POSITION INFORMATION

POSITION NAME

Diesel & Automotive Technician

We are seeking a skilled diesel technician to join our team, responsible for diagnosing, repairing, and maintaining diesel powered vehicles and to ensure safe and efficient operations.

Diagnostics: Run diagnostic tests on diesel engines, electrical systems, and hydraulic systems to identify issues

Repairs: Repair or replace malfunctioning components, including engines, transmissions, differentials, and braking systems.

Maintenance: Perform preventative maintenance, including oil changes, fluid checks and brake adjustments.

Inspections: Conduct thorough safety inspections and test-drive vehicles to ensure proper performance.

Documentation: Maintain accurate, detailed service records and work orders in company computer systems.

MINIMUM QUALIFICATIONS

High school Diploma or equivalent; completion of a diesel technical program is preferred

Proven experience as a diesel technician or similar role

Proficiency in using specialized tools and diagnostic computer software.

Strong knowledge of diesel engines, hydraulics, and electrical systems

Valid drivers license

SALARY/ WAGE RANGE

\$25.00 - \$35.00

EMPLOYMENT TYPE

Full-Time

CLOSING DATE
