

Workforce Training Apprentices Programs

The Electrical, HVAC and Plumbing trades are growing, and the goal of the College of Eastern Idaho Apprenticeship Programs is to provide each industry with the most highly trained and skilled workforce possible. Students will learn from industry experts in the classroom while earning a living at their craft under the supervision of a licensed Journeyman. Starting with the basics, students will progress each year and ultimately finish, prepared to take the journeyman's test with Idaho Division of Building Safety (DBS).

There are **three** requirements that must be met to receive a Journeyman License: **(1)** working 8,000 hours as a registered apprentice under the supervision of a licensed journeyman (2000/yr. for 4 years) ******; **(2)** attending and passing all four years of Apprenticeship Classes at a state-approved school (144 hours/yr. with a score of 70% or better); and **(3)** passing the State Journeyman's Exam when eligible to take the test.

**** It is the responsibility of the student to secure their own employment and apply for the Apprenticeship License with DBS. The apprentice is also responsible for registering at CEI for the evening classes and providing proof to the State Division of Building Safety of their enrollment in the appropriate course. For more information please visit: www.dbs.idaho.gov/licenses or call (HVAC Bureau 208-332-8989) (Electrical Bureau 208-332-7147) (Plumbing Bureau 208-332-8961).**

PLACEMENT: If a student has military training in the field or has worked in the field in another state, those hours may transfer to Idaho and help to fulfill the requirements to sit for the Journeyman exam. To see if your hours will transfer, contact the State of Idaho DBS.

Registration begins in July online at: www.cei.edu/wtce, Then Select "Register for Classes". Classes run from September to April.

NOTE: Due to COVID-19, all apprenticeship classes will run as hybrid/online classes. All students are required to have a valid email address, internet/Zoom access and a device to complete assignments, quizzes & tests.

Electrical Apprenticeship Courses \$850 tuition + Books

Our program teaches the how's and why's of electrical theory, the National Electrical Code, job safety, lighting, motors and controls, installation methods, and much more.

Associate of Applied Science Degree in Apprenticeship

College of Eastern Idaho offers students in Apprenticeship programs the opportunity to earn an Associate of Applied Science (AAS) Degree in Apprenticeship/Journeymen. This degree may provide students with more marketable skills and enhanced employment opportunities, perhaps as supervisors or business owners. In addition, these additional classes are transferable to other degree programs to fulfill requirements for General Education. The 15 credits* of required classes are:

The general education curricula for the AAS degree must contain a minimum of fifteen (15) credits, so distributed in the following areas:		
Competency Area	Credits	Gen Ed/ Technical
Written Communications - ENG 101	3	Gen Ed
Oral Communications - COM 101	3	Gen Ed
Mathematical Ways of Knowing	3	Gen Ed
Social and Behavioral Ways of Knowing	3	Gen Ed
Any General Education Course	3	Gen Ed
TOTAL	15	

*Interested students should contact Student Services to make an appointment with an Admissions Counselor to learn about the application process and any required prerequisites. CEI Foundation scholarships and Federal Student Aid may be available to pay for general education and related instruction course fees. Please call 208-524-3000. *To meet the residence requirement, a minimum of 25% of the required credits must be completed through CEI.*
