificate and AAS options. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

Options

Students who desire less than the Technical Certificate may develop a training outline with assistance from the instructor.

Single Resource Boss – Postsecondary Technical Certificate
Strike Team/Task Force Leader – Postsecondary Technical Certificate
Fire Service Technology – Associate of Applied Science Degree

Staff
Ken Erickson, Division Manager
Tonya Nunes, Administrative Assistant
Mariha Berrett, Administrative Assistant

The mission of the Emergency Services Training Division is to provide fire science, wildland firefighter, and emergency services training to career and volunteer emergency responders in order to save lives and protect property in a safe and efficient manner. The Division offers courses that lead to an Associate of Applied Science Degree and to meet industry certification and environmental compliance requirements.

The Emergency Services Training Division offers experienced instructors working in specially-designed training facilities to provide hands-on practical and classroom training to emergency services personnel located throughout eastern Idaho. EITC provides other services such as specialty program development, needs assessment, regulatory interpretation, and safety inspections. Our trainers respond quickly to requests and can provide customized courses at your location.

Intended Learning Outcomes

- Demonstrate and perform all safety procedures and the incident command system required when responding to an emergency situation.
- Understand and demonstrate the latest technology utilized to save lives and protect property.
- Effectively understand, interpret, and communicate state and federal regulatory requirements and policies to the public in emergency situations.
- Understand and demonstrate professionalism and the values required of an emergency responder.

EMERGENCY SERVICES TRAINING

Environmental Services Training

Certificate of Completion
OSHA Hazwoper Refresher
24-Hour OSHA Hazwoper
40-Hour OSHA Hazwoper
8-Hour OSHA Hazwoper Supervisor

The Emergency Services Training Division offers a wide variety of regularly-scheduled courses designed to meet the needs of individuals, government agencies, and private industry and can be customized to meet your organization’s needs. Courses include OSHA Hazwoper, HazMat/Emergency Response.

General OSHA Compliance & Haz/Mat Emergency Response Personal Protective Equipment

Certificate of Completion
OSHA 1910.12 HazCom Standard
16-Hour HazMat Operations
40-Hour HazMat Technician for Industry Personnel
DOT Compliance – Hazardous Materials Shipping
Blood borne Pathogens

This program applies to employers and their employees who are exposed or potentially exposed to hazardous substances -- including hazardous waste -- and who are engaged in one of the following operations as specified by 1910.120(a)(1)(i-v) and 1926.65(a)(1)(i-v):
a) Clean-up operations required by a governmental body, whether federal, state, local, or other involving hazardous substances -- that are conducted at uncontrolled hazardous waste sites;
b) Individuals employed at treatment, storage, and disposal facilities;
c) Individuals involved in emergency response activities.

Emergency Medical Technician

Certificate of Completion
EMT Basic
EMT Refresher – Basic Refresher Course

This program includes courses of instruction and clinical time that meets the State of Idaho and National Registry requirements for testing for an EMT-B license. The training is required to work as an emergency medical services (EMS) provider in an ambulance or other emergency care settings. Continuing education training is also provided for EMT’s and First Responders.

Program Costs
Costs for these programs will be the published per credit fee.

Registration for Programs

Times and dates for our regularly scheduled courses are available in the EITC class schedule newspaper insert.

FIRE SERVICE TECHNOLOGY

Wildland Fire Management

Length of Program
Associate of Applied Science Degree; Postsecondary Technical Certificate
Wildland Firefighter (FFT2) – Postsecondary Technical Certificate
Advanced Wildland Firefighter/Squad Boss (FFT1) – Postsecondary Technical Certificate
Single Resource Boss – Postsecondary Technical Certificate
Strike Team/Task Force Leader – Postsecondary Technical Certificate
Cooperative Fire Protection Project
This program is designed primarily for individuals who are employed as career or seasonal wildland firefighters. It is recommended that individuals who are not currently employed as a wildland firefighter contact any wildland fire agency for further information. Individuals may pursue this training in short-term modules that include Wildland Firefighter (FFT2), Advanced Wildland Firefighter/Squad Boss (FFT1), Single Resource Boss, and Strike Team/Task Force Leader. Modules I and II will be presented annually each summer. Modules III and IV will be scheduled as needed. To earn an Associate of Applied Science Degree in Wildland Fire Management, students are required to also complete 16 credits of general education coursework.

The Cooperative Fire Protection Project is an element of wildland fire fighting that is designed to provide municipal, county and rural fire departments with information and education relative to hazardous fuels reduction and home-owner and community action programs to reduce the risk of wildland-urban interface incidents.

### Program Costs
Completion of technical courses will require a portfolio of certifications to be evaluated by the Student Services Office at a cost of $10 per credit. General education courses will cost the published per credit fee. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

### Registration Information
For registration information, contact Eastern Idaho Technical College at 1600 S. 25th E., Idaho Falls, ID 83404, or call 524-3000, Ext. 3381, or toll free 1-800-662-0261.

### Wildland Fire Management
**Associate of Applied Science Degree** 67 Credits

#### Module I
*Wildland Firefighter (FFT2) – Postsecondary Technical Certificate*
- WFM 101 Basic Fire School (S-110, S-130, S-190, I-100) 2.25
- WFM 104 Portable Pumps & Water Use (S-211) 0.5
- WFM 105 Wildfire Power Saws (S-212) 0.75
- WFM 135 Fitness Training for the Work Capacity Test 3
- WFM 138 Position Task Book (FFT2) 2

#### Module II
*Advanced Wildland Firefighter/Squad Boss (FFT1) – Postsecondary Technical Certificate*
- WFM 108 Supervisory Concepts & Techniques (S-201) 1
- WFM 110 Interagency Incident Business Management (S-260) 1
- WFM 111 Basic Air Operations (S-270) 1
- WFM 125 Advanced Firefighter Training(S-131) 0.5
- WFM 135 Fitness Training for the Work Capacity Test 3
- WFM 136 Position Task Book (FFT1) 2
- WFM 131 Basic Incident Command System (I-200) 0.75

#### Module III
*Single Resource Boss – Postsecondary Technical Certificate*
- WFM 112 Intermediate Wildland Fire Behavior (S-290) 2
- WFM 123 Applied Interagency Incident Business Management (S-261) 1
- WFM 126 Interagency Helicopter TrainingGuide(S-217) 2
- WFM 135 Fitness Training for the Work Capacity Test 3
- WFM 115 Crew Boss (Single Resource) (S-230) 1.5
- WFM 228 Ignition Operations (S-234) 2

For each single resource Boss designation, students must complete the appropriate Position Task Book.

#### Electives
- WFM 229 Position Task Book for the Crew Boss 2
- WFM 230 Position Task Book for the Dozer Boss 2
- WFM 231 Position Task Book for the Engine Boss 2

#### Electives (choose one)
- WFM 208 Engine Boss (S-231) 0.5
- WFM 212 Initial Attack Incident Commander Type 4 (S-200) 1
- WFM 206 Fire Operations in the Urban Interface(S-205) 2
- WFM 109 Dozer Boss (S-232) 1

#### Module IV
*Strike Team/Task Force Leader – Postsecondary Technical Certificate*
- WFM 135 Fitness Training for the Work Capacity Test 3
- WFM 206 Fire Operations in the Urban Interface (S-205) 2
- WFM 210 Task Force/Strike Team Leader (S-330) 1.5
- WFM 220 Intermediate Incident Command System (I-300) 1.75
- WFM 221 Leadership & Organizational Development (S-301) 2
- WFM 222 Position Task Book for the Strike Team Leader Engine 2
- WFM 223 Position Task Book for the Strike Team Leader Crew 2
- WFM 224 Position Task Book for the Strike Team Leader Dozer 2
- WFM 225 Position Task Book for the Task Force Leader 2
- WFM 226 Position Task Book for the Incident Commander Type 4 2

#### Enhancements
- HCT 115 EMT Basic 6

#### Electives (choose one)
- OCR 105 Occupational Relations 3
- WFM 203 Introduction to Wildland Fire Behavior Calculations (S-390) 2
- WFM 141 Engine Operator (PMS-419) 2

#### Required General Education Courses (only for AAS Degree)
- COM 101 Fundamentals of Speech 3
- ENG 101 English Composition 3
- ENG 202 Technical Communication 3
- MAT 123 Mathematics in Modern Society 4
- PSY 101 Introduction to Psychology 3
Fire Service Technology (FST-100)

Length of Program
Associate of Applied Science Degree

The Fire Service Technology Program is designed to upgrade the skills and knowledge of volunteer and paid structural fire fighters in all phases of firefighting and can lead to an Associate of Applied Science Degree. The intent of this program is to provide fire fighters with the latest technology needed to save lives and protect property in a safe and efficient manner. Participants must be members of paid or volunteer fire departments because specific activities in these courses require access to facilities and equipment located at fire departments. Courses are delivered through local fire departments on demand when sufficient enrollment is secured. The course work listed (except general education requirements) for the Idaho State Fire Fighters certification is delivered through statewide fire departments. All courses, except general education requirements, will be graded on a Pass/Fail basis.

IFSAC Accredited FireFighter Certification
FireFighter I
FireFighter II
Fire Office I
Instructor I

The Idaho FireFighter Certification Program is a voluntary program. There is no statutory requirement that firefighters become certified. Students who complete IFSAC Accredited Fire Fighter Certification are eligible to transfer the certification to 41 states. The certification program establishes a way to judge the proficiency of firefighters and first responders, irrespective of their department affiliation and regardless of whether they are career or volunteer. This certification meets the National Fire Prevention Association (NFPA) standards.

Program Costs
Completion of technical courses will require a portfolio of certifications to be evaluated by the Student Services Office at a cost of $10 per credit. General education courses will cost the published per credit fee. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

Registration information
For registration information, contact Eastern Idaho Technical College at 1600 S. 25th E., Idaho Falls, ID 83404, or call 524-3000, Ext. 3381, or toll free 1-800-662-0261.

Mahlon Heileson
Henry Brown

The Workforce Training and Community Education Program offers specially designed short-term courses to adults interested in upgrading their work skills or exploring new areas of employment. More than 100 short-term professional-technical classes are available to adult students in the areas of agriculture, apprenticeship, automotive/mechanical, business and office, college preparation, computers, electricity and electronics, entrepreneur training, general trades, health care, life skills, and real estate. Courses generally range from 4 to 144 hours in length; many are offered during daytime and evening hours.

Workforce Training and Community Education instructors meet the strict teaching requirements outlined by the Idaho State Board of Education. All instructors possess a Baccalaureate Degree and three years of related work experience or eight years of successful work experience. These well-trained teaching specialists provide students with both hands-on practical experience and classroom theory.

Refund Policy
Students enrolled in a Workforce Training and Community Education course that is cancelled by EITC will receive a full refund. If you drop a class, you must notify the college immediately to receive a refund. Refunds are calculated on a prorated basis. Radiation Safety and Professional Truck Driving program refunds will be calculated according to the college’s credit refund policy.

Textbooks
Textbooks required for some Workforce Training and Community Education classes will be available on the first night of class. Textbooks may be purchased in advance Monday through Friday, 8 a.m. to 5 p.m., at the EITC bookstore.

WORKFORCE TRAINING

The Workforce Training Program provides customized training for area business and industry. In this era of rapid growth in high technology and constantly changing job classifications, business and industry are continually faced with the need for employee upgrade and retraining. The EITC Workforce Training Program is an excellent resource available to help business and industry develop employee training and retraining activities. The EITC Workforce Training and

Community Education Program philosophy is to provide high quality, convenient training for a purpose. EITC personnel will assist employers in developing all aspects of a customized training program for a specific business. Assistance provided by EITC includes curriculum development, locating laboratory equipment and facilities, and student testing. All training is evaluated on an ongoing basis and upon completion of training activities. The goals of the Workforce Training program are to:

• Be business and industry directed.
• Provide flexible and convenient instruction.
• Increase productivity as a result of training.
• Provide training that shows immediate short-term results.

The Workforce Training and Community Education Program will also assist business and industry in locating funding to offset the costs of employee training projects. Special training funds may be available through the Idaho Workforce Development Training Fund. This fund will provide up to $2,000 per trainee for job upgrade. Contact the Workforce Training and Community Education Program Manager for more information regarding the development of an Idaho Workforce Development Training Fund proposal.

Intended Learning Outcomes

• Know and apply radiation safety fundamentals and work safely to protect self and others
• Employable as a well-trained, safe, and professional radiation safety technician
• Advocate for the nuclear power industry
• Communicate effectively through listening, speaking, and writing
• Promote and participate in lifelong learning
• Demonstrate leadership as a community member

This 40-credit Technical Certificate program teaches entry-level skills required for employment in the nuclear industry. Qualified radiation safety technicians work at commercial nuclear power plants under the direction of the Nuclear Regulatory Commission (NRC), Department of Energy (DOE) National Laboratories, dosimetry laboratories,
medical facilities, accelerators, and independent and university research facilities that work with radioactive material.

Students entering this program must have high aptitudes in mathematics and communications. In addition to specialized classroom/laboratory instruction, students will be required to complete supervised work experience training at the Idaho National Laboratory (INL). Graduates of the Radiation Safety Program will possess the skills, knowledge, and field-based training necessary to gain employment as entry-level technicians in this high-wage, high-demand occupation.

Students continuing to the next semester/term requires at least a “C” in each course. Program instructional components will be provided in the areas of radiation protection, radiation detection and instrumentation, safety and hygiene, communications in radiological safety, practical radiation survey techniques, nuclear plant systems, and radiological chemistry. Entry into RDS-108-Supervised work experience is dependent on successful completion of all Radiation Safety courses. During the summer term, students will attend practical hands-on supervised work experience at the INL and/or other facilities which employ radiation safety technicians.

Program Costs
In addition to the semester registration fees, students can expect to spend approximately $950 on textbooks, respirator fit test physical, instructional materials, and associated fees for Department of Energy required building access only badging and online testing required for supervised work experience. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

Radiation Safety Technical Certificate 40 Credits

Semester 1
ENG 101 English Composition 3
MAT 108 Intermediate Algebra 3
RDS 101 Basic Radiation Protection Principles 5
RDS 102 Intermediate Radiation Protection Principles 5
RDS 103 Intermediate Radiation Protection Principles lab 1

Professional Truck Driver Training

Length of Program
Postsecondary Technical Certificate

Intended Learning Outcomes
• Employable as a trained, safe, and professional truck driver
• Represents a positive image of the trucking industry to the public
• Understands and complies with Federal Motor Carrier Safety Regulations
• Communicates with and contributes to the community

The Professional Truck Driver program is designed to prepare students to meet the qualifications to become a qualified entry-level commercial truck driver. The program provides in-depth classroom instruction as well as range and road driving. Participants will learn basic operation, safe operating practices, vehicle maintenance, and non-vehicle activities such as cargo handling, trip planning, and customer relations. Classroom instruction will be three weeks in length. Driving range and behind-the-wheel driving and observation will be three weeks in length. Students will also obtain a Commercial Drivers License (CDL).

How long will it take?
This program is designed to be completed in a six-week, 40-hour per week time frame. This program is normally offered every four-to-six weeks throughout the year depending on student enrollment.

Program Cost
The course fee for the Professional Truck Driver training program is $3,200*. Other program costs will include textbooks, Department of Transportation (DOT) medical exam, drug test, and CDL fees. These costs are approximately $300. Students that want to receive a Postsecondary Technical Certificate must fill out an Application for Graduation Form and pay a $10 Fee. Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

* A fuel surcharge may be applied.

Why Professional Truck Driver Training at EITC?
• Avoid traveling to distant training programs—save money by living at home and attending school locally
• The U.S. Department of Labor Bureau of Statistics estimates a rapidly growing nationwide need for qualified commercial truck drivers
• Attend small classes conducted by professional commercial truck driver training personnel
• Practice using the latest, most modern tractor-trailer equipment

What jobs may I get?
According to the U.S. Department of Labor, new drivers sometimes start on panel trucks or other small straight trucks. As they gain experience and show competent driving skills, they may advance to larger and heavier trucks, and finally to tractor-trailers.
• Many long haul carriers have training programs available and will accept EITC graduates into their long distance truck driving training programs
• Some drivers choose to purchase a truck and go into business for themselves as owner/operators
• A few truck drivers may advance to dispatcher, manager, or into training positions with additional experience

Entrance Requirements
• Students must possess a valid Idaho driver’s license
• The state of Idaho allows individuals 18 years old and older to drive trucks within its borders
• The U.S. Department of Transportation establishes minimum qualifications for truck drivers engaged in interstate commerce
• Federal Motor Carrier Safety Regulations require drivers to be 21 years old and to pass a physical examination once every 2 years
• EITC application required (no fee required)

Physical Requirements:
• The main physical requirements include good hearing, at least 20/40 vision with glasses or corrective lenses, and a 70-degree field of vision in each eye. Drivers must be able to distinguish the difference between the colors of red, yellow, and green. Drivers must be able to hear a forced whisper in one ear at not less than 5 feet with a hearing aide if needed
• Drivers must have normal use of arms and legs and normal blood pressure
• Drivers cannot use any controlled substances, unless prescribed by a licensed physician
• Persons with epilepsy or diabetes controlled by insulin are not permitted to be interstate truck drivers without a special waiver from the U.S. Department of Transportation (DOT)
• Federal regulations require employers to test their drivers for alcohol and drug use as a condition of employment and require random tests while they are on duty
• According to DOT regulations, all drivers must be able to read and speak English well enough to read road signs, prepare reports, and communicate with law enforcement officers and the public

APPRENTICESHIP/TRAINING

Workforce Training and Community Education offers non-credit plumbing and electrical apprenticeship training. Students may be eligible to attend related instruction if they are working at the trade under the supervision of a journeyman and for a contractor.

Intended Learning Outcomes

- Graduates will demonstrate proficiency in performing industry-level skills for their respective trade in residential, commercial, and industrial settings.
- Effectively perform and communicate the theories, concepts, and mathematical processes through writing and speaking to a variety of audiences.
- Understand and demonstrate the values and attributes required of an apprentice-level trades and crafts employee.

Associate of Applied Science Degree for Apprentice/Journeymen

This program is intended for trades and crafts personnel who are interested in completing the necessary course work to obtain an Associate of Applied Science Degree for Apprentices and Journeymen. Individuals enrolled in apprentice programs and journeymen may be eligible for this Associate of Applied Science Degree program by completing at least 16 general education credit hours on campus at EITC. For more information, please contact the Workforce Training & Registration for Apprenticeship, Community Education & Workforce Training. For course fees and registration information, contact the Workforce Training and Community Education Program at 1600 S. 25th East, (1600 Hitt Road), Idaho Falls, ID 83404, or call 524-3000, Ext. 3381, or toll free 1-800-662-0261.

