POSITION INFORMATION

POSITION NAME

Instrumentation & Controls Technician

Oklo is transforming the future of energy, and we are looking for an experienced Instrumentation & Controls Technician to support the design, fabrication, commissioning, and operation of test platforms used in advanced nuclear technology development.

The ideal candidate has broad, hands-on instrumentation experience and strong familiarity with the Emerson DeltaV distributed control system. Experience working under a nuclear quality assurance program, particularly ASME NQA-1, is preferred.

MINIMUM QUALIFICATIONS

Associate degree, technical diploma, apprenticeship, military technical training, or equivalent practical experience in instrumentation, controls, electronics, electrical technology, industrial automation, or a related field.

At least 3 years of hands-on experience with industrial instrumentation, control systems, test systems, process facilities, or similar equipment.

Experience installing, calibrating, commissioning, maintaining, and troubleshooting industrial instrumentation.

Ability to read and interpret electrical schematics, wiring diagrams, loop diagrams, piping and instrumentation diagrams, instrument data sheets, and equipment manuals.

Familiarity with common industrial signals and protocols, including 4–20 mA, discrete I/O, HART, and Ethernet-based communications.

Experience using calibration and diagnostic equipment such as digital multimeters, process calibrators, pressure calibrators, loop simulators, communicators, and electrical test equipment.

Ability to lift, move, and position equipment weighing up to 30 pounds.

SALARY/ WAGE RANGE

\$30.00-\$55.00/ hour

EMPLOYMENT TYPE

Full-Time

CLOSING DATE

12/01/2026
