To our community:

Hello! I’m Heather Devasirvatham, Operations Coordinator for Workforce Training & Community Education. I love helping people as they strive to fulfill their goals, whether I’m working with customers directly or behind the scenes to ensure a positive experience for them. My role at WTCE includes customer service, managing our registration database, and data collection and analysis used to determine improvement opportunities. Thanks for taking the time to get to know me – I look forward to connecting with you!

Our goal is to help you along the way to where you want to go in life. We are your life-long learning partner and we’re happy to provide training opportunities to explore a new career, learn a new skill, or simply enrich your life. We’ve expanded our programs to be more accessible; whether its online or in person, we hope to see you in a training program soon.

Please contact us with questions, or if you need any assistance, via email at wtce@cei.edu or call 208.535.5345. Sign up on our website to learn about new classes first: www.cei.edu/wtce.

Accounting and Bookkeeping

QuickBooks
Learn the practical skills necessary to succeed in a bookkeeping role. Provides comprehensive instruction within the QuickBooks program to give a strong base for the QuickBooks Certified User Exam for students interested in taking the exam.

$499  Peggy Green
6092  Online  2/14 - 5/9

QuickBooks Basics
This basic course will provide instruction within the QuickBooks Program covering accounting principles, working with customers and vendors and doing banking. Students will feel comfortable navigating basic entries within QuickBooks software program at the completion of this course.

$245  Peggy Green
6093  Online:  3/17 - 4/18

Introduction to Payroll
An introduction to payroll accounting including setting up a new employee, calculating pay, figuring federal and state income tax withholding, FICA taxes and voluntary deductions from employee’s pay. Employer payroll expenses such as federal and state unemployment taxes will be covered as well as periodic and year end payroll reporting. A comprehensive project will be completed in QuickBooks to wrap up this course.

$525  Peggy Green
6094  Online:  2/15 - 5/10

Fundamentals of Accounting
An introduction to the basic concepts and standards underlying financial accounting systems including analyzing transactions, the accounting cycle, preparing financial statements and their interpretations. Book included in course cost; students should expect to spend a minimum of 10 hours per week (120 hours in total) on the course to ensure they can gain the necessary skills.

$549  Peggy Green
6091  Online:  2/14 - 5/9

Career Development

Certificate in Data Analysis
Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies have vast amounts of data, but it is rare to have someone with the ability to analyze that data to see trends and make predictions. Add a whole new skill set to your portfolio, and make a big difference in the success of your organization by acquiring data analysis skills. Begin with getting a basic understanding of how to analyze data in a business setting. Then learn how many of your business decisions involve comparing groups for differences. You will know the statistics behind these group differences and relationships. Finally you will find out how to perform inquiries that will be useful to your business or organization, and have the skill necessary to communicate these results through graphs and text that your fellow employees will understand. Whether your business is home-based or a large company, this certificate will take you to the next level where important decision-making is concerned.

$495  Jeff Kritzer
6207  Online  2/7 - 4/29
6208  Online  4/4 - 7/1

Certificate in Customer Service
Customer service is now essential for business and all work organizations. With the increase of technology, human interaction with customers becomes all the more important. Whether it relates to retaining customers, serving your audience, or turning inquiries from potential customers into sales, good customer service is now one of the central factors in organizational success. Learn to improve your customer service skills to enhance your career skill set, improve productivity, and increase your organization’s success. You will also take away some extraordinary customer service techniques you won’t find anywhere else.

12 month online access and workbook included with each class.

---

### Word Level 1

Learn fundamental Microsoft Word skills including creating, editing, and formatting documents; inserting simple tables and creating lists; and employing a variety of techniques for improving the appearance and accuracy of document content and tips and tricks.

$199 [Chelisse Sessions](#)

### Word Level 2

Learn to create and modify complex documents and use tools that allow you to customize. Organize content using tables and charts, customize formats using styles and themes, insert content using quick parts, SmartArt and WordArt, use templates to automate document formatting, control the flow of a document, simplify and manage long documents, and use mail merge to create letters, envelopes, and labels.

$199 [Chelisse Sessions](#)

### Excel Level 1

Learn fundamental Excel 2016 skills like creating and developing worksheets and workbooks, as well as how to perform calculations, format and modify worksheets and to print and manage workbooks.