Program Cost

Graduates are required to sit for proficiency exams at the conclusion of their program. Information regarding costs and dates for the exams will be posted in the online catalog and available from the program instructor(s).

OUTREACH COURSES

The Workforce Training and Community Education Program offers short-term training classes throughout eastern Idaho. Classes are offered to residents living in Bonneville, Jefferson, Madison, Teton, Lemhi, Butte, Custer, Clark, and Fremont counties. Rural Community Education Centers located in Rexburg, St. Anthony, Driggs, and Salmon offer Community Education services during the winter months. Area residents and employers are encouraged to contact the Community Education coordinator with ideas for new classes.

COMMUNITY EDUCATION COURSES

Community Education classes are available to adult students who are interested in pursuing a new hobby or pastime. A wide variety of courses are offered in subjects such as photography, creative writing, foreign language, music, and art. Well-known local artists and musicians often teach our performing and visual arts courses.

ONLINE COURSES

Would you like to acquire valuable new skills from the comfort and convenience of your home or office? Learn how to navigate the Internet, create a Web page, or master the art of Web programming. A variety of online computer classes will help you unlock the powerful secrets behind all your favorite applications. Our personal enrichment courses will help you prepare for an upcoming test, eliminate debt, write a successful grant proposal, become a professional writer, or chart a new career path. Courses are offered monthly throughout the year beginning on the second Wednesday of each month.

Each six-week course consists of 12 lessons, two each week, that can be accessed using an easy-to-read web interface, or can be delivered via e-mail. Textbooks, unless specified, are not required. These courses are especially convenient for those with work, school, or childcare commitments, physical disabilities, limited access to transportation, or other circumstances that make it difficult to participate in a traditional classroom setting. You will need the following:

- Internet access
- E-mail, Microsoft Internet Explorer or Netscape Navigator web browser
- If specified, program software

Before the first lesson:
Register and pay course fee at EITC and complete the online orientation. IMPORTANT: Registration and orientation MUST be completed two days before your course starts.

To take the online class:

- Retrieve the lessons at your convenience (available Wednesdays and Fridays)
- Complete the assignment and homework on the web site within six weeks
- Print letter of completion

REGIONAL ADULT LEARNING CENTER

Length of Program:
Flexible scheduling available.

Staff
Richard Belknap, Division Manager
Kayla Jensen, WIA Liaison
Margaret Collins, Outreach Coordinator
Joyce Byington, Administrative Assistant
Gary Mills, GED Chief Examiner
Irene Jones, Disability & Resource Service Coordinator

Faculty
Dave Vugrenes
Marion Lansford

The Adult Learning Center (ALC) and the Adult Basic Education (ABE) Division help students achieve their goals through basic skills instruction in English, Mathematics, and reading. Specialized classes are available in English as a Second Language (ESL); General Educational Development (GED)/High School Equivalency Certificate (HSEC) preparation; and introductory computer literacy. Services are free to adults over the age of 16 whose basic skills fall below the 12th grade level.

English as a Second Language (ESL)
The ESL program provides non-English-speaking students with instruction in the English language from beginning levels to advanced reading and writing. Classes are held both on campus and throughout EITC’s nine-county service area.

GED Preparation and General Skills Brush Up
The regional ALC offers free instruction to prepare students to take the five GED exams. Study materials are also available for completing the American Government requirement for the State of Idaho High School Equivalency Certificate (HSEC).

Tests of Adult Basic Education (TABE)
New students entering the ABE program on campus or in the outreach centers will take the TABE to identify their academic levels. The TABE assesses reading, language (English and writing), and math skills. Each student will pre-test at entrance and post-test after receiving educational instruction. The TABE shows results as well as areas of strengths and weaknesses, and may also include a GED predictability score. The TABE Complete Battery, which takes approximately four hours, is given on Monday and Tuesday mornings and evenings and on Thursday afternoons. Please call the Adult Learning Center for exact times. The Woodcock-Johnson oral reading test and other career awareness and assessment tests are available upon request.

California Adult Student Assessment System (CASAS)
Each ESL student will be pre-tested and placed into the correct class or level according to the CASAS score. Post-testing after every 30 course hours will monitor student progress.

Tests of Adult Basic Education (TABE)

Tutoring
EITC provides tutoring for any ABE student who needs additional help in reading, math, language (English and writing), and ESL. Referral is made through ABE instructors. Tutoring is available in all nine counties through Community Literacy Councils and EITC.

Greater Opportunities to Achieve Life Skills (GOALS)
Greater Opportunities to Achieve Life Skills (GOALS) Training Project: The GOALS Project is designed to assist disabled youth exiting the public school system to become self-sufficient, contributing members of society. Services to disabled youth between the ages of 16 and 21 years old may include, but are not limited to, peer counseling, social interaction, pre-vocational skills, vocational training, and independent living skills.
THE CENTER FOR NEW DIRECTIONS

Staff
Eric Langley, Coordinator

Julieann Holman, Special Population Counselor
julieann.holman@my.eitc.edu

Roberta Lefler, Non-traditional Services Coordinator
roberta.lefler@my.eitc.edu

Ginger Reid, Counselor
ginger.reid@my.eitc.edu

Cathy Rogers, Program Secretary
cathy.rogers@my.eitc.edu

The Center for New Directions provides services to empower individuals to make effective positive life changes.

Telephone: (208) 524-3000 ext. 3363

Services for Students
• Counseling: personal and group; assessment; support services; career plan; referral; positive placement; and crisis intervention.
• Limited fee waivers and scholarships for those in financial need.
• Test taking, tutor arrangements, and stress management strategies.
• Individualized Career Search.
• Classes in personal growth and career exploration.
• Keyboarding and Beginning Computer classes.
• Presentations on various topics including personal and employment skills.
• Assistance in application to educational programs and financial aid.
• Job search assistance.
• Limited walk-in counseling.

Special Events
• Job Options Conference
• Guided study groups and tutoring
• EITC Advantage Fair
• Personal Growth Workshops
• Equal Pay Day
• Christmas Project

Student Success Plan
A counselor helps the individual student identify their primary needs and the steps they will take to address their needs. For a student who wishes to explore career possibilities or acquire new workplace or personal skills, a career development plan is formed. If the student wants to ensure success in their technical program or optimal placement in employment, the counselor will help create a student success plan. In either case, a counselor will help each student clarify their goals and the action steps they will take to achieve them. Sometimes an assessment such as IDEAS (Career Information System) is used. Support services/classes and referral to additional help both on and off campus are included. Regular appointments with a counselor to monitor student progress toward goals are scheduled as desired.

Services for Students in Nontraditional Programs
Counseling, case management, support services and scholarships are available for students in programs of training for an occupation usually performed by the opposite gender.

The Center for New Directions also serves under-prepared adults, single parents and displaced homemakers who wish to improve their education or employment. The Center maintains an active Advisory Board.

Call for information on current classes/workshops; also check downlink on EITC web site @ www.eitc.edu.

Fees are based on income and usually not charged to EITC students.
ACCOUNTING

ACC 110 QuickBooks for the Office
3 Credit(s)
QuickBooks is a popular accounting program utilized by many small and large businesses in today’s office environment. Students in this course will learn the principal functions of QuickBooks including accounts payable, accounts receivable, bank reconciliation, payroll and basic accounting reports. Emphasis will also be placed on source documents and maintaining accounting files.
Prerequisite: CIS 101 or equivalent.

ACC 210 Accounting I
3 Credit(s)
This course covers analyzing and recording business transactions, posting, preparing worksheets, doing adjusting and closing entries, banking and cash fund activities, payroll, accounts receivable, accounts payable, financial statements, and depreciation.

ACC 214 Computerized Payroll
2 Credit(s)
This course consists of entering company payroll files onto the computer using a popular payroll program, maintaining employee earnings records, and printing payroll reports and W-2’s.

ACC 220 Accounting II
3 Credit(s)
This course provides training in accounting for notes payable and notes receivable; valuation of receivables, inventories, and plant and equipment; using the voucher system; accounting for partnerships and corporations; and cost accounting.
Prerequisite: ACC 210.

ACC 221 Accounting Computer Applications
2 Credit(s)
Computer work reinforces Accounting II dealing with financial analysis, inventory, depreciation, bad debts, corporations, and cost accounting. A simulated business set is included.
Corequisite: ACC 220

ACC 222 Personal Income Tax
3 Credit(s)
This course covers various principles of taxation influencing record keeping for individuals and small businesses and deals with changes in tax laws.
Corequisite: ACC 220.

ACC 226 Excel in Accounting
2 Credit(s)
This course allows students to explore a sophisticated software package that is being used in the Accounting Profession. Students will expand their knowledge of accounting concepts while learning a valuable software tool.
Prerequisite: ACC 220, OFP 142.

ACC 227 Computerized Business Accounting
2 Credit(s)
This course explores a popular computer accounting program. Simulated businesses are used to set up company books, carry out daily activities, and produce reports and statements.
Prerequisite: ACC 220.

ACC 230 Managerial Cost Accounting
3 Credit(s)
This course presents accounting concepts used to generate and evaluate relevant cost information important for managerial decisions. The concepts will include accounting for product costing, process costing, budgeting, control and performance evaluation, and internal controls. Effective analysis of cost information will be emphasized.
Prerequisite: ACC 220.

AUTOMOTIVE AND DIESEL

ASE 102 Workplace Technical Skills
3 Credit (s)
This course introduces students to personal and work related strategies for seeking and keeping employment. This includes an employment plan, cover letter, resume and interview. Students will study professionalism, teamwork, how to dress for an interview, how to accept a job, how to interact with employers and other employees. Students will also be introduced to warranty report writing, work orders, estimates, and how technicians are compensated. Students will be introduced to the different types of communications. Student will be able to tell the difference between technical and soft skills. Students will set short and long term goals.
Prerequisite MTD 101

ASE 111 Basic Power Plant Systems
2 Credit(s)
This course is an in-depth study of the internal combustion engine. Items to be covered include four-cycle theory, power development in the internal combustion engine, cylinder arrangement, valve train arrangement, displacement, compression ratio, engine components and their function, lubricating systems, the classification and rating of engine oils, diagnosis of engine oil leaks, compression loss, oil consumption, engine noise, and engine measurements. A four-cycle engine will be disassembled, measured, and assembled; making all necessary adjustments. The engine will run upon completion.
Corequisites: ASE 112 and ASE 113

ASE 112 Upper Power Plant Systems
2 Credit(s)
Items to be covered include valve covers, gaskets, timing cover and seals, intake manifolds, cylinder heads, head surfaces, camshafts, valve guides, valve springs and retainers, timing chains and gears, rocker arms, pushrods, valves, and cam bearings. Areas of study include description, identification, failure analysis, disassembly, preparation for assembly, and assembly.
Prerequisite ASE 111
Corequisites: ASE 113
ASE 113  Lower Power Plant Systems  
2 Credit(s)  
Items to be covered include oil pan, motor mounts, oil and filter changing, detection of oil leaks, engine removal and replacement, disassembly and assembly procedures, parts cleaning, cylinders, main bearings and alignment, cam bearings, block surface, crankshaft, connecting rods and bearings, pistons, piston pins, oil pumps and soft plugs. Study will include description, identification, failure analysis, disassembly, inspection, measurements, preparation for assembly, and assembly.  
Prerequisite: ASE 112

ASE 121  Automatic Transmissions  
3 Credit(s)  
This course covers theory, operation, and principles of automatic transmissions. Items covered are fluid couplings, torque converters, planetary gear systems, hydraulic and electrical control systems, and transmission lubricating and cooling systems. Minor adjustments, transmission tune-up service, replacement, repairs, and diagnosis are included in this course.

ASE 131  Manual Drivetrain & Axles  
2 Credit(s)  
The theory and principle of clutches, manual transmissions, drive lines (including U-joints), differential assemblies, and transaxles as used on cars and light trucks, both domestic and foreign, will be covered. Also included will be 4 x 4 transfer cases, both single and double reduction units.

ASE 141  Automotive Suspension & Steering Systems  
2 Credit(s)  
Covered in this course are theory, adjustment, and repair of manual steering systems, front and rear suspension systems, wheel alignment, wheel balance both statically and dynamically, tires, bearings, and use of wheel aligning and tire service equipment.

ASE 151  Automotive Brake Systems  
2 Credit(s)  
This course covers the theory, principles, and operation of brake systems. Items covered are hydraulics as applied to brakes, brake fluid types and characteristics, master and wheel cylinder operation, disc brake caliper operation, brake system valving, operation of drum brakes, operation of disc brakes, operation of parking brakes, and operation of vacuum and hydraulic brake boosters. Inspection of brake components, adjustments, service, and minor repairs of brake systems are included in this course.

ASE 163  Introduction to Automotive Electronics  
5 Credit(s)  
This course covers theory, principles, and operation of automotive electrical systems. Items covered are electrical terms, electrical current flow, magnetism, electrical current sources, conductors, insulators, circuit test instruments, circuit protection, switches, relays, solenoids, diodes, transistors, gauges, simple motors, induction coils, resistors, and capacitors. Testing of batteries, as well as testing, rebuilding, and repair of generating systems and starting systems are included in this course.

ASE 171  Heating and Air Conditioning  
2 Credit(s)  
This course covers theory, operation, maintenance, and repair of water pumps, thermostats, coolant, radiators, hoses and clamps, drive belts, radiator caps, recovery systems, fans, drive clutches, coolant distribution and flow in the engine, heater cores and controls; air conditioning components such as compressors, evaporators, condensers, receivers, dryers, expansion valves, and various other control systems. Use of charging station, leak detectors, and other tests and special tools is included.

ASE 181  Basic Ignition Systems and Tune-up  
2 Credit(s)  
Covered in this course are theory and fundamentals of standard ignition systems, tune-up procedures and analyzing, testing, and diagnosing of ignition systems. This includes distributor overhaul, ignition coil operation, spark plugs, condensers, ignition wires, resistors, distributor caps and rotors, starter draw tests, compression testing, and use of the oscilloscope.  
Prerequisite ASE 163

ASE 182  Advanced Ignition Systems and Tune-up  
2 Credit(s)  
This course is a comprehensive study of various types of electronic ignition systems, tune-up procedures, and repair of modern computer-controlled ignition and emission equipped autos. General Motor’s, Chrysler’s, Ford Motor’s systems. The use of test equipment, proper repair procedures, troubleshooting, and adjustments to meet federal and manufacturer specifications are covered along with other types of electronic systems. After completion, a student will be qualified as an entry-level tune-up technician.  
Perquisite ASE 181

ASE 183  Gasoline Fuel Systems  
2 Credit(s)  
This course covers theories, principles, and operation of gasoline fuel systems. Items covered are fuel tank and filtering systems, intake manifolds, exhaust systems, air cleaners, fuel filters, fuel delivery systems, heat riser systems, and fuel lines. Minor repairs, adjustments, diagnosis, and replacement of gasoline fuel systems are included in this course.

ASE 184  Basic Computer Controlled Engines Systems  
2 Credit(s)  
This course is an introduction to computer engine controls and a study of how and why computers have been introduced into the automotive industry. Items covered will be the microcomputer, sensors, actuators, and wiring which are necessary for the proper function of the computer. Proper identification, location, function, and testing of these components will be stressed.  
Perquisite ASE 182
ASE 214 Diesel Engine Rebuilding
2 Credit(s)
A complete engine rebuild will be performed including removal and replacement of the engine. Complete disassembly, measurement, preparation for assembly, and assembly will be covered.
Prerequisite ASE 113

ASE 216 Diesel Engine Service
2 Credit(s)
This course is a complete study of the diesel engine, covering Cummins, Detroit, and other diesel engines. Diesel theory, troubleshooting, maintenance, and tune-up will be covered.
Prerequisite ASE 214

ASE 221 Computer Controlled Automatic Transmissions
3 Credit(s)
This course covers diagnosis and correction of major problems in automatic transmissions such as fluid leaks, transmission slipping, transmission lock-up, and shifting problems. Major diagnosis, repair, and overhaul of automatic transmissions are included in this course.
Prerequisite ASE 121

ASE 233 Heavy Duty Drive Train/Transmissions and Clutches
3 Credit(s)
This course describes the component needs for a truck driveline and the procedures needed for inspecting, servicing, and lubricating universal joints. The eliminating of vibrations through correct phasing and driveline alignment is discussed. The students will learn the importance of drive line angles and how to measure and calculate them. Both hydraulic and electrical driveline retarders will be introduced. The students will learn how to identify the types of axles and combinations of axles as used in medium and heavy-duty trucks. They will be able to explain the function of a power divider and trace the flow of power through a tandem drive axle combination. They will be familiar with the various types of gears used for truck axles. Students will know the lubrication requirements and service procedures required for truck axles. Basic troubleshooting and repair of differential carriers will be taught. Students will demonstrate competence by disassembling and reassembling both power dividers and differential carriers.
Prerequisite ASE 133

ASE 242 Advanced Suspension & Steering Systems
2 Credit(s)
Major repair of power steering components, pumps, gears, cylinders, individual and integral units, rack and pinion steering (both standard and power), complete suspension overhaul, four-wheel alignment, and balance is emphasized.
Prerequisite ASE 141

ASE 243 Heavy Duty Suspension and Steering
2 Credit(s)
In this course the student will study heavy-duty suspension and steering systems as applied to class 3 through class 8 trucks. Emphasis will be on the diagnosis and repair of:

- manual and power steering systems; front and rear axle suspension systems, tires and wheels; and wheel alignment diagnosis, adjustment and repair. Related subjects include the inspection of fifth wheel assemblies, frames and frame members, and cab suspension systems.
Prerequisite ASE 141

ASE 252 Antilock & Power Brake Systems
2 Credit(s)
This course covers diagnosis and repair of major problems in brake systems. Items included are brake system leaks, fluid contamination, and major repair of drum and disc brake systems. Diagnosis, repair, replacement, overhaul, resurfacing of brake drums, disc rotors, and skid control systems are covered. All components of the brake system are included in this course.
Prerequisite ASE 163 and ASE 151

ASE 253 Air Brake Systems
2 Credit(s)
This course covers theory, principles of operation, and related math of both light and heavy-duty trucks. This course also covers air brakes used on trucks and equipment. This course will cover cam, wedge, power-assist brakes (hydovac), and air brakes (air compressors, treadle valves, brake chambers, and components related to air brakes). Also an introduction to engine brakes is included. Troubleshooting and repairs will be performed on mock-up units and live work projects as they are available.
Prerequisite ASE 151

ASE 262 Automotive Electronics
2 Credit(s)
This course covers theory, operation, and principles of automotive body electrical systems. Items covered are wiring diagrams and harnesses, windshield wipers, dash components, speed controls, power seats, power windows, horns, printed circuits, seat belt interlocks, fusible links, power door locks, external and internal lighting systems, and other components of the body electrical system. Testing, replacement, and repair of body electrical systems and wiring harnesses are included in this course.
Prerequisite ASE 163

ASE 264 Advanced Automotive Electronic Component Testing and Safety
3 Credit(s)
This course covers a review of Ohm’s Law and its application to the modern-day computer systems. There will be a review of alternators, starters, and an introduction to the automotive security systems used on today’s automobiles. The main emphasis of this course will be theory, operation, and testing of the electronic components which support the automotive computer. A section of electronic safety while working with today’s automotive computer is included. How to repair the sensitive components without serious damage to the component or the technician will be covered in this section.
Prerequisite ASE 262
ASE 266 Diesel Electrical Systems
5 Credit(s)
This course covers the electrical system as used on medium and heavy-duty trucks. Students registered for this class will have previously successfully completed ASE 163. This course is designed to cover the tasks required by ASE to complete test T6 Electrical and Electronic Systems. The content areas are:
*General Electrical Systems Diagnosis and review of Ohm’s Law.
*Battery Diagnosis and Repair.
*Starting System Diagnosis and Repair.
*Charging System Diagnosis and Repair.
*Lighting System Diagnosis and Repair.
*Gauges and Warning Devices Diagnosis and Repair.
*Related Electrical Components.
Prerequisite ASE 163

ASE 284 Light Truck Diesel Fuel Injection Systems
2 Credit(s)
This course will include diesel theory, fuel, fuel system components, and operation. Topics include removal, replacement, and timing of fuel injection pumps. Injector nozzles of various styles are disassembled, repaired, and tested by the student. Minor fuel system problems shall be discussed. Students learn the theory of operation of distributor style injection pump. Troubleshooting and resealing procedures will be demonstrated.

