Federal Drug-Free Schools and Campuses Regulations

COLLEGE OF EASTERN IDAHO ANNUAL POLICY NOTIFICATION/DISTRIBUTION

As a requirement of these regulations, College of Eastern Idaho is to disseminate and ensure receipt of the following information to students, staff and faculty on an annual basis. This process is formally conducted by the office of the Dean of Students. Questions concerning this notification may be directed to Hailey Mack, Dean of Students, in charge of Drug-Free Schools and Campus Compliance Prevention Programs at hailey.mack@cei.edu or 208-535-5491. Employee questions and concerns can be directed to Mary Taylor, Vice President of Human Resources at mary.taylor@cei.edu or 208-535-5303.

Policies-Alcohol, Other Drugs and Weapons

As an academic community, College of Eastern Idaho (CEI) is committed to providing an environment in which learning and scholarship can flourish. The possession of illegal drugs or the abuse of those which may otherwise be legally possessed, seriously effects the college environment as well as the individual potential of our students and staff. CEI enforces state laws and related college policies including those prohibiting the following activities on campus:

- A. Providing alcoholic beverages to individuals under 21 or possession or consumption of alcoholic beverages by individuals under 21. Campus policy states that alcoholic beverages are not allowed on college-owned or controlled property or at functions sponsored by the college. The SBOE has consistently opposed any policy permitting intoxicating beverages on college-owned or controlled property.
- B. Distribution, possession, or use of illegal drugs or controlled substances. CEI policy states that storage, sale, manufacturing, distribution, possession or use of any illicit drug is prohibited. Prescribed medications are to be used only at the direction of a licensed physician.
- C. Possession of firearms or other dangerous weapons. Campus policy states that possession, wearing, carrying, transporting, or use of a weapon, except pursuant to an exemption expressly stated in adopted procedures is strictly prohibited on college-owned or controlled premises. This prohibition extends to any person with a government-issued enhanced carry permit or license, unless specifically covered by an exception to the prohibition.

The college can and will impose disciplinary sanctions for violations. This referral can include three outcomes:

- Referral to authorities. If the crime is a criminal act, a case can be referred to law enforcement for arrest and/or prosecution.
- Referral to conduct. A case may be referred to the Dean of Students for violations of the code of conduct.
- Referral to security. A case may be referred to campus security for various security-related reasons.

Students will also be subject to city ordinances and state and federal laws. A separate policy addresses violation by college staff and is posted at the CEI website.

CEI strongly encourages students and staff members to voluntarily obtain assistance for dependency or abuse problems before such behavior results in an arrest and/or disciplinary referral which might result in the separation from the institution.

The use of, or addiction to, alcohol, marijuana, or controlled substances, both illegal and prescription drugs, should not be considered an excuse for violations of college policy or staff expectations and will not be a mitigating factor in the application of appropriate disciplinary sanctions for such a violation.

Help is available both on campus and within the community for students and staff members who are dependent on, or who abuse alcohol or other drugs. The CEI Counseling Center can be reached at 208-535-5371 and the CEI Employee Assistance Program can be reached at 877-427-2327. These agencies along with other professionals will maintain the confidentiality of persons seeking help for personal dependency and will not report them to the institution or state authorities.

Student Sanctions – Alcohol, Other Drugs and Weapons

Underage students confronted by the institution for the consumption of alcohol will face disciplinary consequences ranging from sanctions to expulsion and may include academic probation or suspension.

Students whose use of alcohol and/or drugs results in harm or threat of harm to themselves or others, or to property, regardless of the location of the incident, may face disciplinary action by the college up to and including expulsion.

Testing for the presence of any illegal substance may be a condition of any probationary status imposed by CEI for violations of drug-related provisions of this policy. Testing for illegal drugs shall be performed and will include testing for the following substances: cocaine, marijuana, opiates, amphetamines, methamphetamines, and phencyclidines. A student with a positive result may face disciplinary action by CEI up to and including expulsion.

*CEI reserves the right to administer any or all of the sanctions listed above and doesn't imply that they will be given in any particular order. The sanction and its seriousness will depend on the severity of the violation even for a first offense.

As members of the college community, students are also subject to city ordinances and to state and federal law. Arrest and prosecution for alleged violations of criminal law or city ordinances may result from the same incident for which the College imposes disciplinary sanctions.

Employee Sanctions

CEI strictly prohibits the unauthorized use, possession, manufacture, distribution, dispersal, purchase or sale of controlled substances or alcohol on CEI properties, as part of its activities, or in the performance of an employee's duties including conducting college business off college premises.

Violation of this policy may lead to disciplinary action, from required participation in an approved drug abuse assistance or rehabilitation program up to and including termination of employment.

Local Legal Sanctions for Drug and Alcohol Offenses

Federal Drug Laws

The possession, use, or distribution of illicit drugs is prohibited by federal law. Strict penalties are enforced for drug convictions, including mandatory prison terms for many offenses. The following information, although not complete, is an overview of federal penalties for first convictions. All penalties are doubled for any subsequent drug conviction.

Denial of Federal Aid (20 USC 1091)

Under the Higher Education Act of 1998, students convicted under federal or state law for the sale or possession of drugs will have their federal financial aid eligibility suspended. This includes all federal grants, loans, federal work study programs, and more. Students convicted of drug possession will be ineligible for one year from the date of the conviction of the first offense, two years for the second offense, and indefinitely for the third offense. Students convicted of selling drugs will be ineligible for two years from the date of the first conviction, and indefinitely for the second offense. Those who lose eligibility can regain eligibility by successfully completing an approved drug rehabilitation program.

Forfeiture of Personal Property and Real Estate (21 USC 853)

Any person convicted of a federal drug offense punishable by more than one year in prison shall forfeit to the United States any personal or real property related to the violation, including houses, cars, and other personal belongings. A warrant of seizure is issued and property is seized at the time an individual is arrested on charges that may result in forfeiture.

Federal Drug Trafficking Penalties (21 USC 841)

Penalties for federal drug trafficking convictions vary according to the quantity of the controlled substance involved in the transaction. The following list is a sample of the range and severity of federal penalties imposed for first convictions. Penalties for subsequent convictions are twice as severe.

If death or serious bodily injury result from the use of a controlled substance which has been illegally distributed, the person convicted on federal charges of distributing the substance faces mandatory life sentence and fines ranging up to \$8 million.

Persons convicted on federal charges of drug trafficking within 1,000 feet of a University (21 USC 845a) face penalties of prison terms and fines which are twice as high as the regular penalties for the offense, with a mandatory prison sentence of at least 1 year.

Prevention and Education

Individual, group and community educational programs and interventions designed to prevent and reduce alcohol and other drug use/abuse are offered to CEI students, staff and faculty. The Center for New Directions at CEI has set up a program, under the direction of the Dean of Students, to educate students about safe drinking practices. They send out as a birthday card to students when they turn the age of 21 in the hopes that the information will help students to create strategies and be mindful of them when choosing to drink alcohol.

Eastern Idaho Public Health has a comprehensive program for preventing underage drinking and use and abuse of drugs as well as a program called Partnership for Success which is made up of community partners who develop multiple strategies prevent underage drinking. Their program contains media messaging and education components that any institution can use to educate their community.