$199 [Chelisse Sessions](#)

### Excel Level 2

Leverage the power of data analysis and presentation in order to make informed, intelligent organizational decisions. Learn to create advanced formulas, analyze data by using functions and conditional formatting, organize and analyze datasets and tables, visualize data by using charts, and analyze data by using PivotTables, slicers, and PivotCharts.

$199 [Chelisse Sessions](#)

### Excel Level 3

Perform advanced data analysis, collaborate on workbooks with other users, and automate workbook functionality. Learn to work with multiple worksheets and workbooks simultaneously, use Lookup functions and formula auditing, share and protect workbooks, automate workbook functionality, create sparklines and map data, and forecast data.

$229 [Chelisse Sessions](#)

### Excel – Data Analysis with PivotTables

Upon successful completion of this course, you will be able to use Excel 2016 advanced PivotTable functionality to analyze your raw data. You will: prepare data for PivotTable reporting and create PivotTables from various data sources, analyze data using PivotTables, and work with PivotCharts. Book is included in the tuition cost.

$125 [Chelisse Sessions](#)

### PowerPoint Level 1

Create and deliver engaging multimedia presentations that convey your message through the use of text, graphics, and animations. Develop a PowerPoint presentation, perform advanced text editing operations, add graphical elements to your presentation, modify objects in your presentation, add charts to your presentation, and prepare to deliver your presentation.

$199 [Chelisse Sessions](#)

### PowerPoint Level 2

Upon completing this course, you will be able to customize the PowerPoint 2016 application and effectively create, collaborate on, secure, and distribute complex multimedia presentations for a variety of situations. You will: modify the PowerPoint environment, customize design templates, add SmartArt to a presentation, work with media and animations, collaborate on a presentation, customize a slide show, secure and distribute a presentation. Book is included in the tuition cost.

$199 [Chelisse Sessions](#)

### Google G-Suite

The office productivity apps that comprise Google G Suite™ support both real-time and asynchronous collaboration. In this course, take your basic knowledge of Google Suite and kick it up to the next level! Learn how to collaborate in Gmail™, Google Drive™, Google Docs™, Google Slides™, Google Drawings™, Google Sheets™, Google Forms™, Google Hangouts™, Google Calendar™, and Google Sites™—and work within their respective environments.

$199 [Chelisse Sessions](#)
Introduction to Game Design

Games are increasingly recognized as a tool that can serve many business purposes beyond entertainment. This course provides a general introduction to what goes into the design and development of both video and analog games, with a particular focus on the use of games outside of consumer entertainment. By completing this course, you can take the first steps into understanding game design, and how it can be applied in your field.

Medical Terminology - Root Terms and Word Associations
This course will present a comprehensive introduction and overview of medical terminology in a straightforward and easy manner for students who have no previous background in biology or medicine. Students will gain hands-on, practical experience working with word parts and medical terms related to each of the body systems. Students in this course will learn by doing. Every lesson reinforces the content through writing exercises and interaction with medical terminology. Through these interactive activities, students will gain the fundamental knowledge needed to be successful in one of the many fastest-growing fields in allied health.

Spanish for Medical Professionals
Are you frustrated by the communication gap that can occur between you and your Spanish-speaking patients? If you answered yes, this Spanish class - designed specifically for healthcare professionals - will help you bridge that gap. You will practice the basic, practical language skills needed to effectively communicate with your Spanish-speaking patients and their families. You will learn the basics of the language, gain an understanding of the culture, and know how to ask the questions crucial to quality healthcare. Whether you speak some Spanish and need a refresher, or speak no Spanish, you will complete the course with the skills you will need to effectively communicate with your Spanish-speaking patients.

Instructor Highlight
Beverly Hanson

Beverly began her professional dance career at age 16, when she received a Ford Foundation Scholarship to study at the San Francisco Ballet School. She performed tap, musical comedy, and ballet with orchestras throughout the United States including performances with a partner (Fred Astaire and Ginger Rogers style). She has taught both ballet and tap in San Francisco, Seattle, and St George. After her dance career, she became a nurse practitioner, but continues to love and teach tap.
Lifestyle