ASE 285 Gasoline Fuel Injection Systems
3 Credit(s)
This course covers diagnosis, replacement, repair, and overhaul of major problems in the gasoline fuel system. Items covered are fuel pump pressure, flow and vacuum test, and rebuilding gasoline fuel injection systems, testing, overhauling and component replacement, exhaust system overhaul, and analysis of exhaust gases.

ASE 286 Computer Controlled Engines Systems
3 Credit(s)
This course covers the basic operation of a microcomputer, how binary numbers are used in the computer, the function of a microprocessor or how a microcomputer is programmed to control ignition timing, fuel air ratio, and exhaust emissions. Theory of operation, troubleshooting, tune-up procedures, diagnosis and repair of General Motor’s and Ford Motor’s Electronic Engine Control systems will be covered
Prerequisite ASE 184

ASE 287 Emission Control Systems
3 Credit(s)
A comprehensive study of service repair and installation of emission controls in the following areas: crankcase, ventilation systems, fuel evaporation emission control systems, air inlet temperature control systems, spark timing control devices, air pumps and air pulse systems, temperature sensing, vacuum valves and switches, exhaust gas recirculation systems, catalytic converters (both single and three-way), and computer controlled systems. Use of proper test equipment to meet Federal Clean Air Standards is also covered.
Prerequisite ASE 283 and ASE 286

ASE 288 On Board Diagnostics II
1 Credit(s)
On-Board Diagnostics II is a study of developments in the control and diagnostics of the computerized engine systems. This course is a study of the functions, the terminology and of the diagnostics self-test capabilities of the modern automobile. Students will receive both lecture and hands-on practical applications of the control built into today’s automobiles.
Prerequisite ASE 286

ASE 289 Heavy Duty Diesel Fuel Injection Systems
2 Credit(s)
More detailed training included is the fuel injection nozzles, including unit injectors. The study of Cummins, Detroit, and in line style injection pumps with more detailed theory to provide the student with a better understanding of fuel injection systems for tune-up and troubleshooting capability. Pump operation with more detailed theory including burey cycle will assist the student to understand the system better for enhanced troubleshooting capability is included. Governors will be discussed and demonstrated. Final requirements for this course will be live work troubleshooting.
Prerequisite ASE 284

ASE 291 Fluid Power Systems
2 Credit(s)
This unit of instruction covers in greater detail theory and application of fluid power systems. Component parts and theory relationship to circuitry, diagnosis, and testing will be studied. Troubleshooting and repair of live work projects will be utilized as available.

ASE 292 Computer Engine Controls for Diesel Engines
5 Credit(s)
This course covers computer engine controls and a study of how and why computers have been introduced into the trucking industry. Items covered will be the microcomputer, sensors, actuators, and wiring necessary for the proper function of the computers which are used to control modern diesel engines. Proper identification, location, function, and testing of these components will be stressed. The theory of operation and troubleshooting procedures for the diesel engine computer systems will be covered through a detailed study of diagnostic and engine management software provided by diesel engine manufacturers.

ASE 293 New Generation OBD III
3 Credit(s)
New Generation OBD III is an advanced course continuing ASE 288 (On Board Diagnostics II), computerized engine controls and increased self-testing ability of the modern automobile. Students will be introduced to computer PROM (Programmable Read Only Memory) flashing reprogramming, which provides production updates to current automobiles on the road today.
Prerequisite ASE 288
**BIOLOGY**

**BIO 227  Human Anatomy and Physiology I**  
4 Credit(s)  
This course is the first course of two semester sequence in human anatomy and physiology. This course covers the structure and functions of integumentary, skeletal, muscular, and nervous systems.  
*Strongly advised to complete HCT 101 prior to/or concurrently. Corequisite: BIO 227L.*

**BIO 227-L  Human Anatomy and Physiology I Lab**  
0 Credit(s)  
Corequisite: BIO 227.

**BIO 228  Human Anatomy and Physiology II**  
4 Credit(s)  
This course is the second course of two semester sequence in human anatomy and physiology. This course covers the structure and functions of circulatory, respiratory, urinary, digestive, endocrine, and reproductive systems.  
*Prerequisite: BIO 227 Corequisite: BIO 228L.*

**BIO 228-L  Human Anatomy and Physiology II Lab**  
0 Credit(s)  
Corequisite: BIO 228.

**BIO 250  General Microbiology**  
3 Credit(s)  
This course is an introduction to the essential principles of microbiology and medically significant microorganisms. The course includes a taxonomy, microbial growth and control, clinical disease pathogenesis, and universal precautions for handling human body fluids.  
*Strongly advised to complete HCT 101 prior to/or concurrently. Corequisite: BIO 250L.*

**BIO 250-L  General Microbiology Laboratory**  
1 Credit(s)  
Corequisite: BIO 250.

**BUSINESS**

**BOT 151  Leadership I**  
1 Credit(s)  
This fall course offering will allow students who are in different programs in the Business, Office and Technology Division to participate in a variety of activities and events that will be tailored to their declared specialty to enhance their education. This course will allow students to hear from a wide variety of guest speakers who are considered “experts” in their fields on a variety of timely business topics. The course will also allow students to participate in actual business meetings, organizations, and activities that will have a focus on the free enterprise system. Different speakers and activities will be presented each semester, so the material will always be new and timely. Students who choose to participate in the various student organizations available on our campus will be encouraged to do so, but membership in those groups is not required in this course. Various sections will be offered each semester, with each section designated for a different specialty. The course will be graded on a pass/fail basis.

**BOT 152  Leadership II**  
1 Credit(s)  
Spring course continuation of BOT 151. This course will be graded on a pass/fail basis.

**BOT 216  Supervised Work Experience**  
3 Credit(s)  
Supervised work experience will be conducted at an instructor-approved work site or on the campus of Eastern Idaho Technical College.

**BOT 251  Leadership III**  
1 Credit(s)  
Fall course continuation of BOT 152.  
*Prerequisites: BOT 151 and BOT 152. Course will be graded on a pass/fail basis.*

**BOT 252  Leadership IV**  
1 Credit(s)  
Spring continuation of BOT 251.  
*Prerequisites: BOT 251. Course will be graded on a pass/fail basis.*

**CHEMISTRY**

**CHE 101  Essentials of General Chemistry**  
4 Credit(s)  
CHE 101 provides a survey of the basic concepts of inorganic chemistry. Included are quantitative concepts and development of problem-solving methods. CHE 101 provides satisfactory preparation for CHE 111 for students without sufficient back ground in chemistry.  
*Lecture: three hours per week  
Prerequisite: MAT 100 or COMPASS Algebra > 40. ACT >18  
Corequisite Lab: CHE 101L - three hours per week*

**CHE 101L  Essentials of General Chemistry Lab**  
0 Credit(s)  
Corequisite: CHE 101.

**CHE 111  General College Chemistry I**  
4 Credit(s)  
This course is a study of the fundamental principles necessary to describe the interaction of atoms and molecules in the various phases of matter, including properties of matter, changes that it undergoes, and energy changes that accompany these processes. Lecture and laboratory topics include unit conversions, stoichiometry, chemical bonding and reactions, kinetic molecular theory, solution chemistry, and kinetics.  
*Prerequisite: Successful completion of MAT 143.*

**CHE 112  General College Chemistry II**  
4 Credit(s)  
A continuation of CHE 111 to include an introduction to kinetics, acids, bases, gas, and solutions equilibrium,
electrochemistry, and nuclear chemistry. Three hours of lecture and three hours of laboratory each week. 

Prerequisite: Successful completion of MAT 143 and CHE 111 or permission of instructor.

COMPUTER INFORMATION SYSTEMS

CIS 101  Computer Information Systems  
3  Credit(s)
This course is an introductory computer course for students with little or no prior computer knowledge. Three modules are covered within the class. Key Applications (word processing, spreadsheets, and presentation software), Computer Fundamentals (What is a computer?, processing data, software, hardware and social issues) and Living On-line (networks, the Internet, research, and e-mail). A student-friendly overview of EITC’s computer system will also be provided. Successful completion of this course prepares students for the Internet and Computing Core Certification (IC3) exam.

CIS 145  Internetworking Technologies  
4  Credit(s)
This course provides an overview of basic networking concepts, including industry language, data communications protocols, overview of microcomputers, and Network user basics.

CIS 231  Web Page Design  
3  Credit(s)
This course introduces the student to design and construction of Internet Web Sites. It covers planning, design concepts, Internet graphics, Internet multimedia, page layout, maintenance, legal issues, and commercial use of the Internet. Students learn the current W3C standards and are exposed to the latest enhancements. 
Prerequisite: CIS 101.

CIS 234  Computer Assisted Graphics  
3  Credit(s)
This course uses Adobe Illustrator for the design of graphics and Adobe Photoshop for the manipulation of photographs for use in publications and the World Wide Web. The course presents preparing optimizing files for output and color theory 
Prerequisite: CIS 101 or equivalent

CIS 235  Advanced Web Site Design  
3  Credit(s)
The student will work with organizations to develop and publish web sites using a variety of advanced coding methods. This course will build on the W3C standards introduced in CIS 231 and will provide advanced web programming skills in HTML/XML, JavaScript, VBScripts and CGI programming to work with cookies, forms, input validation, database connectivity and searches. 
Prerequisite: CIS 231.

CIS 236  Web Development Tools  
3  Credit(s)
This course provides the students with the skills necessary to utilize the latest industry standards in graphical applications for web development. A number of applications will be examined and used in the course to provide rapid web development skills to the student.

CIS 238  Database Driven Websites  
3  Credit(s)
This course will examine the different approaches for creating dynamic web pages that interact with databases and demonstrates how web servers interact with database servers and browsers to create dynamic web pages. The students will use relational database concepts to create queries using SQL. The course will interact with databases using both client-side and server-side scripts. 
Prerequisites: CIS 239.

CIS 239  Advanced Data Management  
3  Credit(s)
This course provides the advanced skills necessary to develop scaleable organization databases. Organizational information needs and limitations will be examined to plan and develop databases that can later be utilized in the creation of dynamic web sites. Industry standards in database software will be utilized throughout the course. 
Prerequisite: OFP 227.

CIS 240  Emerging Technologies of the Internet  
3  Credit(s)
This course will examine the latest Internet plug-ins and the development tools required to utilize these emerging technologies. Strategies and deployment issues regarding new technologies will also be examined from both the organizational as well as the end user perspective. 
Prerequisite: CIS 239.
COMPUTER NETWORKING

CNT 101  Microcomputer Concepts/Intro to Networking
4  Credit(s)
This course provides an overview of basic networking concepts, including industry language, data communications protocols, overview of microcomputers, and Network User Basics.

CNT 103  Introduction to UNIX/Linux
3  Credit(s)
This course is a guide designed to help the student learn the skills needed to master the UNIX/Linux environment. Practical hands-on descriptions and exercises are employed to help the student see what commands are available, how they are used and what must be done to get results. Students will be guided from the initial steps, to exploring essential features, to mastery of basic and advanced user skills.

CNT 121  Wireless LAN Administration
3  Credit(s)
The wireless LAN Administration course provides the networking professional a complete foundation of knowledge for entering into or advancing in the wireless networking industry. From basic RF theory to link budget math, including topics from troubleshooting to performing a site survey, this course delivers hands-on training that benefits the novice and the experienced network professional.

CNT 122  Wireless LAN Security
3  Credit(s)
The wireless LAN Security course consists of hands-on learning using the latest enterprise wireless LAN security and auditing equipment. This course addresses in detail the most up-to-date WLAN intrusion and DoS tools and techniques, functionality of the 802.11i amendment to the 802.11 standard, the inner-workings of each EAP type used with wireless LAN’s today, and every class and type of WLAN security solution available on the market - from wireless intrusion prevention systems to wireless network management systems. Students who complete the course will acquire the necessary skills for implementing and managing wireless security in the enterprise by creating layer2 and layer3 hardware and software solutions with tools from several of the industry’s leading manufacturers.

CNT 150  Desktop/Client Computer Operating Systems
4  Credit(s)
This course is for students desiring to become a Microsoft Certified Technology Specialist for client computers. It provides students with the knowledge and skills to install and configure windows client operating systems. It focuses on four main areas: installing, securing, networking, and browsing. By the end of the course, students will have installed and configured a windows client computer that is secure, on the network, and ready for browsing. 
Pre-requisite: CNT 101 or equivalent experience.

CNT 202  Advanced UNIX/Linux
4  Credit(s)
This course focuses on practical hands-on descriptions of system administration tasks and the utilities—both command-line and graphical when available— that the administrator would use to complete daily work managing a UNIX/Linux based server. The goal of the descriptions and exercises presented is to provide the student with sufficient knowledge and skills to pass a Linux certification exam, thereby demonstrating that important theoretical and practical knowledge of the UNIX/Linux based computers has been gained. 
Prerequisite: CNT 103.

CNT 210  Supervised Work Experience
3  Credit(s)
This course provides students with the opportunity to apply the skills acquired in a controlled working environment. Students will find employment for Supervised Work Experience at an instructor-approved work site, with assistance from the instructor as necessary. 
Prerequisites: Successful completion of CNT semesters 1, 2, and 3.

CNT 222  Wireless LAN Analysis
3  Credit(s)
Wireless LAN Analysis is recommended training for individuals seeking to troubleshoot, increase the performance of, and secure their wireless LAN. Students who complete the course will acquire the necessary skills for analyzing and troubleshooting any wireless LAN system through a thorough education in the 802.11 frame structure, frame exchange processes specified by the 802.11 standard, and extensive hands-on training installing, configuring, and utilizing five market-leading analysis products: AirMagnet, Network Chemistry, Network Instruments, TamoSoft, & WildPackets.

CNT 241  Application Infrastructure Configuration
4  Credit(s)
This course is for students desiring to become a Microsoft Certified Technology Specialist for servers in a Microsoft based network. It provides students with knowledge and skills necessary to effectively and reliably deploy network applications to users requiring services such as terminal services, Web sites, and Web applications.
Prerequisite: CNT 263

CNT 242  Designing Security for Microsoft Networks
2  Credit(s)
This course provides students with the knowledge and skills to design a secure network infrastructure. Topics include assembling the design team, modeling threats, and analyzing security risks in order to meet business requirements for securing computers in a networked environment. The course encourages decision-making skills through an interactive tool that simulates real-life scenarios in which students are given the task of collecting the information and sorting through the details to resolve the given security requirements.
Prerequisite: CNT 243.
CNT 243 Network Infrastructure Configuration
4 Credit(s)
This course is for students desiring to become a Microsoft Certified Technology Specialist for servers in a Microsoft based network. The emphasis is on the knowledge and skills necessary to successfully install, configure, manage, troubleshoot, and maintain the network services that are necessary to provide an environment that will satisfy the needs of users as relating to sharing resources such as files and printers in a secure, reliable manner.
Prerequisites: CNT 101, CNT 150, ELC 203

CNT 244 Biztalk Server Business Integration Solutions
4 Credit(s)
This course provides students with the knowledge and skills to efficiently and effectively integrate systems, employees, and trading partners through orchestration in a highly flexible and highly automated manner.

CNT 245 Network Solutions for Small and Medium-Sized Businesses
3 Credit(s)
This course provides students with the skills and knowledge necessary to select, deploy, and manage a Microsoft networking solution for small and medium-sized businesses. It includes how a business may grow from peer-to-peer to Small Business Server and up to multiple Windows Server 2003 servers.

CNT 246 Deploying Vista Desktop
3 Credit(s)
This course provides students with the knowledge and skills to successfully deploy Windows Vista business desktops throughout their organization. Students are introduced to the deployment life cycle, which consists of planning for the deployment, building and customizing the deployment method, and then implementing the actual deployment. Students are introduced to the tools and guidance to be used throughout various stages of the deployment life cycle.

CNT 247 Implementing Sharepoint Server
3 Credit(s)
This course provides students with the knowledge and skills required to implement Microsoft SharePoint Server successfully in their organization. It provides the knowledge and skills necessary to ensure a successful implementation.

CNT 248 Implementing & Supporting Microsoft Exchange Server
3 Credit(s)
This course provides an introduction to the core technologies of Microsoft Exchange Server. It prepares students to implement and administer Microsoft Exchange in a single-site or multiple-site environment. Additionally, students will install and configure the Microsoft Outlook desktop information manager client, be given an introduction to the connectors and protocols in Microsoft Exchange and install Internet Mail Service, Microsoft Mail connector, and Lotus cc:Mail connector.
Prerequisite: CNT 263.

CNT 249 Administering Microsoft SQL Server
3 Credit(s)
This course provides students with the knowledge and skills required for configuring, administering, and troubleshooting Microsoft SQL Server client/server database management system.
Prerequisite: CNT 263.

CNT 250 Secure Web Access Using Microsoft Proxy Services
2 Credit(s)
This course covers installing, configuring, and troubleshooting Microsoft proxy server in an enterprise environment. It will cover the basic architecture of the proxy server, the different methods of controlling access to the Internet and intranet, configuring the cache, interoperability with other networks, methods of monitoring and improving performance as well as other features of proxy servers.

CNT 251 Server Administration
4 Credit(s)
This course is for students desiring to become a Microsoft Certified IT Professional Server Administrator. It emphasizes the knowledge and skills necessary to plan a server deployment as well as perform a successful deployment. Included are discussions and exercises in migrating to the latest server technology, identifying and deploying various server roles and applications, and incorporating high availability features. Following that, maintenance activities such as updating the system and troubleshooting activities will be studied and practiced.
Prerequisite: CNT 241

CNT 252 Network Infrastructure Planning
4 Credit(s)
This course is for students desiring to become a Microsoft Certified IT Professional Enterprise Administrator. It concentrates on elements associated with designing a secure network that incorporates an effective, efficient active directory structure, includes services such as terminal services, web services and remote access, and incorporates virtualization.
Prerequisite: CNT 241
CNT 263  Active Directory Configuration
4 Credit(s)
This course is for students desiring to become a Microsoft Certified Technology Specialist for servers in a Microsoft based network. The emphasis is directory and through discussion and exercises, the course provides the knowledge and skills necessary to understand, implement, and administer active directory. Included are activities related to building skills in the areas of group policy, certificates and maintenance and troubleshooting.
Prerequisite: CNT 243

CNT 265  Implementing and Administering Security in a Microsoft Server Network Infrastructure
3 Credit(s)
This course provides students with the knowledge and skills to implement, manage, maintain, and troubleshoot security in a Microsoft network server network infrastructure and also plan and configure a Microsoft network server Public Key Infrastructure (PKI).
Corequisite: CNT 243 and CNT 262

CNT 275  Cisco Internetworking Technologies
4 Credit(s)
This course is for students having basic computer skills and some familiarity with networking. It provides instruction in network standards, network terminology and protocols, networking, IP addressing, LANS, WANS, cabling tools, and cabling. Particular emphasis is given to the use of decision-making and problem-solving techniques in applying science, mathematics, communication, and team building concepts to solving networking problems.

CNT 276  Cisco Router Setup and Operation
4 Credit(s)
This course is for students having completed the previous coursework or having work experience in networking. This course covers routing protocols and routing, elements of routers, the router operating system, the utilities used to configure the router, and router configuration tasks.
Prerequisite: CNT 276 or equivalent work experience.

CNT 277  Cisco Network Segmentation and Protocol Encapsulation
4 Credit(s)
This course covers LAN segmentation using routers, advanced router configurations, LAN switching theory, virtual LANs, advanced LAN design, and advanced routine protocols and concepts. Included are threaded case studies that help students apply the concepts that are learned.
Prerequisite: CNT 276.

CNT 278  Cisco WAN Technologies
4 Credit(s)
This course covers such topics as WAN theory and design, WAN technology, PPP, Frame Relay, ISDN and network troubleshooting. Included are threaded case studies that help the student apply the concepts that are learned.
Prerequisite: CNT 277.

COM 101  Fundamentals of Speech
3 Credit(s)
This is a course in oral communication that emphasizes the foundational elements of communication including: perception, self-concept, language, listening, and nonverbal. This course also encompasses a variety of communication, including interpersonal, group, and public.
Prerequisite: COMPASS reading and writing scores of 68+.

COM 101T  Fundamentals of Speech (Transfer Students Only)
1 Credit(s)
This course is designed to meet the needs of transfer students who enter EITC having previously taken a two-credit Speech or Communication class at either Idaho State University or University of Idaho. Students will attend the first seven weeks of the course, take all exams given during those seven weeks, and deliver at least one speech.
Prerequisite: Two hours of introductory Speech Communications transfer credit.

DENTAL

DTL 121  Orientation to Dental Assisting/Office Management
2 Credit(s)
This course is designed to provide the student with a solid foundation to become skilled in effectively using the correct terminology when dealing with various people in various situations. The skills learned in this course can be used when building relationships with people as related to success with patients, coworkers, and employers. Also provides in-depth understanding of the dentist’s and auxiliary’s ethical and legal responsibilities to patients and to each other. Emphasis is placed on the auxiliary’s role in risk management. An introduction to basic office procedures used on a daily basis is included.

DTL 124  Basic Dental Sciences & Medical Situations
3 Credit(s)
This course is designed to provide students with a basic understanding of the various sciences used in the dental health field. Class work also deals with preventive dentistry and patient care. The course provides the skills needed to handle any medical emergency in the dental office and provides a solid fundamental knowledge of HIV/AIDS as it pertains to patients, coworkers and employers. The student will be eligible to test for Red Cross certification in CPR, First Aid, and HIV/AIDS in the Workplace.

DTL 125  Dental Operatory Procedures
4 Credit(s)
This course is designed to provide the skills needed in the maintenance of treatment rooms, equipment, tray preparation, selection and proper sterilization of dental instruments or equipment, and the hands-on use of four- and six-handed chair side procedures. The course covers the physical and chemical interactions, manipulations, application and storage of various restorative materials.
DTL 126 Dental Radiology
4 Credit(s)
This course is designed to provide history, principles, and biological effects on the human body. Included also, are the exposing, processing, and mounting of radiographs using proper safety techniques. The course provides supervised theory and lab techniques covering intra and extra oral radiographic production, processing, mounting, and evaluation. The student has the opportunity to become skilled in dental x-ray procedures with a heavy emphasis on safety.

DTL 127 Dental Clinical
2 Credit(s)
Theories and skills learned in the classroom are applied to actual clinical situations through low-income clinic work on campus. The experience is made possible by local dentists who volunteer their time and services. This course provides the student with the opportunity to enhance chair side and laboratory skills in the dental environment and to work with dentists in a structured environment.

DTL 128 Dental Specialties
4 Credit(s)
This course is designed to provide the student with a basic knowledge, including indications and contraindications, of the use of dental specialties. Varied skills dealing with each specialty will be introduced.

DTL 129 Dental Biology
2 Credit(s)
Microbiology/Anatomy and Physiology is a required course for Dental Assisting students. This is an introductory course that is taught in one semester. The course is taught in a lecture format. This course will cover microbiology, pathophysiology and anatomy of the head and neck.

DTL 131 Dental Lab Materials and Expanded Functions
3 Credit(s)
The student will learn to identify properties, uses, and manipulations of various dental laboratory materials. A hands-on use of selected laboratory materials is used in the fabrication of numerous dental products. Also learned are selected laboratory procedures including proper use, maintenance, and safety of laboratory equipment. Much of this course is hands-on lab work. The student will have the opportunity to become skilled in the clinical aspects of the Idaho Expanded Functions for Dental Assistants. The student will have the opportunity to be tested for the Idaho Expanded Functions certificate.

DTL 132 Supervised Work Experience
6 Credit(s)
This course is designed to allow students to apply theories and skills learned in the classroom and lab to actual clinical situations in area dental offices. This gives the student the opportunity to become further skilled in the Idaho Expanded Functions. The student may also receive experience in specialty offices (e.g. orthodontics or oral surgery).

DTL 134 Fundamentals of Dental Assisting
3 Credit(s)
Provides the beginning Dental Assistant with background and knowledge in the areas of dental terminology, charting, cavity classification, infection control, local anesthesia, oral surgery, and ethics and jurisprudence. 
Prerequisite: Employed as a Dental Assistant for 6 months.

DTL 135 Expanded Duties
3 Credit(s)
Designed to teach the following expanded functions: coronal polishing, pit & fissure sealant, temporary crowns, and nitrous oxide administration. (All of the functions are required for a State license).
Prerequisite: Must have successfully completed DTL 134 (Fundamentals of Dental Assisting) and be employed in the dental profession for at least six months.

ECONOMICS

ECO 100 Economic Issues
3 Credit(s)
This course is an introduction to current economic issues as they affect such matters as inflation, unemployment, discrimination, war and peace, taxes, interest rates, retirement, welfare, education, profits, poverty, pollution and the environment, and our overall quality of life.
ENGLISH

ENG 090  Basic Writing
3   Credit(s)
This course prepares students for English 101 by addressing fundamentals of essay writing. Focus is on the writing and editing processes with an emphasis on correctness, fluency, organization, and revision. A passing score on the mandatory exit exam is required for successful transition to English 101. Prerequisite: A COMPASS score between 47 and 67 in both Reading and Writing is required.

ENG 101  English Composition
3   Credit(s)
Using the essay as a model for organization, students will be introduced to critical reading and writing challenges including pre-writing strategies, invention, revision, and editing. In a minimum of 20 pages of revised writing, students will produce essays and reports that show unity and coherence, develop and support a central thesis, and demonstrate organization and unification. Keyboarding skills are strongly recommended. Prerequisite: A COMPASS score of 68 or better in Reading and Writing or an ACT score of 18-24.

ENG 102  Critical Reading and Writing
3   Credit(s)
Provides instruction in critical reading and writing of expository and argumentative prose, including summaries, analysis, and research. Focus on critical reading; research methods; gathering, evaluating, analyzing, and synthesizing ideas and evidence; and documentation. The course is designed to help students understand and acquire the habits of mind central to academic inquiry and to exercise skills in reporting documented research. Prerequisite: Successful completion of ENG 101 with a grade of C or higher or a minimum COMPASS score of 95 in both Reading and Writing with a satisfactory entry essay written during the first class session. Students who do not pass the entry essay diagnostic exam may be admitted with the permission of the instructor and with the provision that they attend regular tutoring sessions in the Writing Center.

ENG 110  Introduction to Literature
3   Credit(s)
This course surveys major writers and various literary genres throughout a minimum of three historical periods. Reading will include drama, poetry, short stories and novels. The emphasis is on literature as it contributes to and reflects an understanding of the human condition, ideas, and values. Both canonical and diverse contemporary writers will be covered. Students will write a variety of papers equaling 2500 – 3000 words of edited prose. Prerequisite: ENG 101

ENG 202  Technical Communication
3   Credit(s)
This class is designed for those interested in practical applications of technical writing and communication principles. It offers instruction in group dynamics, teamwork, and writing skills applicable to business and industry and includes the fundamentals of composing memos, letters, abstracts, instructions, and reports with an emphasis on clarity, conciseness, and document design. Prerequisite: Successful completion of ENG 101. Recommended: ENG 102.

ENVIRONMENTAL SAFETY & HEALTH

ESH 102  40-Hour OSHA HAZWOPER Training
1   Credit(s)
This class is designed for hazardous waste operation workers as described by 29 CFR 1910.120. Topics of discussion include applicable regulations, chemical and physical hazards, personal protective equipment, decontamination, and emergency response.

HEALTH CARE

HCT 100  Introduction to Health Professions
2   Credit(s)
This course is designed for students entering programs for training in a health care profession. Information provided in this course will give students a basic knowledge regarding the preparation necessary for a large number of health care careers and current health care trends.

HCT 101  Medical Terminology
2   Credit(s)
Using computer assisted instruction, this course provides a body system by body system approach to spelling, pronouncing, and using terminology that is unique to the medical environment.

HCT 103  Introduction to Anatomy and Physiology and Laboratory
4   Credit(s)
This course provides a study of the normal structure and function of body cells, tissues, organs, and body systems, including the interrelationships of body systems and the proper terminology to describe the systems. It relates body systems to patient care. Strongly advise to complete HCT 101 prior to/or concurrently

HCT 105  Phlebotomy
2   Credit(s)
This course provides the student with a working knowledge of specimen collection techniques and laboratory procedures routinely performed in health care facilities while observing all aseptic and safety precautions in accordance with health care standards. Prerequisite: All students must have started their hepatitis B vaccines before the first day of class.
HCT 109   Medical Ethics  
2 Credit(s)  
This course provides a solid understanding of the statutes, regulations, and bioethical issues that impact medical office personnel. Students will be exposed to legal concepts such as standards of care, scope of employment, criminal and civil law, contracts, risk management, and the aspects of medical malpractice cases.

HCT 110   Nutrition  
2 Credit(s)  
The purpose of this class is to acquaint the student with major nutrients and their food sources, as well as basic food groups and the foods contained in each. The student will also learn about nutrition throughout the life cycle.

HCT 111   Growth and Development  
2 Credit(s)  
This course focuses on a study of the life cycle from birth to old age. Study will incorporate theories of growth and development and will incorporate an emphasis on health promotion.

HCT 117   Introduction to Medical Coding  
1 Credit(s)  
Learn the basics needed for medical coding. Coding is essential on every claim form for reimbursement and is vital to a medical practice.

HCT 118   Certificated Nursing Assistant Training  
4 Credit(s)  
Prerequisite: Must be at least 16 years old, CPR card, and current immunizations as per Health Professions Division. This course is designed for persons needing nursing assistant training or for students preparing to enter the practical nursing program. Training is provided through lectures, practice sessions, and clinical experiences using the skills and knowledge of health care principles, policies, and procedures to give personal care to patients in a health care institution. Each student is required to take the written test and skills test. Clinical hours may be different than classroom hours.

HCT-121 Professionalism for Health Careers  
1 Credit(s)  
This class is designed for students enrolled in nursing and health sciences educational programs. The information provided is essential to the success of today’s health care workers. Hands-on technical skills remain a high priority, but good character, a strong work ethic, and personal and professional traits and behaviors are becoming more important than ever before. Regardless of job title or discipline, every health care student and worker must understand the importance of professionalism and the need to perform in a professional, ethical, legal, and competent manner.

LGL 101   Introduction to Legal Assisting  
3 Credit(s)  
Instruction in this course presents an overview of the role of a legal assistant, ethics, regulation, professional trends and issues, legal analysis, and the legal system.

LGL 102   Law Office Procedure and Technology  
3 Credit(s)  
This comprehensive simulation is comprised of various activities most often performed by the legal assistant, such as billing, ordering, appointment and court date scheduling, time keeping, document control, event tracking, and records management. The student will also be introduced to various legal-specific software, telecommunication, and office equipment generally found in a law office.  
Prerequisite: CIS 101.

LGL 103   Legal Terminology  
3 Credit(s)  
Students will learn the definitions, synonyms, and pronunciation of legal terms and apply their usage in producing legal documents, instruments, and correspondence.

LGL 104   Legal Document Drafting  
3 Credit(s)  
This course provides the student with hands-on practice and knowledge required to produce various legal documents in conformity with the Idaho Rules of Civil Procedure, as well as accepted rules of grammar and appearance.

LGL 110   Civil Litigation I  
3 Credit(s)  
This course provides the learner with principles of civil litigation in federal and state courts with a focus on the initial phases of a lawsuit, including client interviews, pre-litigation investigation, jurisdiction and venue considerations, filing a lawsuit, service of process, defendant’s responsive pleadings, and discovery. Discovery topics include interrogatories, depositions, document production and inspection requests, physical and mental examinations, and requests for admission. The principles learned will be applied to practical exercises.  
Prerequisite: LGL 104 or instructor approval.

LGL 204   Estate Planning and Probate  
2 Credit(s)  
This course provides an overview of the role of the legal assistant in the areas of estate planning and probate practice. Instruction is provided in preparing basic estate planning documents such as wills and trusts and the procedure of estate administration from application to order.

LGL 207   Procedures of Bankruptcy Law  
3 Credit(s)  
The main focus of this course is bankruptcy law and procedure. It covers commencement of a case, preparing of schedules, operating and liquidating procedures, adversary matters and litigation in bankruptcy court, debtors’ and
Course Descriptions

creditors' rights and obligations, technical terminology, and practical hints for legal assistants. Forms utilized in bankruptcy court will be stressed as well as proceedings under Chapter 7, Chapter 13, and to a lesser extent, Chapter 11 and 12. Additionally, the rights of creditors will be explored.

**LGL 208  Family Law**
3 Credit(s)
The purpose of the family law course is to give legal assistants an understanding of domestic relations law and to show students how those laws governing family situations are applied. The content of the course covers such areas as formation of a marital relationship, dissolution of marriage, child custody and support, adoption, paternity, domestic violence and child neglect.

**LGL 210  Internship**
3 Credit(s)
This course provides the student with an opportunity to gain practical work experience under the supervision of an attorney or experienced legal assistant in day-to-day, on site office work. The student must prepare the necessary job search documents and conduct interviews to obtain a legal assistant internship position and complete 150 hours of work at the internship site, which may be a private or public law office, corporate or government legal department, or other appropriate law-related setting. In addition to on-site work, the student will prepare a daily journal of his/her activities and observations while on site, and a portfolio of four (4) legal documents prepared on the job site, with client's names redacted, all of which will be reviewed and graded by the course instructor.

**LGL 211  Civil Litigation II**
3 Credit(s)
This course continues the study of the litigation process with the trial and post-trial stages. Discovery topics include interrogatories, depositions, document production and inspection requests, physical and mental examinations, and requests for admission. Other topics include evidentiary issues, settlement negotiations, organization of case files, document control systems, trial preparation, trial procedure, and post-trial proceedings. Overviews of administrative hearings and alternative dispute resolution are also presented.

Prerequisite: LGL 110.

**LGL 212  Criminal Law**
3 Credit(s)
This course is comprised of two sections: the substance of criminal law and the procedure of criminal law. Instruction will be provided on the history of criminal law, criminal responsibility, misdemeanors and felonies, and defenses. Students will be provided with hands-on practical assignments dealing with various legal assistant duties in criminal cases, from investigation to adjudication. A major focus of the class will be on Idaho criminal law and procedure.

**LGL 218  Basic Legal Research**
3 Credit(s)
Covers the basic tools of legal research, including Lexis and internet based research. Emphasis is placed on how to use reference tools fully, finding and updating law, correct citation format, and case briefs.

Prerequisite: LGL 101 or instructor approval.

---

**MEDICAL ASSISTANT**

**MAS 101  Pharmacology for Health Professions**
2 Credit(s)
This course introduces legislation relating to drugs, drug references, drug classification and actions. Various areas will be touched on, such as patient education, effects of specific drug actions on body systems, side effects, precautions to be used, contraindications, etc. Vitamin and mineral functions are covered as well as the subject of substance abuse. Time will be given to learn how to use a PDR as a reference for information.

Prerequisite: MAT 123.

**MAS 106  Externship I**
3 Credit(s)
Upon successful completion of the classroom and laboratory instruction required for a certificate, each student will complete an externship that provides an opportunity in a medical facility to incorporate principles, activities, and skills previously learned while under the supervision of qualified personnel. This externship does not meet the requirements for the associate degree.

**MAS 113  Introduction to Medical Transcription**
2 Credit(s)
Students will be able to transcribe physician-dictated reports organized by body systems. Emphasis will be placed on the development of medical knowledge for transcription of letters, chart notes, history and physical examination reports, consultations, emergency room reports and discharge summaries. Students will review editing, proofreading, grammar, and punctuation, with a focus on speed and accuracy, and learn to use reference materials and other resources.

**MAS 114  General Medical Transcription**
3 Credit(s)
Students will learn to transcribe authentic physician-dictated reports by medical specialty. Continued emphasis will be placed on the development of medical knowledge for transcription of history and physical examination reports, consultations, emergency room reports and discharge summaries. Operative reports, diagnostic studies, radiology and pathology reports, and autopsy and death summaries will be included.

**MAS 118  Telecommunications and Meditech**
1 Credit(s)
Students will learn how to utilize the Internet, modems, and technology to perform medical transcription from different locations. Students will also learn how to use the Meditech patient care system utilized by health care facilities.

**MAS 119  Practicum**
1 Credit(s)
Upon successful completion of classroom and laboratory instruction required for this option, each student will complete a practicum that provides an opportunity in a medical facility to incorporate principles, techniques, and skills previously learned while under the supervision of qualified personnel.
MAS 120  Diseases of the Human Body  
2 Credit(s)  
Introduction to diseases of the Human Body. Includes infectious and congenital diseases, neoplasms, as well as diseases of each specific body system.

MAS 121  Beginning Admin Skills for Medical Assistants  
4 Credit(s)  
This course includes the components of an administrative career in a physician’s office, medical clinic, and other health care facilities. Group collaboration and the aspects of health care team, oral and written communication skills, and operational tasks such as scheduling patient appointments, managing patient records, and patient accounts will be included.

MAS 122  Beginning clinical skills for Medical Assistant  
4 Credit(s)  
This course introduces students to the clinical aspect of working in a physician’s office, medical clinic or other health care facility. Clinical and lab procedures included in this course are: medical record creation and maintenance, vital signs, medical asepsis and OSHA standards, introduction to laboratory procedures and testing and necessary documentation, laboratory quality control and quality assurance, and physical agents that promote healing. Ear and Eye exams and procedures and all necessary documentation. 
Prerequisite: HCT 100 and HCT 103

MAS 205  Administration of Medications  
2 Credit(s)  
This course covers the routes of administration and the proper method of delivery of medications by those routes. Curious types of medication are discussed as well as the absolute rules concerning medication administration, including dosage calculations.

MAS 210  Externship II  
6 Credit(s)  
Upon successful completion of the classroom and laboratory instruction required for an Associate of Applied Science Degree, each student will complete an externship that provides an opportunity in a medical facility to incorporate principles, activities, and skills previously learned while under the supervision of qualified personnel.

MAS 221  Advanced Admin Skills for Medical Assistants  
4 Credit(s)  
Using extensive computer applications, students will learn document composition, banking and bookkeeping skills, advanced medical office procedures, and transcription skills required for medical office management.  
Prerequisite: MAS 111 or approval of course instructor.

MATHEMATICS

MAT 100  Introduction to Algebra  
4 Credit(s)  
This course prepares students to enter technical programs at EITC or other postsecondary institutions. This course will focus on equations, signed numbers, quadratic equations, formulas, inequalities, graphs, and radicals.  
Prerequisite: Successful completion of MAT 75 or equivalent knowledge as demonstrated by minimum COMPASS scores of 45 in Pre-Algebra or between 15 and 39 in Algebra or a minimum mathematics ACT score of 12.

MAT 104  Welding Mathematics  
3 Credit(s)  
This course is designed for students in their first year of Welding Technology. The U.S. Customary and Metric systems of measurement are used. Whole number arithmetic, fractions, percentages, and decimals are used with emphasis on converting units within and between the two systems. Formula solving and setting up of proportion equations are used to solve practical problems in geometry. The course concludes with right triangle trigonometry as applied to typical shop welding problems.  
Prerequisite: A COMPASS Pre-Algebra score of 30 or higher.

MAT 105  Business Mathematics  
3 Credit(s)  
This is a comprehensive mathematics course with an emphasis on math used in business applications. A general review of basic mathematical concepts is followed by an in-depth look at math used in business, such as mark ups, mark downs, financial statements, business margins, ratios, interest, and value of money. A COMPASS score of greater than 30 in Pre-Algebra is required to enter this course.

MAT 108  Intermediate Algebra  
3 Credit(s)  
This intermediate course is a review of algebra with an emphasis on solving equations and inequalities, including nonlinear equations and systems. Additional topics covered include factoring, rational expressions, exponents, radical, and quadratic equations.  
Prerequisites: Successful completion of MAT 100 with a C grade or higher, a COMPASS Algebra score of 41 or higher, or a minimum mathematics ACT score of 18.
MAT 110  Technical Mathematics
3  Credit(s)
This course is designed as a basic mathematics course for students in some technical certificate programs. Appropriate applications for each program will be stressed throughout the course. All sections will review fractions, decimals, percentages, ratios and proportions, calculator usage, formula evaluation, and the metric system. A unit on personal finance is included in this course.
Prerequisite: A COMPASS Pre-Algebra score of 31 or higher.

MAT 112  Mathematics for Health Professions
3  Credit(s)
MAT 112 is a basic mathematics course for students in health professions. Appropriate application in health care will be stressed throughout the course. Course content review fractions/decimals; percentages, ratios and proportions; and covers formula evaluation, dosage measurement, drug orders and labels; the metric system and conversions; methods of dosage calculations; and specialized calculations.
Prerequisite: COMPASS Pre-algebra >45

MAT 123  Mathematics in Modern Society
4  Credit(s)
This course will be a survey of mathematics and focus on effective thinking skills. Many exciting and beautiful mathematical ideas are covered including logic, number theory, probability, statistics, non-Euclidian geometry, and various other higher-level mathematical concepts. The historical, biographical and philosophical nature of mathematics will be explored.
Prerequisites: Math 100, a minimum mathematics ACT score of 19, or a COMPASS score of 46 or higher in Algebra and a 67 in Reading. Corequisite: MAT 123 -L.

MAT 123L  Mathematics in Modern Society Lab
0  Credit(s)
Corequisite: MAT 123.

MAT 143  College Algebra
4  Credit(s)
This course introduces the concepts of and notations used for generalized mathematical functions. These include polynomial functions, radical functions, exponential functions, logarithmic functions and functions of complex numbers. Matrices, sequences, series, and the binomial theorem are covered as preparation for calculus courses.
Prerequisites: Successful completion of MAT 108 with a grade of C or higher, a minimum mathematics ACT score of 23, or a COMPASS Algebra score of 61 or higher.

MANAGEMENT

MGT 115  Leadership Workshops
1  Credit(s)
Participants will learn to view management and leadership as two different but essential skill sets for the efficient, effective executive. Organizations in the 21st Century are facing major changes in the demands of their customers and, at the same time, the needs for their employees. This seminar is designed with state of the art ideas to meet those demands and go beyond. It will help each participant explore what they know, what they don’t know, and what they need to know. The skills needed to become the “best leader” not just better are an integral part of these workshops.

MGT 121  Principles of Management
3  Credit(s)
This course provides an introductory framework for many of the courses taught in the Business Technology Program. Organized around the traditional management functions of planning, organizing, leading, and controlling, a managerial foundation is laid for later instruction in human resource management, small business management, financial management, and entrepreneurship. This course makes heavy use of skills-based exercises and case studies. Learners are presented a behavioral orientation to management where they are required to solve problems, make decisions, respond to situations, and work in groups–activities which simulate many of the day-to-day challenges and opportunities faced by real managers. Regular readings in business periodicals keep the subject firmly anchored in current, contemporary topics.

MGT 201  Special Topics I
1  Credit(s)
This course will address special topics relative to business and industry normally not covered in other courses offered in the Business Technology program. Information and subject matter will be germane to business and business-related occupations and industries. Students who complete a Special Topics course may receive a Certificate of Completion showing specific competencies and subject matter contained in the course.

MGT 202  Special Topics II
1  Credit(s)
This course will address special topics relative to business and industry normally not covered in other courses offered in the Business Technology program. Information and subject matter will be germane to business and business-related occupations and industries. Students who complete a Special Topics course may receive a Certificate of Completion showing specific competencies and subject matter contained in the course.

MGT 203  Special Topics III
2  Credit(s)
This course will address special topics relative to business and industry normally not covered in other courses offered in the Business Technology program. Information and subject matter will be germane to business and business-related occupations and industries. Students who complete a Special Topics course may receive a Certificate of Completion showing specific competencies and subject matter contained in the course.

MGT 204  Special Topics IV
2  Credit(s)
This course will address special topics relative to business and industry normally not covered in other courses offered in the Business Technology program. Information and subject matter will be germane to business and business-related occupations and industries. Students who complete a Special Topics course
may receive a Certificate of Completion showing specific competencies and subject matter contained in the course.

**MGT 206  Small Business Management**  
*3 Credit(s)*  
This course covers all aspects of what it takes to turn dreams into reality -- the dream of owning and operating your own small business. These dreams can lead to new or better products and/or services, creating jobs, and result in a stronger community. Running a small business is difficult in today’s rapidly evolving environment. The theme of this class revolves around creating and maintaining a sustainable competitive advantage. The final project requires students to develop a complete business plan -- including a product and services plan, a marketing plan, a management plan, an operating plan, and a financial plan - for a new business venture of their choice.  
*Prerequisite: MGT 121. Recommended: ACC 210.*

**MGT 207  Financial Management**  
*3 Credit(s)*  
Finance is central to the successful operation of any business entity. The principles and practices of financial management apply to every business unit—from the largest multi-national corporation to the very small proprietorship. Every business student must have a clear understanding of the basic tools of financial management. Concepts such as financial ratios, financial statement analysis, time value of money, net present value, risk and return, stocks and bonds, capital budgeting decision methods, and forecasting will be covered. Regular readings from business publications will assist the student in understanding the relevance to real-world issues and applications.  
*Pre-requisites: MAT 105, MGT 121 and ACC 210 or equivalent.*  
*(ACC 110 or ACC 210 may be taken as a co-requisite with instructor approval). Recommended: MAT 123 or MAT 143.*

**MGT 215  Business Law**  
*3 Credit(s)*  
This introductory course in business law covers the foundations of law, the types of law, the court systems, and the basis of law. The two main focus areas of this course are Contracts and the Law of Sales.

**MGT 216  Human Resource Management**  
*3 Credit(s)*  
People are an organization’s most valuable resource. Effective use of human resources can create a strategic advantage for any corporation wise enough to develop the potential of their people. This course examines the human resource processes of job analysis and design, recruitment, selection, and hiring, as well as compensation, benefits, and downsizing. Review of significant laws regarding human resources, such as labor relations and unions, the Fair Labor Standards Act, sexual harassment, discrimination, ADA, FMLA, and termination is also included.

**MARKETING**

**MKT 103  Sales and Customer Service**  
*3 Credit(s)*  
Selling is the engine that drives all business. It is it’s lifeblood and without sales, companies will go out of business. Students in this course will learn how to sell, the psychology of selling, and what induces the buying motive in customers. Students in this course will participate in actual sales competitions in order to effectively understand the selling process.

**MKT 112  Introduction to Marketing**  
*3 Credit(s)*  
This introductory course is designed to present an overview of the concepts of marketing principles and practices used in business. Models, concepts, and techniques that are effective in the design and implementation of a marketing application are discussed. This course continues on in MKT-125 Introduction to Marketing Strategies.

**MKT 115  Applied Economics**  
*3 Credit(s)*  
This course presents an introduction to economics using the applied approach. Various system, theories, and methods will be used to acquaint the student in such areas as supply and demand, inflation, unemployment, GNP, and other key economic issues.

**MKT 117  Workshop Credit I**  
*1 Credit(s)*  
Students are encouraged to attend workshops, seminars, and other professional development activities. A student may request prior approval for one elective credit in any of a variety of activities as described. Proper documentation and requests will be required before the credit can be awarded.

**MKT 118  Workshop Credit II**  
*1 Credit(s)*  
Students are encouraged to attend workshops, seminars, and other professional development activities. A student may request prior approval for one elective credit in any of a variety of activities as described. Proper documentation and requests will be required before the credit can be awarded.

**MKT 120  Marketing on the Internet**  
*3 Credit(s)*  
As technology changes, so does the way business does business. With the rapid acceptance of the World Wide Web as a tool of business, this course aims to teach the right and wrong way to approach marketing on the Internet. Web page design and deployment as well as direct solicitation over the web will be used extensively in this course.  
*Prerequisite: CIS 101 or demonstrated knowledge of computer operations. Prerequisite or Corequisite: MKT 112 or permission of the instructor.*
MKT 123  Practicum I  
1 Credit(s)  
This course is a one-semester Cooperative Education component which allows the student to work in an approved position in the community in order to apply the skills learned in the classroom in the real business world. This very important course lets the student, instructor, and employer work together in furthering the educational processes.

MKT 124  Practicum II  
1 Credit(s)  
This course is a one-semester continuation of MKT 123, Practicum I.

MKT 125  Introduction to Marketing Strategies  
3 Credit(s)  
This is a second semester continuation of the MKT 112 Introduction to Marketing course. It expands on the principles of marketing by introducing basic marketing research, basic global marketing information, and brand creation, protection, and awareness in addition to other marketing principles. Prerequisite: MKT 112 or with permission of the instructor.

MKT 202  Entrepreneurship  
3 Credit(s)  
This capstone course in the Marketing and Management degree option utilizes a very detailed simulation software package. This challenging simulation is based on a real-life management scenario where each student manages his or her own multi-million dollar company. The simulation is cross-functional and integrates all major elements of business decision making including Research & Development, Production, Finance, and Marketing. Prerequisite: Successful completion of all first, second, and third semester program courses. Student must be enrolled in all fourth semester program courses in order to take this course.

MKT 214  Business Advertising  
3 Credit(s)  
Fundamentals of business advertising and promotion are the focus of this course. Print, electronic, digital, and out-of-home media advertising formats are covered. Course Videos include award winning commercials shown as examples of great advertising. Students produce a portfolio of advertisements employing multiple forms of media which they have collected throughout the semester. The final project involves team participation using a computer simulation of advertising decisions. Prerequisite: MKT 112.

MKT 221  Practicum III  
1 Credit(s)  
This course is a one-semester component which allows the student to apply hands-on techniques to material presented in the classroom/lab. This component will be either through an approved work station or approved real-life experience.

MKT 222  Practicum IV  
1 Credit(s)  
This course is a one-semester continuation of MKT 221, Practicum III.

MECHANICAL TRADES

MTD 101  Industrial Safety and Report Writing  
3 Credit(s)  
This course is offered as an introduction to the Mechanical Trades programs. All new students are required to take this course prior to working in the live work labs. Included in this course are hand and power tools, both welding and mechanical; their identification and proper use; and safety. Drill bit sharpening, tube flaring, use of hacksaws, chisels, punches, taps and dies, easy-outs, and other related tools are covered. Red Cross First Aid and CPR will be provided, hazardous communication, and “Right to know” CFR 10:10.1200 is covered. Work order preparation an industrial report writing covers the 3 C’s of warranty report writing: complaint, cause, and correction.

NURSING

NRS 106  Nursing Skills I  
4 Credit(s)  
This course provides didactic and laboratory practice of basic nursing concepts and skills, including but not limited to: the nursing process, reporting, recording and care planning, advanced vital signs, physical assessment, medical and surgical asepsis/basic sterile technique, care of the patient with communicable disease, communication skills, laboratory and diagnostic tests, and perioperative nursing. Corequisite: NRS 106L.

NRS 106L  Nursing Skills I Lab  
0 Credit(s)  
Corequisite: NRS 106

NRS 107  Introduction to Pharmacology  
3 Credit(s)  
This course presents basic information related to drug administration, sources, actions, therapeutic effect, side effects, and contraindications for all routes of medication administration. It also presents dosage calculation mathematics, intravenous solution calculation mathematics, and considerations in accurate dosages, measurements, and appropriate conversion techniques. Opportunities for practice are provided in the laboratory situation with required skills return demonstration. This course includes IV Therapy I.

NRS 109  Nursing Skills II  
4 Credit(s)  
This course provides didactic and laboratory practice of nursing skills, including but not limited to: oxygen therapy, respiratory support measures, tracheotomy care, admission, transfer and discharge, gastroenteral intubations and feeding, catheterization, wound care, perioperative care, medication administration, bowel and urinary care, geriatric care, musculo
skeleton care. Opportunities for practice are provided in the laboratory situation with required skills return demonstration. 

**Corequisite: NRS 109L.**

### NRS 109L Nursing Skills II Lab

**0 Credit(s)**

**Corequisite: NRS 109**

### NRS 111 Medical/Surgical Nursing I

**3 Credit(s)**

Medical and/or surgical conditions and the related nursing care are presented in the following areas: patient care concepts, physiological responses to illness, acute care, long term care and home health care, cancer, neurological disorders, respiratory disorders, hematological and immunological disorders and diabetes mellitus.

### NRS 115 Fundamentals of Nursing I

**4 Credit(s)**

This course provides didactic and laboratory practice of basic nursing concepts and skills, including but not limited to: the nursing process, documentation and reporting, care planning and concept mapping, advanced vital signs, physical assessment, medical and surgical asepsis/basic sterile technique, care of the patient with communicable disease, communication skills, laboratory and diagnostic tests, medication administration, initiation, maintenance, and monitoring of IV infusions, and how to monitor central venous lines on stable patients. Opportunities for practice are provided in the laboratory situation with required skills return demonstration. Students are introduced to clinical lab simulation practice activities. Clinical experience occurs in the long-term care setting. 

**Prerequisite: NRS 107**

### NRS 116 Fundamentals of Nursing II

**4 Credit(s)**

This course provides didactic and laboratory practice of nursing skills, including but not limited to: oxygen therapy, respiratory support measures, tracheotomy care, admission, transfer and discharge, gastroenteral intubations and feeding, catheterization, wound care, perioperative care, bowel and urinary care, geriatric care, musculo skeleton care. Opportunities for practice are provided in the laboratory situation with required skills return demonstration. Students participate in clinical lab simulation practice activities. Clinical experience occurs in a variety of setting. Students provide care to patients of all age groups. 

**Prerequisite: NRS 115**

### NRS 136 Clinical Foundations I

**5 Credit(s)**

This course provides an opportunity to utilize the nursing process in providing nursing care to patients in various health care facilities within the community. The student will incorporate nursing theory and skills previously learned while they assume the responsibility for patient care. Experience is provided in all major areas of the health care industry.

### NRS 142 Mental Health Nursing

**2 Credit(s)**

This course will stress basic psychiatric diagnoses, history of mental health, coping mechanisms, treatment modalities, defense mechanisms, and psychiatric medications and their side effects.

### NRS 143 Foundations of Medical Surgical Nursing I

**5 Credit(s)**

Medical and/or surgical conditions and the related nursing care are presented in the following areas: patient care concepts, physiological responses to illness, acute care, long term care and home health care, cancer, neurological disorders, respiratory disorders, hematological and immunological disorders and diabetes mellitus. Students participate in clinical lab simulation. Clinical experience occurs in a variety of health care settings throughout the community. Students provide care to patients of all age groups. 

**Prerequisite: NRS 115**

### NRS 144 Mental Health Nursing

**3 Credit(s)**

This course will stress basic psychiatric diagnoses, history of mental health, coping mechanisms, treatment modalities, defense mechanisms, and psychiatric medications and their side effects. Clinical experience occurs primarily in an inpatient psychiatric care facility.

### NRS 201 Maternal/Child Nursing

**2 Credit(s)**

This course considers the special needs and nursing care of the maternity patient, fetus, and the newborn. Medical and/or surgical conditions of the pediatric patient and the accompanying family dynamics are also presented with emphasis on preventive medicine.

### NRS 202 Medical/Surgical Nursing II

**3 Credit(s)**

Medical and/or surgical conditions and the related nursing care are presented in the following areas: cardiovascular disorders, digestive disorders, urologic disorders, musculoskeletal disorders, endocrine disorders, reproductive disorders and disorders of the eyes, ears, nose, and throat.

### NRS 205 IV Therapy

**2 Credit(s)**

This course is the developed state curriculum for IV Therapy Part II. The student will display mastery via paper and pencil test, simulated skills demonstration, and clinical practice how to initiate, maintain, and monitor IV infusions and how to maintain and monitor central venous lines on stable patients. 

**Prerequisite: Licensed LPN in Idaho or last semester practical nursing student in good standing at Eastern Idaho Technical College.**

### NRS 206 LPN Management

**2 Credit(s)**

This course is the developed state curriculum for LPN Management. The student will display mastery via paper and pencil test, simulated skills demonstration, and clinical practice knowledge of nursing care delivery systems.
particularly long-term care. The student will describe and demonstrate principles of professionalism, primary functions of supervision/management, effective communication skills, and principles of self-awareness.

Prerequisite: Licensed LPN in Idaho or last semester practical nursing student in good standing at Eastern Idaho Technical College.

NRS 207 Introduction to Maternal Child Nursing
4 Credit(s)
This course considers the special needs and nursing care of the maternity patient, fetus, and the newborn. Medical and/or surgical conditions of the pediatric patient and the accompanying family dynamics are also presented with emphasis on preventive medicine. Principles of growth and development of the child are incorporated. Clinical experience occurs in the maternal/newborn nursing setting.

Prerequisite: NRS 115

NRS 208 Leadership
3 Credit(s)
This course is the developed state curriculum for LPN Management. The student will display mastery via paper and pencil test, simulated skills demonstration, and clinical practice knowledge of nursing care delivery systems particularly long-term care. The student will describe and demonstrate principles of professionalism, primary functions of supervision/management, effective communication skills, and principles of self-awareness.

NRS 236 Clinical Foundations II
5 Credit(s)
This course is a continuation of nursing theory and skills applied in Nursing Practicum I. This course provides an opportunity to utilize the nursing process in providing care to medical/surgical, maternal/newborn, pediatric, geriatric and mental health patients. Students will incorporate nursing theory and skills while assuming the responsibility for patient care delivered in the acute care, extended care, home care and community settings. Students will also participate in preceptor/preceptee clinical rotations.

NRS 243 Foundations of Medical Surgical Nursing II
5 Credit(s)
Medical and/or surgical conditions and the related nursing care are presented in the following areas: cardiovascular disorders, digestive disorders, urologic disorders, musculoskeletal disorders, endocrine disorders, reproductive disorders and disorders of the eyes, ears, nose, and throat. Students participate in clinical lab simulation. Clinical experience occurs in a variety of health care settings throughout the community. Students provide care to patients of all age groups.

Prerequisite: NRS 143; Co-requisite: NRS 116

ASSOCIATE DEGREE NURSING

ADN 212 Health Assessment
3 Credit(s)
This course is designed to cover physical assessment of all age groups and provide the student with the advanced skills necessary to work effectively in the health care environment. It will cover advanced and complex verbal history, performing physical assessments in health and disease states, advanced critical thinking skills, and developing patient care based on clinical findings. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, simulation labs and guest lecturers.

ADN 220 Intermediate Nursing Intervention
4 Credit(s)
This course will address the professional nursing care of individuals with advanced medical/surgical health deviations. It will focus on the chronic illness phase of the disease process, the rehabilitative process and living with the disease. It will address the nursing care required during childbirth and deviations from normal processes. It will address the needs of the high-risk newborn. It will address the needs of these patients and others requiring care in the community and public health settings. Nutrition, physiology, and pharmacology will be integrated throughout the program. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, simulation labs and guest lecturers.

ADN 221 Intermediate Clinical Foundations
4 Credit(s)
This course will provide clinical experiences to address the needs of patients discussed in ADN 220 utilizing the hospital and community healthcare settings for learning experiences. Nutrition, physiology and pharmacology will be integrated through the learning process. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, simulation labs, guest lecturers and clinical sites within the community hospitals and other medical institutions.

ADN 225 Pharmacology for Nursing
1 Credit(s)
This course will build on skills obtained in NRS 107, Introduction to Pharmacology, and NRS 205, IV Therapy II. It will provide the concepts of pathophysiology and nursing roles in pharmacologic therapies. It will give examine the principles of pharmacology within a body systems framework and emphasize alterations in health patterns throughout the life span. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, the math lab and guest
lecturers.

ADN 230 Advanced Nursing Interventions
4 Credit(s)
The student will learn the professional nursing care of the high-acuity patient and their family. This course is designed to introduce complex skills and knowledge in caring for the acute adult with multiple complex problems and the critically ill adult experiencing alterations in the cardiac, respiratory, circulatory, and renal systems. The student will learn the professional nursing care of the patient and family experiencing a medical emergency, acute and chronic health deviation, interventions, and therapies for treatment. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, simulation labs and guest lecturers.

ADN 231 Advanced Clinical Foundations
4 Credit(s)
The clinical lab and clinical sites will allow the student to work with patients experiencing acute and chronic health deviations in high acuity settings. The student will explore current interventions for both immediate and long term care needs of the patient and family. Nutrition, physiology and pharmacology will be integrated through the learning process. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, simulation labs, guest lecturers and clinical sites within the community hospitals and other medical institutions.

ADN 240 Dimensions of Professional Nursing
2 Credit(s)
The student explores current issues facing nursing in today’s increasingly complex health delivery system including; legal and ethical roles of the profession, economics of health care, nursing research, the theoretical frameworks for nursing practice, RN licensure, coping skills for the novice RN, and the specialization and diversity within the profession. This will be accomplished utilizing textbooks, blackboard, virtual clinical excursions, CD-ROMs, DVDs, internet and web-based sources, simulation labs, the writing lab and guest lecturers.

OCCUPATIONAL RELATIONS

OCR 105 Occupational Relations
3 Credit(s)
This course introduces students to personal and work-related strategies for seeking and keeping employment. Students will study typical employee behavior and organizational culture with an emphasis on seeking solutions to real-life problems. Motivation, leadership, problem-solving, teamwork, and communication will be examined as they apply to successfully achieving personal and corporate goals within organizations. Students will practice interviewing techniques and resume writing. This course prepares students to enter the job market and develop the behavioral skills necessary for job retention and success.

OFP 110 Keyboarding
3 Credit(s)
This course focuses on building speed and accuracy on the keyboard. Emphasis is placed on improving the student’s touch typing technique and ergonomics when using computers. 
Prerequisite: Keyboarding speed of 25 WPM for at least one minute with 5 or fewer errors. (Students may arrange for keyboarding test through the EITC Librarian).

OFP 118 Word Processing
3 Credit(s)
This course provides students with the opportunity to learn word processing for employment purposes or home use. This course instructs students in the theories and practical applications of one of the most popular word processing software programs currently used by industry.
Prerequisite: CIS 101 or equivalent.

OFP 123 Business Machines
1 Credit(s)
This course provides instruction on electronic calculators for entry-level competency using the touch method to develop ten-key calculating ability. Minimal instruction is included for hand-held calculators.

OFP 140 Electronic Office Concepts
3 Credit(s)
This course is for students anticipating employment at any level of a business organization. It emphasizes concepts and terminology necessary to function effectively in the electronic office. It introduces office automation as it relates to the electronic scheduling of appointments and tasks. The course will present the creation and management of notes and telephone messages, and the effective and ethical utilization of electronic distribution of mail and files. Activities will include theory, instruction, demonstration, and hands-on experience.

OFP 141 Business Presentations
3 Credit(s)
This course uses a presentations software package to create business charts and graphs, text charts, computer slide presentations, and other business-oriented graphically represented data. It teaches students to use the software to make presentations to groups or businesses. In addition to using the software, the student will learn how to ‘stand and deliver’ effective business presentations using the latest software and equipment. The course includes instruction, demonstration, and hands-on experience.
Prerequisite: CIS 101 or equivalent.

OFP 142 Business Spreadsheets
3 Credit(s)
This course uses a spreadsheet software package to produce and utilize spreadsheets, a powerful tool in today’s business world.
Prerequisite: CIS 101 or equivalent.

OFP 204 Advanced Word Processing
2 Credit(s)
This course instructs students in the advanced theories and technical applications of one of the most popular word processing software programs currently used by industry.
Prerequisite: OFP 118 or equivalent.

OFP 227 Database Management
3 Credit(s)
This course examines the principles of database development and management. Topics include normalizing data for use in a relational database, designing database tables and relationships, creating forms, utilizing queries and designing reports. The course includes theory, instruction, demonstration, and hands-on experience.
Prerequisite: CIS 101 or equivalent
Recommended: OFP 142

OFP 230 Desktop Publishing
3 Credit(s)
This course introduces desktop publishing. It emphasizes electronic typesetting, design, and paste-up on a personal computer workstation and utilizes specialized word processing software on computers for the design of brochures, newsletters, flyers, packaging, etc. Students produce their own portfolio of work accomplished. The course includes theory, instruction, demonstration, and hands-on experience.
Prerequisite: CIS 101
Recommended: OFP 118

OFP 244 SpeedBuilding
1 Credit(s)
This course gives the students an opportunity to improve skills in keyboarding. The class emphasizes speed and accuracy through improved techniques using timed writings. This is an independent study course.
Prerequisite: OFP 110.

OFP 250 Office Procedures
4 Credit(s)
This capstone class provides the opportunity for students to practice the skills learned throughout the program in a simulated office environment. Students will practice routine office tasks as well as manage larger projects. A variety of software applications will be utilized as well as soft skills and critical thinking skills.
Prerequisite: OFP 140, ACC 110, OFP 204, OFP 227, or permission of the instructor.

PHILOSOPHY

PHL 150 Applied Ethics
3 Credit(s)
This course examines moral principles and moral issues and focuses upon the nature and the ground of moral obligation. It introduces major ethical perspectives and compares those against selected contemporary moral problems. The course is designed to help the student to begin answering some fundamental questions about life and what makes it worth living -- Questions like what makes an action “right,” or what makes us happy, what kinds of qualities a person should have or avoid having, how we should treat other people (and ourselves), and what “work ethic” we want to follow. A variety of ethical issues will be explored, providing students with the opportunity to further examine and develop their own personal moral principles.
Prerequisite: Successful completion of ENG 101.

POLITICAL SCIENCE

POL 101 Introduction to American Government
3 Credit(s)
This introductory course provides a study of the foundation of the United States Government and the evolution of constitutional principles. Special attention is given to the three branches of national government, powers and the limits of national government, state’s rights and local control, public ethics, political parties, voters, pressure groups, civil liberties and civil rights, and public opinion.
Prerequisite: A COMPASS score of 68 or higher in Reading and Writing.

PROFESSIONAL TRUCK DRIVER TRAINING

PTD 101 Professional Truck Driving Fundamentals
5 Credit(s)
The purpose of this course is to provide classroom instruction on industry regulations, vehicle control systems, inspection, basic controls, introduction to shifting, backing, coupling and uncoupling, special rigs, visual search, communications, speed and space management, night driving, extreme driving conditions, emergency maneuvers, preventive maintenance, cargo handling and documentation, hazardous materials, trip planning, accident procedures, and public and employer relations.

PTD 102 Basic Driving Skills Development
1 Credit(s)
Students will receive behind-the-wheel instruction on a driving range and become competent in shifting skills, basic backing, pre-trip preparation, docking, coupling/uncoupling, tire chaining, and tractor-trailer safety.
Prerequisite: PTD 101.
**PTD 103 Advanced Driving Skills Development**  
4 Credit(s)  
Students will receive behind-the-wheel instruction in basic over-the-road driving skills, additional shifting skills instruction, city driving, mountain driving, and freeway driving. Students will continue behind-the-wheel driving instruction completing more extensive city, freeway, and mountain combination trips.  
Prerequisite: PTD 102.

**PSYCHOLOGY**

**PSY 101 Introduction to Psychology**  
3 Credit(s)  
This course is designed to provide students with a general overview of the science that seeks to understand and explain behavior and mental processing. Students will be introduced to many of the major contemporary theories and concepts in psychology including perception, thinking, learning, motivation, personality, human development, and fundamental principles of abnormal and social psychology.  
Prerequisite: A COMPASS score of 68 or higher in reading and writing.

**PSY 150 Human Life Span and Development**  
3 Credit(s)  
This course is designed to examine factors that enhance or inhibit the development of individuals from prenatal stages through death. The primary focus of the course is on factors affecting cognitive, physical, and social development across the life span.  
Prerequisite: Successful completion of ENG 101.  
Recommended: PSY 101.

**RADIATION SAFETY**

**RDS 101 Basic Radiation Protection Principles**  
5 Credit(s)  
A course in the physical and scientific principles fundamental to radiation protection. This course provides the theoretical background necessary to make informed decisions on the job as a radiation safety technician. The class focuses on applied physics, radiation production mechanisms, radioactivity and its properties, radiation interactions with matter, radiation quantities, units and measures, sources of radiation, exposure evaluation and shielding concepts, and biological effects of ionizing radiation.

**RDS 102 Intermediate Radiation Protection Principles**  
5 Credit(s)  
A continuation of material covered in RDS 101. This course covers radiation detection theory and operation, external exposure control, external dosimetry, and survey instrumentation; ALARA principles and shielding, internal dosimetry techniques, contamination control and monitoring, airborne sampling methods and programs, respiratory protection, radiological source control/radiography, particle accelerators, and X-ray equipment.

**RDS 103 Intermediate Radiation Protection Principles Laboratory**  
1 Credit(s)  
This course runs concurrently, supplements, and is required with RDS 101/102. This laboratory takes the theory, principles, and knowledge covered in RDS 101 and RDS 102 and applies it to practical exercises, skills and abilities used by a radiation safety technician on the job. The student will learn source accountability, performance testing of portable and count room instrumentation, performance and documentation of radiation and contamination surveys, posting of areas to reflect current conditions, issuing electronic dosimetry, conducting respirator fit testing, and conducting radiological / ALARA briefings.

**RDS 104 Advanced Radiation Protection Principles**  
5 Credit(s)  
A continuation of material covered in RDS 102. Students will learn advanced principles including respiratory protection, environmental monitoring, radioactive shipments, radiological incidences and emergencies, radiological considerations for first aid, air sampling, responding to radiological incidents and contaminated individuals.  
Corequisite: RDS 104L

**RDS 104L Advanced Radiation Protection Principles Laboratory**  
1 Credit(s)  
This course runs concurrently, supplements, and is required with RDS 104. Students will learn how to survey a radioactive shipment, perform air samples, calculate air sample results, respond to radiological spills and other radiological emergencies, and use decontamination techniques on personnel.  
Corequisite: RDS 104L

**RDS 106 Basic Radiological Chemistry**  
1 Credit(s)  
Students will become acquainted with the Periodic Table, elements and molecular structure, basic chemical bonding and chemical reactions, chemistry changes precipitated by radiation, basic reactive plant chemistry, chemical balance of water, and chemical changes brought about by heat, water quality control and sources of impurities, plant corrosion, and radioactive waste handling of liquids and gasses.  
Corequisite: RDS 104L

**RDS 109 Nuclear Regulatory Practices**  
1 Credit(s)  
Students will become acquainted with regulations implemented by the U.S. Nuclear Regulatory Commission (NRC). The NRC establishes the regulations for the use and storage of radioactive materials for nuclear power plants, research reactors, and other medical, industrial, and academic licensees. This course will cover NRC radiation protection regulation guides, the NRC licensing process, and a review of the Environmental Protection Agency (EPA) regulatory guidance to federal agencies and its involvement with radioactive materials. Emphasis will be placed on the RP Fundamentals exam required for technicians at commercial nuclear facilities.

**RDS 108 Supervised Work Experience**  
7 Credit(s)  
A supervised work experience will be conducted at an instructor-approved work site or on the campus of Eastern Idaho Technical College.
REL 101 Radiation Worker Training
2 Credit(s)
This course provides the student with the knowledge necessary to understand nuclear power plant systems and components and apply that information to the job of a radiation safety technician. An overview of the systems and components of a Boiling Water Reactor and a Pressurized Water Reactor will be discussed. Student will learn how a reactor produces usable electrical energy, the fission process, the major components of each system, how the systems interrelate, and radiological hazards associated with the system. The basic principles of operation for the major components and equipment and the radiological precautions associated with maintenance tasks for each system will also be covered.

REL 103 Nuclear Plant Systems and Components
2 Credit(s)
This course provides the students with the knowledge necessary to understand nuclear power plant systems and components and apply that information to the job of a radiation safety technician. An overview of the systems of a boiling water and pressurized water reactors will be discussed. Students will learn how a reactor produces usable electrical energy, the fission process, the major components of each system, how the systems interrelate, and radiological hazards associated with the system. The basic principles of operation for the major components and equipment and the radiological precautions associated with maintenance tasks for each system will also be covered.

REL 104 Communications in Radiological Safety
2 Credit(s)
Students will learn to write radiological work permits, participate in ALARA reviews, post-job interviews, pre-job briefings, effectively communicate with workers, understand plant and area communication systems, and verbal and non-verbal communications.

SOCIOLOGY

SOC 101 Introduction to Sociology
3 Credit(s)
This introductory course presents the fundamental principles affecting human social systems. Emphasis is placed on the cultural and social forces governing groups and the conditions that transform social life, such as family, social change, social inequality, deviance, population, religion, culture, and the socialization process.
Prerequisite: A COMPASS score of 68 or better in reading and writing.

SURGICAL TECHNOLOGY

SRT 101 Operating Room Techniques I
4 Credit(s)
This course includes the study of safety and economy in the operating room; duties of the scrub and circulating technologist; surgical asepsis, gown and gloving procedures, draping techniques; sutures and needles; sponges, dressings, drains, care of specimens; and instruments and special equipment.

SRT 102 Surgical Procedures I
4 Credit(s)
This course includes the study of surgical procedures for each defined body system. Each of the units of instruction includes a brief history, procedures, special considerations, and the drugs used. Operative procedures, types of incisions, special equipment, instruments, and supplies for each specialty are also integrated as part of the course.

SRT 103 Preparation of the Surgical Patient
3 Credit(s)
This course is designed to enable the student to become skilled in assisting with the preparation, transportation, positioning, and anesthesia of the surgical patient.

SRT 104 Clinical Practicum
5 Credit(s)
Upon completion of the program requirements, the student will participate in a clinical practicum as an integral part of the course. Clinical experience in surgery, scrubbing, and orientation to circulating is included.

SRT 105 Pharmacology for Surgical Technologists
2 Credit(s)
This course is designed to provide skills and information about how drugs are measured, what kinds of drugs there are, what laws pertain to them, and how they’re administered. Surgical pharmacology and anesthesia are stressed with emphasis on side effects and drug reactions as well as emergency measures used to counteract these reactions.

SRT 201 Operating Room Techniques II
4 Credit(s)
This course is a continuation of SRT 101 Operating Room Techniques I where the study of safety in the operating room, duties or scrubbing or circulating, surgical asepsis, gown and gloving procedures, draping techniques, are learned. This course will also include different types of incisions, specialized equipment, instruments, and supplies for each specialty.

SRT 202 Surgical Procedures II
4 Credit(s)
This course is a continuation of SRT 102 Surgical Procedures I. Included in this course is information for more advanced operative procedures such as neurosurgery, microsurgery procedures, cardiovascular and thoracic surgeries.

SRT 204 Advanced Clinical Practicum
8 Credit(s)
This course is a cooperative education work experience in a clinical health facility under direct supervision of facility personnel. Students complete specific and predetermined learning objectives and surgical procedures.
WILDLAND FIRE MANAGEMENT

WFM 101  Basic Fire School (S-110, S-130, S-190, I-100)
2.5  Credit(s)
The purpose of this entry-level course is to train new firefighters in basic firefighting skills in order to have a successful first assignment on a wildland fire. Students will learn the basics of fire behavior, fire line safety, the ability to recognize hazardous situations and the Incident Command structure. Students who complete this course will be qualified to suppress wildfires while under close supervision.

WFM 104  Portable Pumps & Water Use (S-211)
0.5  Credit(s)
This 12-16 hour course is designed to give students practical knowledge and application skills of portable pump operations.

WFM 105  Wildfire Power Saws (S-212)
0.7  Credit(s)
This course will train students in the use of power saws and techniques in order to prepare for their functional role as a power saw operator on an incident.

WFM 108  Supervising Concepts and Technique (S-201)
1  Credit(s)
Through classroom instruction, exercises, and discussion, the student will apply the principles of communication and supervision required of a single resource boss to perform on a wildland fire incident. Students will learn the supervisor’s responsibilities, ethics, and concepts such as workforce diversity, mutual respect, leadership, and team building.

WFM 109  Dozer Boss - Single Resource (S 232)
1  Credit(s)
This course is designed to meet the training recommended for the dozer boss (single resource) on a wildland fire incident.

WFM 110  Interagency Incident Business Management (S-260)
1  Credit(s)
This course is targeted for entry-level logistics and finance/administration positions, helicopter managers, and single resources positions in the incident command system.

WFM 111  Basic Air Operations (S-270)
1  Credit(s)
This course affords the training a survey of uses of air craft and fire suppression and provides the student on how to conduct themselves in and around air craft.

WFM 112  Intermediate Wildland Fire Behavior (S-290)
2  Credit(s)
This is a skill course that is designed to instruct prospective fireline supervisors in wild land fire behavior or effective and safe fire management operations. Upon completion of this course students will be able to determine basic import data of terrain, fuels, and weather require for understanding wildland fire behavior for various times of the day and night. Students will be able to describe the causes of extreme fire behavior, assess fireline data, describe fire conditions, and environmental factors.

WFM 115  Crew Boss (Single Resource) (S-230)
1.5  Credit(s)
This course is designed to meet the training needs of a crew boss on a wildland fire incident. Students will learn preparation, mobilization, tactics and safety, off line duties, demobilization and post incident responsibilities.

WFM 121  Incident Commander Extended Attack (S-300)
1  Credit(s)
This course is designed to prepare the incident commander to gather information, establish priorities, and coordinate resources at the incident scene.

WFM 123  Applied Interagency Incident Business Management (S-261)
1  Credit(s)
This course is targeted for entry-level logistics and finance/administration positions, helicopter managers, and single resources positions in the incident command system.

WFM 124  Advanced Firefighting Training (S-131)
0.5  Credit(s)
This interactive course was added to the wild fire suppression curriculum to provide additional instruction in tactics and safety for the Advanced Firefighter/Squad Boss.

WFM 126  Interagency Helicopter Training Guide (S-217)
2  Credit(s)
This course provides basic knowledge and skills required by individuals who will be working with helicopters. The skills taught relate to fire and non-fire project assignments.

WFM 131  Basic Incident Command System (I-200)
0.7  Credit(s)
This course is designed to introduce students to the principles associated with the Incident Command System.

WFM 135  Fitness Training for the Work Capacity Test
3  Credit(s)
Studies of wildland firefighting clearly show the link between fitness and work performance. The purpose of this self-study course is to prepare students for the Work Capacity Test that is required for anyone working in wildland or prescribed fire positions. The Work Capacity Test involves carrying a 45 pound pack a distance of three miles in 45 minutes. Credit will be awarded upon certification of successful completion of the Work Capacity Test.

WFM 136  Position Task Book (FFT1)
2  Credit(s)
Students will complete the advanced firefighter task book as documentation of competencies learned.
WFM 138  Position Task Book (FFT2)  2  Credit(s)  Students will maintain the basic firefighter task book as documentation of competencies learned.

WFM 141  Engine Operator (PMS 419)  2  Credit(s)  Engine Operator addresses the standards, procedures and techniques to be an engine operator on a wildland or prescribed fire.

WFM 203  Intro to Wildland Fire Behavior Calculations (S-390)  2  Credit(s)  This is a skill course designed to instruct prospective fireline supervisors in wildland fire behavior for effective and safe fire management operations.

WFM 206  Fire Operations in the Urban Interface (S-205)  2  Credit(s)  This course is designed to meet the training needs for initial attack incident commanders and company officers confronting wildland fire that threatens life, property, and improvements.

WFM 208  Engine Boss (S-231)  0.5  Credit(s)  Instructional topics cover tactical use and safety precautions required to establish an effective engine operation on the large incident.

WFM 210  Task Force/Strike Team Leader (S-330)  1.5  Credit(s)  This course is designed to meet the training requirements for the positions of Task Force Leader and Strike Team Leader.

WFM 212  Initial Attack Incident Commander Type 4 (S-200)  1  Credit(s)  This course is designed to prepare the individual in charge of the initial attack of small, non-complex fires, the training needed for readiness and mobilization, size-up of the fire, and the administrative requirements that must be completed by the incident commander.

WFM 220  Intermediate Incident Command System (I-300)  1.75  Credit(s)  This course provides additional description and detail of the organization and operation of the ICS, management of resources, describes the duties of all positions including the Air Operations organization, and provides examples of how the essential principles are used in incident and event planning.

WFM 221  Leadership & Organizational Development (S-301)  2  Credit(s)  This course is designed to provide the students with communication and supervision skills necessary to perform as a unit leader on a wildland fire incident.

WFM 222  Position Task Book for the Strike Team Leader Engine  2  Credit(s)  Students will maintain the Position Task Book for the Strike Team Leader Engine as documentation of competencies learned.

WFM 223  Position Task Book for the Strike Team Leader Crew  2  Credit(s)  Students will maintain the Position Task Book for the Strike Team Leader Crew as documentation of competencies learned.

WFM 224  Position Task Book for the Strike Team Leader Dozer  2  Credit(s)  Students will maintain the Position Task Book for the Strike Team Leader Dozer as documentation of competencies learned.

WFM 225  Position Task Book for the Task Force Leader  2  Credit(s)  Students will maintain the Position Task Book for the Task Team Leader as documentation of competencies learned.

WFM 226  Position Task Book for the Incident Commander Type 4  2  Credit(s)  Students will maintain the Position Task Book for the Incident Commander Type 4 as documentation of competencies learned.

WFM 228  Ignition Operations (S-234)  2  Credit(s)  This course is designed to provide students with the knowledge/skills necessary to perform the tasks described in the Position Task Books for Ignition Specialist Type II and Single Resource Boss-Firing.

WFM 229  Position Task Book for the Crew Boss  2  Credit(s)  Students will maintain the Position Task Book for the Crew Boss as documentation of competencies learned.

WFM 230  Position Task Book for the Dozer Boss  2  Credit(s)  Students will maintain the Position Task Book for the Dozer Boss as documentation of competencies learned.

WFM 231  Position Task Book for the Engine Boss  2  Credit(s)  Students will maintain the Position Task Book for the Engine Boss as documentation of competencies learned.
WELDING

WLD 104 Oxy-Acetylene Cutting and Welding
2 Credit(s)
Identification and use of all parts of oxy-acetylene equipment will be covered. Instruction is given on welding ferrous and non-ferrous metals and the proper techniques in cutting metals.

WLD 107 Blueprint Reading, Layout, and Field Drawing
4 Credit(s)
Basic fundamentals of drawings in the welding trade are covered. This course includes the making of blueprints, drawings with the basic lines views, sketching, notes, specs, and dimensions. It enables the student to build or fabricate projects from blueprints.

WLD 108 Low Hydrogen Welding
4 Credit(s)
Instruction is given on the use of low hydrogen electrodes and their advantages. Students will join two plates forming “Tee”, lap, corner and butt joints, and weld in four positions. Instruction is given in welding single “V”-grove joints with 7018 electrodes to ASME or AWS welding procedures in four positions.

WLD 112 Carbon Air and Plasma Arc Cutting
1 Credit(s)
Instruction is given on hookup and setup air pressure on cutting out fillet welds on carbon steel plates and cutting stainless, aluminum, and cast iron. Instruction is given on setting up the plasma arc cutting machine and gas pressures, cutting stainless steel plates, pipe, and aluminum plates.

WLD 117 Welding Theory and Metallurgy
4 Credit(s)
This course introduces the student to the changes in welding technology and a basic overview of current welding processes. Students will learn about ferrous and nonferrous metals and their use in modern fabrication processes.

WLD 118 Arc Welding
4 Credit(s)
The student will be able to identify types of welding machines, properties, and electrodes. This course enables the student to weld thicknesses from 1/2 inch to 1/8 inch sheet metal according to the AWS and ASME specifications in all positions with 60 series electrodes.

WLD 119 Metallic Inert Gas Welding MIG
5 Credit(s)
Instruction is given on the operation and application of the MIG, inner shield, and dual shield welding process. Instruction is given to weld two carbon steel plates forming a “Tee”, lap corner and butt joints, in four positions. Instruction is given in the MIG welding process in welding open root “V-grove” joints to ASME or AWS welding procedure in four positions. Instruction is also given in welding stainless steel and aluminum plates with the MIG welding process.

WLD 120 Basic Arc Welding I
2 Credit(s)
The student will be able to identify types of welding machines, properties, and electrodes. This course enables a student to weld thicknesses from 1/2 inch to 1/8 inch sheet metal according to AWS and ASME specifications in a flat position.

WLD 121 Basic Arc Welding II
2 Credit(s)
This course is a continuation of WLD 120. Instruction is given on the use of 60 series electrodes and their advantages. Students will join two plates forming a “Tee”, lap, corner and butt joints welding in a vertical and horizontal position according to AWS and ASME specifications for these positions.

WLD 123 Metallic Inert Gas Welding I
2 Credit(s)
Instruction is given on the operation of the MIG, Innershield, and Dual Shield Welding Process in theory. Instruction is given in the hands on application in forming “Tee”, lap, butt, and corner welds in the flat position, according to AWS and ASME standards.

WLD 124 Metallic Inert Gas Welding II
2 Credit(s)
This course is a continuation of WLD 123 with instruction given on “Tee”, lap, corner, and butt welds in flat, vertical, and overhead positions according to AWS and ASME standards.

WLD 126 Metallic Inert Gas Welding II
2 Credit(s)
This course is a continuation of WLD 124 with instruction given on “Tee”, lap, corner, and butt welds in flat, vertical, and overhead positions according to AWS and ASME standards.

WLD 201 Tungsten Inert Gas Welding
4 Credit(s)
The student will be enabled to properly adjust the TIG welders for welding carbon, stainless and aluminum plates, to fabricate Tee, lapp, butt, and corner joints in all four positions. Student will also learn to weld open root single-V groove joints to ASW Specifications.

WLD 202 Pipe Welding
4 Credit(s)
The student will weld on stainless and black pipe from 2 1/2” schedule 40 to 6” schedule 40 using GMAW, GTAW and
SMAW welding processes. Pipe will be welded in the 5G and 6G AWS test positions to AWS standards.

**WLD 204  Testing and Qualifications**  
*4 Credit(s)*  
Course will emphasize ASME and AWS welding test procedures on SMAW, GMAW, and GTAW. Testing will be done in all four positions and will include reading blueprints, welding symbols, and shop math.

**WLD 205  Applied Work Experience**  
*4 Credit(s)*  
This course provides students the opportunity to put into practice, in “real life” situations, skills that have been learned in the classroom and laboratory. Ideally, the applied work experience will be conducted in cooperation with a local employer; however, arrangements for an on campus experience can be made pending instructor approval.

**WLD 206  Quality Control**  
This is an introductory course that will focus on nondestructive and destructive techniques for assessing different welds. Methods covered include Dye Penetrate Testing, Magnetic Particle Testing, Ultrasonic Testing, and an introduction to Radiography.

**WLD 220  Tungsten Inert Gas Welding I**  
*2 Credit(s)*  
Students will be given instruction on proper uses and adjustments of TIG machines. Students will be given instruction on theory and hands-on procedures for welding aluminum, stainless steel, and carbon steel in flat position using “Tee”, lap, butt, and corner joints according to AWS and ASME standards.  
*Equivalent: WLD 220 AND WLD 221 equivalent to WLD 201*

**WLD 221  Tungsten Inert Gas Welding II**  
*2 Credit(s)*  
This is a continuation of WLD 220. Students get instruction in aluminum, stainless steel, and carbon steel in flat, vertical, and overhead positions using “Tee”, lap, butt, and corner joints according to AWS and ASME standards.  
*Equivalent: WLD 220 AND WLD 221 equivalent to WLD 201*
FACULTY & STAFF

ALBISTON, Steve
Dean of Students
B.S., M.Ed., Ph.D., University of Idaho

ANDERSON, Sharee
Health Professions Instructor
B.S., Utah State University
B.S., University of Idaho
D.A., Idaho State University

ARMER, Gina
Business Technologies Instructor
B.A., University of Puget Sound
B.S., Central Washington University
M.B.A., Pacific Lutheran University

BAIRD, Lois
Financial Support Technician
A.S. & A.A.S., Salt Lake Community College.

BAME, Shirley
C.N.A. Coordinator
A.D.N., College of Southern Idaho
B.A.T./Corporate Training, Idaho State University

BEAN, Melissa
EITC Foundation, Executive Director
B.A., Washington State University
M.A., Idaho State University

BECKSTEAD, Jordan
Financial Support Technician
A.A.S., Eastern Idaho Technical College

BELKNAP, Richard
Adult Basic Education Division Manager
B.S., Southern Utah University

BERGGREN, Kent
Trades & Industry, Division Manager
ASE Certified Master Auto Technician

BERRETT, Mariha
Workforce Training Administrative Assistant
A.A.S., Eastern Idaho Technical College

BISHOP, Angalynn
Assistant Registrar
M.P.A., Idaho State University
B.A., Idaho State University

BLACKBURN, Linda
Financial Aid Assistant
Technical Records Specialist I

BLAND, Sandra
Student Services Records Clerk
A.A.S., Eastern Idaho Technical College

BODILY, Robert
Media Services Manager
A.S., Ricks College

BOLLAND, Trenna
Bookstore Clerk

BOURNE, Don
Assistant Controller
B.A. Idaho State University

BRINKERHOFF, Marlene
LPN Instructor
A.D.N., Ricks College
B.S.N., Idaho State University
Post Master Certificate Nursing
M.Ed., Idaho State University

BRINKERHOFF, Paul
Custodian

BROMLEY, Annalea
Human Resources Associate
& Dean of Instruction Assistant
B.A., Mount Union College

BROWN, Hank
Professional Truck Driving Instructor

BROWN, Laurent
Radiation Safety Instructor
B.A., Idaho State University

BRYANT, Bill
Maintenance Craftsman Senior
Northwest Building Operators’ Association; Level II Johnson Controls; Certified Building Operator;
Certified Metasys Facility Operator

BUNNELL, Steve
Building Facility Foreman
Northwest Building Operators’ Association; Level II Certified Building Operator, Johnson Controls; Certified Metasys Facility Operator; Certificate, Eastern Idaho Technical College

BYERS, Melody
Planning and Information Management Analyst

BYINGTON, Joyce
Adult Learning Center Administrative Assistant
A.A.S., Eastern Idaho Technical College

CARTER, Arcilee
Human Resources Specialist/Personnel Technician
Certificate, Ricks College

CASE, Tom
Custodian Foreman

CHAMBERS, Val
Trades & Industry Instructor
A.A.S., Ricks College
ASE Certified Master Automotive Technician
ASE Certified Heavy Truck Technician

CHAPMAN, Becky
Surgical Technology Instructor
Certified Surgical Technologist (CST), Boise State University
B.S., Idaho State University
COFFIN, Mel  
Office Technologies Instructor  
B.S., Brigham Young University

COLLINS, Danielle  
Adult Basic Education, Student Advisor & JET Coordinator  
B.A., M.Ed., Idaho State University

COLLINS, Margaret  
Adult Basic Education, Outreach Coordinator  
B.S., Southampton University  
Business and Teaching Certificates, Exeter University

CROFT, Laurie  
Buyer Assistant  
T.C Office Technologies, EITC

DANIELS, Jody  
Custodian

DePRIEST, Douglas D.  
Director of Planning and Information Management  
B.S., Park University

DINGMAN, Sandi  
Purchasing Agent  
Buyer, Senior  
Certificate, Eastern Idaho Technical College  
C.P.M., Certified Purchasing Manager

DURTSCHI, Lynn  
Health Professions Instructor

DUERSCH, Josh  
CNT Instructor  
A.S., Eastern Idaho Technical College  
Computer Networking Technology, EITC

ERICKSON, Ken  
Workforce Training/Community Education, Manager  
B.A., University of Wisconsin  
M.Ed., University of Idaho

FELT, Suzanne  
Registrar  
B.S., M.Ed., Idaho State University

FOSTER, Karen  
Colleague Administrator  
A.A.S., Eastern Idaho Technical College  
Certified Novell Administrator

FREGOSO, Jeremy  
Distance Learning Technician  
A.A.S., Eastern Idaho Technical College

GARDNER, Lindsay  
Tutoring Center and ESL Instructor  
B.A., University of Utah

GLOVER, Devon  
Bookstore Manager  
B.A., Idaho State University

GODFREY, Christian  
Web Development Instructor  
B.S., Idaho State University; M.S., Boise State University  
Certifications: CompTIA Internet+; CIW; Professional Web Developer; e-bay Education Specialist

GOMBERT, Sheryl  
RN Coordinator  
B.S.N., Idaho State University  
M.S.N., Case Western Reserve University  
C.N.M., Case Western Reserve University

HALKAR, Howard  
Custodian

HAMILTON, Scott  
Dean of Instruction  
B.S.Ed., Eastern Illinois University  
M.S.Ed., Southern Illinois University  
Ed.D., University of Illinois

HARBERT, Traci  
Legal Technologies Instructor

HEILESON, W. Mahlon  
Radiation Safety Instructor  
Certificate, Eastern Idaho Technical College  
B.A., University of Idaho  
M.S., University of Idaho

HIATT, Adam  
IT Information Systems Tech  
Certificate and A.A.S., College of Southern Idaho

HOFFMAN, Lorie  
Practical Nursing Instructor  
A.A.S., St. Mary’s College  
B.S.N., Graceland College  
M.S., California College

HOLMAN, Julieann  
Center for New Directions Trainer/Counselor  
B.A., Idaho State University  
M.S.W., Walla Walla College

HORVATH, Dennis  
INL Radiological Control Program Instructor

HOWARD, Tina  
Practical Nursing Instructor  
B.S.N., Idaho State University

JARDINE, Richard  
Admissions Counselor  
B.S., Brigham Young University  
M.Ed., University of Maryland

JENSEN, Kayla  
Workforce Investment Act Liaison

JERNBERG, Leslie  
Office Technologies Instructor  
B.A., Business Administration-Accounting, Seattle University  
M.Ed., Human Resource Training & Development, Idaho State University; IC3 Authorized Instructor; Microsoft Office Specialist Master Instructor
JOHNSTON, Dianna  
Nursing Outreach Coordinator  
B.S.N., Pacific Lutheran University

JONES, Irene  
Disability Resources and Services Officer  
Greater Opportunities to Achieve Life Skills (GOALS) Instructor  
B.S., Old Dominion University  
M.Ed., Idaho State University

JUDY, Kathleen  
General Education Math Instructor  
A.S., Ricks College  
B.S., Brigham Young University  
M.A.T., University of Idaho

KARSTAD, Karl  
Financial Aid Advisor  
B.S., Brigham Young University-Idaho

KNIGHT, Bobbie  
CNA Clerk

LANGLEY, Eric E.  
Center for New Directions, Trainer/Counselor  
B.A., Physical Education, Fresno State  
Masters of Counseling, Idaho State University

LANSFORD, Marion  
Adult Basic Education Instructor M.S University of Idaho  
B.A., Boise State University

LARSEN, Jacque  
Administration/Administrative Assistant I  
Certified Professional Secretary (C.P.S.)

LEFLER, Roberta  
Center for New Directions,  
Non Traditional Services Coordinator  
A.A., Carl Sandburg Community College  
B.A., Western Illinois University

LeVAN, Pam  
Student Services Administrative Assistant  
Office Specialist II  
Certificate, Eastern Idaho Technical College

LOVELAND, Gordan  
Media Services Assistant  
Certificate in Graphic Arts, Idaho State University

MARTIN, Don  
Diesel Technology Instructor  
ASE Certified Master Truck Technician

McCULLOUGH, Jan  
Assistant Librarian  
B.A., University of Indiana  
M.L.S., Kentucky State

MELDRUM, Jason  
Director of Admissions/Career Placement  
B.A., Brigham Young University  
M.A., Saint Mary’s University

MILLER, Elaine  
Practical Nursing Instructor  
R.N.C., B.S.N., Wright State University

MILLER, Spence  
Accounting Technologies Instructor  
C.P.A., B.A., M.B.A., Idaho State University

MILLS, Cindy  
Medical Assisting Instructor  
A.A.S., Ricks College  
Lakeland Medical and Dental Academy  
Certified Medical Assistant (MLT)  
B.S., CMA (AAMA), Idaho State University

MILLS, Gary  
GED Chief Examiner  
A.A.S., Ricks College  
B.S., Idaho State University  
M.S., University of Idaho

NELSON, Kathleen  
Health Professions, Division Manager  
A.D.N., Ricks College  
B.S.N., M.S.N., Idaho State University

NELSON, Peggy  
General Education, Division Manager  
English Instructor  
Ed.S. University of Idaho  
B.A., M.A. Central Washington University

NUNES, Tonya  
Workforce Training Administrative Assistant  
Office Specialist II  
B.A., Idaho State University

O’DELL, Chris  
Receptionist

OLAVESON, Kelly  
Maintenance Craftsman  
Northwest Building Operators’ Association Level 1

PARK, Colby  
High School Automotive Technologies Instructor  
ASE Certified Master Auto Technician
REESE, Timothy
Business, Office, & Technology, Division Manager
Certificates, Idaho State University; UCLA;
Eastern Idaho Technical College

REID, Ginger
Center for New Directions, Retention Counselor
B.S., Idaho State University
M.Ed., University of Idaho

RICKS, Suzanne
Librarian
B.A., Idaho State University
M.L.I.S., Brigham Young University

ROBERTS, Cory
Custodian

ROBERTS, Deanne
Business Office Technologies Administrative Assistant

ROBERTS, Raeleen
Dental Assisting Instructor
Certificate, Salt Lake City College of Medical & Dental Assistants

ROGERS, Cathy
Center for New Directions Administrative Assistant
Business Certificate, Indiana State University

SCHWALBOSKI L, Ann
General Education Instructor
B.S., St. Cloud State University
M.A., Bowling Green University
M.F.A., Emerson College

SCOTT, Wilma
Trades and Industry, Financial
Support Technician
A.A.S., Eastern Idaho Technical College

SHARP, Shayna
Director, Financial Aid
A.A.S., Ricks College
B.A., Idaho State University

SHURTLIFF, Corey
Welding Technologies Instructor
A.A.S., Eastern Idaho Technical College
ASME/AW Certified Welder

SMART, Robert
Dean of Administration/Controller
B.B.A., Idaho State University

SORRELS, Earl
Environmental Safety & Health Instructor

Director of College Relations/Marketing
A.A., Ricks College
B.A., Utah State University
M.B.A., Thunderbird, School of Global Management

ZAPADKA, Julia
General Education Instructor
B.A., Miami University, Oxford OH
M.A., Appalachian State University
Licensed Professional Counselor (LPC); (NBCC); National Certified Counselor (NCC)

ZOHNER, Sydney
Professional-Technical High School Health Professions Instructor
B.S., Utah State University
Steps for Admissions

Complete and turn in the Admissions Application if you are going into a Degree/Certificate seeking program. (There is a $10.00 fee for the application. This fee also covers the cost of your Compass Test.)

Pay $10.00 Application/Compass fee

Schedule Compass testing at (208) 524-3000 ext. 3371
Free online practice tests are available at www.act.org/compass/sample/

Required at testing:
1. Copy of your receipt
2. A valid Picture ID
3. If testing before 6:00 pm, a temporary parking permit is required
4. No calculator and no children

Have transcripts sent from your last high school/GED attended (MUST be an official copy in sealed envelope sent directly from your school.)

Have transcripts sent from all previously attended colleges (MUST be an official copy in sealed envelope sent directly from your school.)

Make an appointment with a Counselor at (208) 524-3000.
Medical Programs - Steve Albiston
Non-Medical Programs - Richard Jardine
Undecided - Center for New Directions (208) 524-3000 ext. 3363

To apply for financial aid visit our website at www.eitc.edu/ss/faapply.cfm
APPLICATION FOR UNDERGRADUATE ADMISSION to Idaho's Public Colleges & Universities

Mail the completed application or a photocopy along with the appropriate nonrefundable application fee(s) to each Idaho public institution to which you are applying.

Applying to:

- Boise State University
  1910 University Dr.
  Boise, ID 83725-1791
  Fees: $20, Academic Program Fee $200

- College of Southern Idaho
  PD Box 1239,
  Twin Falls, ID 83301
  Fees: $17, Academic Program Fee $200

- Eastern Idaho Technical College
  Student Services: 1400 S. 20th E.,
  Idaho Falls, ID 83405
  Fees: $0

- Idaho State University
  Office of Admissions,
  P.O. Box 2870
  Pocatello, ID 83209
  Fees: $70

- North Idaho College
  1600 W. Garden Ave.,
  Coeur d'Alene, ID 83814
  Fees: $76

- University of Idaho
  PD Box 442614
  Moscow, ID 83844-2614
  Fees: $11

Start Date: [ ] Fall, 20__ [ ] Spring, 20__ [ ] Summer, 20__ [ ] Summer & Fall, 20__

APPLICANT INFORMATION

Name (as on Soc. Sec. Card): ____________________________
Also spell in last first middle

Other Names Appearing on Records:

U.S. Social Security Number: ____________________________ Date of Birth (mm/dd/yyyy): __/__/____

Permanent Residence Address:
number & street/PO box city county state zip area code phone

Current Mailing Address:
number & street/PO box city county state zip area code phone

Mailing Address:
valid until the following date: __/__/____ E-mail Address: ____________________________

GENERAL INFORMATION

Citizenship: [ ] USA [ ] Other
Native Language: [ ] English [ ] Other:

If citizenship is “other,” answer the following questions: Country of citizenship:

Resident alien of U.S.: [ ] Yes [ ] No
Resident alien number: ____________________________

Current visa type:

Gender (optional): [ ] Female [ ] Male
Am I a U.S. Citizen: [ ] Yes [ ] No
Date of Service:

Ethnicity (optional): [ ] African American [ ] Asian American
[ ] Caucasian [ ] Hispanic/Latino/Latina
[ ] Native Hawaiian or other Pacific Islander [ ] Other:

Highest level of education or degree attained by either parent: [ ] Bachelor [ ] Other Degree:

Emergency Contact:
(name & relationship)

ENROLLMENT INFORMATION

Intended Degree Type: [ ] Certificate [ ] Associate [ ] Bachelor [ ] Second Bachelor [ ] Not Seeking Degree or Certificate

Program Type: [ ] Academic Program [ ] Professional Technical Program

Intended Major (Refer to each institution’s publication for a list of majors offered):

List: ____________________________

School (optional):

Enrollment Status: [ ] New [ ] Transfer [ ] Continuing (readmission)

Do you plan to apply for federal financial aid? [ ] Yes [ ] No

Campus Location: If planning to take courses primarily at outreach locations, list these locations:

*Complete Answer Side*
ACADEMIC INFORMATION

Have you taken the □ ACT: Date □ SAT: Date □ COMPASS: Date

List the last high school you attended and any schools since, including colleges, trade schools, correspondence, etc. Do not omit any school. Attach a separate sheet if space is needed. Failure to list all schools attended, or submission of inaccurate information, is considered fraud and is cause for denial or dismissal from the institution. Students needing certificates or degrees must have official transcripts submitted from each school listed. To be considered official, transcripts must be mailed directly from the school to the institution's main office.

DID/WILL YOU GRADUATE FROM HIGH SCHOOL? □ Yes (month/year __________) □ No

High School

City

State

DO YOU HAVE A GED OR HIGH SCHOOL EQUIVALENCY CERTIFICATE? □ Yes (month/year __________) □ No

If yes, degree-seeking applicants are required to submit official GED test scores.

Are/were you a Tech Prep Student? □ Yes □ No

If yes, in which program area did you enroll?

RESIDENCY

Idaho residency status MAY be determined by one or more of the following. Please check all statements that are applicable if claiming Idaho residency for tuition purposes. Residency for community colleges is determined by county of residence.

State of Residence __________ From __/__/____ to __/__/____ If less than 12 months, previous state: __________

County of Residence __________ From __/__/____ to __/__/____ If less than 12 months, previous county: __________

□ One or more of my parents/legal guardians or spouse's parents is a resident of Idaho and has maintained a bona fide domicile in Idaho at least one year prior to the opening day of the school term during which I plan to enroll. If I am a community college applicant, I receive at least 51% of my financial support from my parents/legal guardians.

Parent's name and address __________ From __/__/____ to __/__/____

□ I receive less than fifty percent of my financial support from parents or legal guardians who are not residents of Idaho for voting purposes. I have continuously resided in Idaho for at least 12 months before the opening day of the school term at this institution.

□ I have been employed full-time in Idaho for the past 12 months.

□ I am a graduate of an accredited Idaho high school and I will attend this institution during the term immediately following graduation. If I am a community college applicant, this item may not be applicable to determine residency.

□ I am married to an Idaho resident. My spouse is a resident of __________ County.

□ I or my spouse is a member of the Armed Forces stationed in Idaho on military orders, or Idaho is my or my spouse's designated military home of record. I or my spouse is stationed in __________ County. Records may be requested.

□ One or more of my parents or legal guardians, from whom I receive fifty percent or more of my support, is a member of the Armed Forces stationed in Idaho. They are stationed in __________ County. Records may be requested.

□ I have been separated under honorable conditions from the Armed Forces after at least two years of service. At the time of separation, I designated the State of Idaho as my intended domicile or indicated Idaho as my home of record, and I am entering this institution under one year of the date of separation. Records may be requested.

□ I have been away from the State of Idaho for a period of less than one calendar year. I have not established legal residence elsewhere. I was a resident of the State of Idaho for a continuous twelve month period immediately prior to departure.

□ I am a member of one of the following Idaho American Indian tribes: Coeur d'Alene; Shoshone-Paiute; Nez Perce; Shoshone-Bannock; Kootenai. Records may be requested.

SIGNATURE

In signing this form, I acknowledge that failure to disclose and submit accurate information may result in denial of admission or dismissal from the institution. I certify that all information provided is accurate and true. By signing this application, I certify that I am in compliance with the Federal Military Student Services Act, 50 U.S.C. 468, or that I am exempt from the same. Men between the ages of 16 and 25 must be registered with selective service to be eligible for enrollment at a state college, to receive state and federal financial aid, and to be employed in a state or federal job. You may register with selective service on-line at http://www armedforces.gov.

Acceptance or receipt of financial aid and scholarship awards certifies that the funds will be used for educational purposes.

SCHOLARSHIP APPLICATION

Scholarship Deadline: March 1

How to Apply

Complete this Scholarship Application. The application packet may be submitted by email or to the EITC Financial Aid Office. New students must apply for admission to Eastern Idaho Technical College. Scholarships are made available to EITC students and prospective students through local individuals, businesses, and the EITC Foundation.

Must Do's

☐ Fill out the Scholarship Application and answer all questions that apply to you.
☐ Sign and date your application.
☐ Include your personal statement. (see below for details)
☐ Two letters of recommendation (non-family), addressing strengths, academic achievement; leadership/character, mailed, or emailed under a separate cover to financial aid Melissa.bean@my.eitc.edu
☐ New students will need to include transcript(s), GED scores, or High School Equivalency scores.
☐ If applying for Need Based Scholarships you must complete or renew the FAFSA. (Free Application for Federal Student Aid) the results of your FAFSA will be used to determine eligibility for these scholarships. www.fafsa.ed.gov
☐ I have turned all scholarship information into EITC Financial Aid Office.

Personal Statement

On a separate sheet, please answer the following five questions. Your response must be typed and no more than two double-spaced pages.

1. Please explain your educational goals and how a scholarship would help you attain your goals.
2. How do you see your educational goals contributing to your career field and your community?
3. What facts, characteristics, and qualifications should we be aware of when considering you?
4. Why did you choose Eastern Idaho Technical College?
5. Please describe any community service you have participated in and any information you want to share that you feel the scholarship committee needs to know in making their decision.

Signature Certification

I certify that the information provided on this application is true and correct to the best of my knowledge. I give my consent to forward information regarding my academic records to the EITC Scholarship Committee or to the appropriate individuals for the purpose of consideration/selection. I understand if I receive a scholarship I must be accepted in a program as a certificate or degree seeking student. I must maintain satisfactory academic progress as defined by the scholarship awarded. Scholarships may affect outside funding agency disbursements. For online applications, you will sign this form by typing your name on the signature line; this action will constitute your signature.
